Subject: 2 comments for tonight's commission meeting sept 4

hi melinda
please reply to me
so i know you have received

comment for #22
oppose parking meters

regarding city putting parking meters behind courthouse - I live on northbound side of stock island (I also work in Key West) so i can't get free parking for 4 hours I use this area to park for free, otherwise it's too expensive for me.
please do not put parking meters behind courthouse

also

comment for #30
(include ALL of stock island in the residential parking to get 4 hours of free parking at meters)

the county just approved workforce housing for 279 units in stock island on northside of US 1.
at recent boc meeting

it was said these housing units will provide housing for key west workers.

It really is a hardship to afford the meter parking I want to make a formal request to issue the residential parking passes to all of us who live in stock island. i am referring to include those of us on the northbound side of stock island

maybe if a person who lives on northside stock island shows they work in key west, they can be allowed a parking permit for city kw? (at the very least). otherwise just open up all of stock island for these permits

thank you
Diane Beruldsen
