

**Historic Architectural Review Commission
Staff Report for Item 8**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: May 28, 2019

Applicant: William Rowan, Architect

Application Number: H2019-0004

Address: #3 Lopez Lane

Description of Work

Demolition of shed dormer.

Site Facts

The site under review is located at the end of Lopez Lane, where the main structure on the site is a frame vernacular single-family house listed as an altered-contributing resource to the historic district since 1982. The circa 1910 house is extremely altered as the southeast portion of the gable roof was removed and a second floor was added and is called a “*dormer*” in the application. In addition, a one-story shed roof attached to the south side of the main house was removed. Staff has not been able to find approvals for such alterations, and as of 1972, the house configuration depicted in the 1962 Sanborn map was still in place. The front elevation of the main house is partially visible from the end of the lane, through a six-foot fence. On its south and east sides, the structure is surrounded by transient use structures.

On April 18, 2019, the Planning Board reviewed and approved the submitted plans for variance to exceed the maximum building coverage of 40% to 42%. Current building coverage is 37%.

Ordinances Cited on Review

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations for the removal of a shed “*dormer*” at the main house.

Staff Analysis

A Certificate of Appropriateness is under review for the replacement of an existing “*dormer*” which has altered the existing massing and roof form of an altered- contributing resource. The existing and new “*dormer*” has extended the first floor southeast wall. In order to accommodate the new “*dormer*” the existing one must be demolished.

It is staff’s opinion that the request for the demolition of a non-historic second floor addition of the building shall be based on the demolition criteria of Chapter 102 Section 218 of the LDR’s. The ordinance states the following; “*the historic architectural review commission shall not issue a certificate of appropriateness that would result in:*

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff’s opinion that the removal of the non- historic second floor addition will liberate the house from an inappropriate addition and can bring back the original roof form of the house. However, the proposed new addition to the roof is contrary to current design regulations.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The addition in question has destroyed and altered a character-defining element of the house.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

The addition in question has destroyed and altered a character-defining element of the house. The “*dormer*” cannot be considered a significant later addition to the historic house.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff’s opinion that the “*dormer*” has created the status of the main house as an altered-contributing resource.

In conclusion, it is staff's opinion that the request for the removal of the existing addition will be beneficial and an appropriate action, nonetheless, the proposed design fails current regulations for new construction and additions. If the Commission finds the design and demolition request appropriate, this will be the only required reading.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

REMOVAL OF SHED CORNER ON MAIN STRUCTURE (BUILDING A)

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

NOT APPLICABLE

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

NOT APPLICABLE

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

NOT APPLICABLE

(d) Is not the site of a historic event with significant effect upon society.

NOT APPLICABLE

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

N. A.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

N. A.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

N. A.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

N.A.

(i) Has not yielded, and is not likely to yield, information important in history.

N.A.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

WE ARE PROPOSING TO RECONFIGURE THE EXISTING NON HISTORIC SHED ROOF.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

BY RECONFIGURING THE DORMER WE HOPE TO BRING IT BACK AS A BETTER RELATIONSHIP WITH THE EXISTING HISTORIC STRUCTURE.

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

SHED DORMER IS NOT A SIGNIFICANT ADDITION THAT DEFINES THE HISTORIC CHARACTER.

(4) Removing buildings or structures that would otherwise qualify as contributing.

DORMER DOES NOT QUALIFY AS CONTRIBUTING
