Historical Architecture Review Committee, (HARC)
Key West FL

Dear HARC Members

I am writing to you to voice my support for Mr. Peter Sulak who is my neighbor and has a pending application for improvements to his house. Our neighborhood of the 1200 block of Margaret Street is a mixture of architectural styles including a Restaurant, two story condos, Conch Cottages and even Spanish Ranch style. I fully support Mr. Sulak's intention to add on to his home and other changes he is requesting. I have know Peter and his family for six years and also he has done work for me in two residences we own. His workmanship is superb and any improvements he is asking for will only make our neighborhood better. He has a growing family and desperately needs to increase his living space as requested by his application. Peter and his family are full time Key West residents and unlike three other flipped vacation properties in our neighborhood he will continue to reside there. My greatest fear is that his application is denied and he will be forced to relocate and we will lose a valuable neighbor, friend and true Key West Citizen. I personally urge you to approve his request

Sincerely yours,

Christopher C. Myers
