TAKE NOTICE that the City of Key West Code Compliance Division has requested the City of Key West Special Magistrate to conduct an administrative hearing regarding code violation(s) reported to you by **NOTICE OF CODE VIOLATION** concerning the above noted subject address. You were noticed that your property is in violation of the City of Key West Code of Ordinances for the following reason(s):

Count 1: Sec. 14-40. - Permits in historic districts.

(a) Requirements. No building or work permit required by this Code for work in the historic zoning districts of the city or in tidal waters contiguous to and within 600 feet of the historic zoning districts shall be issued until a certificate of appropriateness has been granted by vote of the historic architectural review commission, attested by signature of its presiding member, and until the city manager finds that the building or work permit conforms to all laws and regulations of the city.

(b) Contents. All permits issued by the city shall show the nature and extent of the intended work in detail sufficient to demonstrate that the project is consistent with all city laws and regulations and of the historic architectural review commission.

(c) Stop work order; penalty. The building official is authorized to post a signed and dated notice to stop work on any site on which work is being performed in violation of the city laws and regulations or of the historic architectural review commission. Any person shall be guilty of an offense punishable as provided in section 1-15 if the person:

- (1) Performs work with actual or constructive knowledge that the work site has been posted by such notice, which notice has not been withdrawn by a dated, signed order of the building official; or
- (2) Removes, defaces, conceals or alters such notice to stop work, without a dated, signed authorization of the building official.

Where such offenses are of a continuing nature, no two separate offenses shall be charged against the same person within any one-hour period.

To wit: Under permit # 10-01000236 issued on July 30th, 2010 8 windows in the front of building were supposed to be replaced. Instead 18 windows in total were replaced including side windows without the benefit of a certificate of appropriateness from HARC for the additional 10 windows installed. On February 4th, 2013 after conducting a site inspection I provided property owner Mrs. Mary Ann Worth with a courtesy notice requesting compliance within 10 working days. Today we have not received applications for this after the fact performed work.

Corrective action: Please Visit our Building Department at 3140 Flagler Avenue, Key West, Florida 33040 to apply for after the fact HARC required certificate of appropriateness.

Count 2: Sec. 14-37. - Building permits; professional plans; display of permits.

Within 48 hours after it is issued, the applicant must cause the permit to be posted and displayed at the work site so that it is readily visible from an adjacent public street throughout the term of the work. No work shall be performed unless a proper permit is so posted.

(b) Professional plans required. Professional plans shall be required as follows:

(1) Plans for work requiring a building permit shall be submitted in duplicate or in triplicate if required by the state to the building official and shall be prepared by, and bear the seal of, an architect or structural engineer duly registered in the state, except if the work is by the owner-occupant upon a one- or two-family residence, and the work is cosmetic, nonstructural repair, alteration or addition.

(c) Work done by owner-occupant. A building permit may be issued to the owner-occupant of real property to construct or cause to be constructed, while the owner-occupant is present on the site, a one- or two-family residential structure for his own use and not offered for sale or lease or to repair the structure without being required to be a qualified contractor himself in accordance with this article and without being required to employ a licensed contractor.
