Subject: RE: 11.17.22 DRC Agenda

Urban Forestry Manager Comments: Sunrise Canal is City owned therefore, this is the proper process for this davit application. It appears that both Federal and State permits have been issued. A City building permit will be required and I will attach conditions to the building permit that will require adherence to the State and Federal permit conditions especially regarding control of debris-use of turbidity screens and endangered species requirements. I have no additional comments.

Sincerely,

Karen
