Hi Quincy,

The Board approved the Key West Photography Festival's use of the plaza area at Mallory at yesterday's meeting. Please keep me posted on any updates and I am here to help if you encounter any problems.

Susan

Hi Susan!

Thank you again for your time on the phone call the other day. As the director of the Key West film Festival I know how important it is to get information to all those that are involved so I wanted to send you a general overview of the photography festival before the meeting on Wednesday with the Sunset Celebration Board. Here are some highlights that we are looking forward to:

1) Pulitzer-prize winning NYTimes photographer Patrick Farrell will give a spotlight talk on his award-winning photography.

- 2) Historian Tom Hambright will talk about the "History of Key West Photographers: 1880-1980"
- 3) Repurposed shipping containers that serve as photo exhibits set up in a little photo ecosystem.
- 4) Local Photographer Talks where each day local photogs showcase their work and talk about it.
- 5) Rob O'Neal will give a talk/workshop on photojournalism.
- 6) Curated exhibits from National Geographic, Magnum Foundation, Monroe County Library and much more.

The hope is to run the festival from Feb 8th-11th at Mallory Square on the South End side (photos of set-up and proposed location is attached below).

Our website is [www.keywestphotofest.com](http://www.keywestphotofest.com) for more information.

(I'd also love to include some historic photos of Mallory Square in the exhibits!)

Speak to you soon!

--

Sincerely,

Quincy Perkins
