

Staff Report for Item 13a

To: Chairman Michael Miller and Historic Architectural Review Commission Members

From: Enid Torregrosa-Silva MSHP
Historic Preservation Planner

Meeting Date: January 27, 2015

Applicant: William Rowan Architecture

Application Number: H15-01-0007

Address: #614 Elizabeth Street

Description of Work

Renovations to contributing building, including new windows, doors, rear deck, and fence.

Site Facts

The principal one story frame structure in the site was built circa 1906 and is listed as a contributing resource. The historic structure was altered in the mid 1960's when its front porch was enclosed with cement blocks. At that time concrete steps were also built to access the house. The house still have an enclosed front porch and aluminum clamp awnings that were installed in the 1960's. The enclosed porch originally had glass jalousie windows with aluminum frames.

Guidelines Cited in Review

- Windows (pages 29-30), specifically guidelines 3 and 4.
- Additions/ Alterations and New Construction (pages 36-38a), specifically guidelines for alterations.

Staff Analysis

The Certificate of Appropriateness in review proposes the rehabilitation of the historic house by replacing metal awning windows with two over two wood units. For the front enclosed porch the windows will be 2 over 2 metal impact.

The plans also includes the removal of a cbs non-historic back addition with no built. That new open space will have a wood deck. New doors are proposed on the back portion of the house to access the new deck.

The plan also includes the installation of travertine tiles over the front steps and painting of the house with a light blue with white trims.

Consistency with Guidelines

It is staff's opinion that the design meets guidelines for alterations and window/ doors replacements. The proposed metal windows and travertine tiles will be installed on elements that are not original to the house.

If approved the applicant must file an easement request to the Planning Department since part of the front steps and the small curb on the front yard are on city's right-of-way. No elements, including brick can be installed on city's right-of-way.
