

Historic Architectural Review Commission Staff Report for Item 2

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Casey Burtch
Historic Preservation Planner II

Meeting Date: June 27, 2023

Applicant: Serge Mashtakov, P.E.

Application Number: H2023-0014

Address: 1217 Newton Street

Description of Work

Partial enclosure of an existing second floor roof deck at the rear of the house.

Site Facts

The building under review is a historic frame vernacular house and listed as a contributing resource within the historic district, built circa 1890. The historic portion of the structure was a one-story dwelling. The Sanborn Maps support that the structure was a one-story structure as of 1962. Staff were able to locate the neighboring properties circa 1965 photos with portions of 1217 Newton visible and still a one-story structure. The taller portion is on the rear of the structure is two and a half stories with a second-floor roof deck that serves as a terrace to the attic space of the house. According to the property appraiser's records the two-story addition and rear second floor roof deck were built in 1997. Staff were able to locate aerial photographic evidence of the building in 1994 and 1998 which support the date of the addition of a second story.

Existing Front of Historic Structure

Existing Rear of Historic Structure

Historic Photo neighboring structure West of the property under review at 1215 Newton Street circa 1965.

Historic Photo neighboring structure East of the property under review at 1219 Newton Street circa 1965.

Guidelines Cited on Review

- Wood Exteriors (page 24), specifically guidelines 1.
- Dormers (page 27), specifically guidelines 1, 2, 3, and 5; Dormer Definition (page 70)
- Additions and Alterations (pages 37-a – 37-k), specifically guidelines 6, 9, 11, 12, 13, 25 (second sentence), 30, and 32; all paragraphs (page 37-e); Building Form and Massing paragraph (page 37-f).
- New Construction (pages 38-a – 38-q) specifically guidelines 11, 12, 13, 14, 15, and 21; first paragraph (page 38-e); Compatibility, first two sentences in the 4th paragraph (page 38-i).

Staff Analysis

The Certificate of Appropriateness under review proposes adding an addition the rear of the property on the non-contributing two and a half story portion at 1217 Newton Street. The proposal suggests the addition to be located over what is currently a roof deck. The proposed materials include wood elements, wood lap siding, aluminum doors & V crimp roofing.

Consistency with Guidelines Cited Guidelines

Staff finds the current proposal to be inconsistent with most of the cited guidelines and proposes expanding a non-conformity. The existing height and scale of the addition made in the late 90s is not proportionate to the historic structure and would not be approved if the guidelines were applied today. In this case, since a very tall structure was added and overshadows the historic structure on the property, adding more mass would be an inappropriate design solution. Specifically mentioned in the guidelines is the “removal of non-historic additions that have altered or changed the three-dimensional footprint”, which would not be possible and was not approached with this design. While the proposed design would unlikely be seen, except from direct neighboring rear yards, staff has concerns of a precedent being set. The immediate context on the block does contain tall structures however, those buildings were originally built at their current height unlike the house under review. The proposed addition size and proportion fills the current void of the structure on the roof and increases the three-dimensional form, functionally creating a third floor. The definition of a dormer is a vertical window set in a sloping roof or a roofed structure containing a window. While all aspects of the proposed design are in direct conflict with the cited guidelines within the Dormer section, the addition may/not be considered a dormer in this case because of its relationship to the roof and the scale of the proposed design. New construction guidelines specific to height, width and proportion do not support the proposed design as well. Staff opine the proposed mass, scale, form, proportions, and location for the addition is not appropriate to the original historic structure, already overshadowed.

Boundary Survey Report of part of Lots 4 & 6, Square 1, Tract 7,
Island of Key West

NOTES:

1. The legal descriptions shown hereon were furnished by the client or their agent.
2. Underground foundations and utilities were not located.
3. All angles are 90° (Measured & Record) unless otherwise noted.
4. Street address: 1217 Newton Street, Key West, FL.
5. This survey is not valid without the signature and the original raised seal of a Florida licensed surveyor and mapper.
6. Lands shown hereon were not abstracted for rights-of-way, easements, ownership, or other instruments of record.
7. North Arrow is assumed and based on the legal description.
8. All concrete, decking & bricking is not shown.
9. Date of field work: April 3, 2020.
10. This Survey Report is not full and complete without the attached Survey Map.
11. The ownership of fences is undeterminable unless otherwise noted.

BOUNDARY SURVEY OF: On the Island of Key West, and known on Wm. A. Whitehead's map delineated in February 1829, as a Part of Tract 7, but now better known as Part of Lots 4 and 6, of Square 1 of said Tract 7, according to Jas. A. Waddell's Subdivision of said Tract 7; and being more particularly described by metes and bounds as follows:
COMMENCING at a point on Newton Street, distant from the corner of Newton Street and an alley in the rear of what is known as Seidenberg's Factory 25 feet, and running thence on said Newton Street Northeasterly 25 feet; thence at right angles Northwesterly 80 feet; thence at right angles Southwesterly 25 feet; thence at right angles Southeasterly 80 feet out to Newton Street to the Point of Beginning.
