Historic Architectural Review Commission

Staff Report Item 4b

Meeting Date:	March 12, 2013
Applicant:	William Rowan
Application Number:	H13-01-0223
Address:	#910 United Street
Description of Work:	Demolish exterior stair, landing and overhang.
Building Facts:	The house is listed as a contributing resource. The two story frame vernacular house was built in 1899. The house has two dwelling units with access to the second floor unit via an exterior stair. The lot is located in an X .2% flood zone for FEMA purposes.
Guidelines and Ordinance Cited in Review:	Ordinance for Demolitions in the historic District, specifically Sec. 102-217 (2).

Staff Analysis

The Certificate of Appropriateness for review is a request to remove a shed roof over the existing first floor addition wooden exterior staircase and a second floor overhang. According to the Sanborn map an addition to the west side of the building is depicted on the 1962 Sanborn map. No exterior staircases are shown on any of the Sanborn maps.

Consistency with Guidelines

It is staff's opinion that the proposed request can be considered by the Commission since all the proposed structures to be demolished are not contributing, nor historic or can be considered contributing in a near future. Although the attached addition is shown on the 1962 Sanborn map, it has been altered and reconstructed through time. If the request is approved this will need just one reading since it is for a demolition of non-historic and non-contributing structures.
