Re: Transient License Transfer Application – 529 Eaton Street, Key West, Florida
33040 to 500 Duval Street, Key West, Florida 33040

Ms. Halloran:

Please allow this letter to act as a revised Application Cover Letter for the transient license transfer application submitted on August 15, 2022, for the transfer of one (1) transient business tax receipt, currently associated with 529 Eaton Street, Key West, Florida 33040 (“Sender Site”) which is located in the HNC-1 zoning district, to 430 Fleming Street, Penthouse, Key West, Florida 33040 (“Receiver Site”), which is located in the HRCC-1 zoning district. This application is made pursuant to City of Key West Code Section (“Code”) 122-1339 and 122-1342. The transfer of the transient license will be used for the development of one transient residential unit in the Penthouse at the Receiver Site. The Receiver Site is known locally as the Kress Building. The Penthouse of the Kress Building contains one residential unit.

The structure at the Sender Site is currently in the early phase of a large restoration project which will result in the structure being used to house visiting artists as part of The Studios of Key West Artists In Residence Program.

Section 122-1339 allows for transfers of licenses from the HNC-1 zoning district to a district where transient use is permitted. Section 122-1339(b) provides that the planning board shall consider whether the receiver site is suitable for transient use... and shall consider the relative size of the unit from which the license is transferred and shall consider the room configuration of both sites to maintain approximately the same or less net number of occupants. However, Section 122-1342 provides that “... if the receiver site is an historic structure, the planning board may

consider retaining the room layout (notwithstanding sections 122-1338(5) and 122-1339(b) hereof)(emphasis added)...”

Following the DRC meeting held on September 22, 2022, several questions were raised and requests which we have attempted to address with the enclosed attachments. Those comments/requests are listed below.

Planning Staff:

Question 1: Where will parking be located?

Response: Enclosed is an aerial showing where parking will be provided for the Receiver Site. However, Neither the Receiver Site nor the Sender Site provide parking for the existing units.

Request 1: Please provide dimensions, room labels and photos of the units.

Response 2: Enclosed are photos and site plans with the requested information.

After further review, we determined that the Sender Site is approximately 1,200 sq. ft, which includes a portion of the first floor and landing that was not previously included in our calculations. This unit consists of one bedroom with two queen beds, a living room with a pull-out couch, a bathroom and kitchen. Laundry facilities are located downstairs and were also not previously included in the overall square footage. This unit can accommodate up to 6 persons.

The Receiver site is approximately 1,700 sq. ft., consisting of one bedroom, two baths, an office/den, kitchen and laundry area and spacious living and living/dining areas. This unit currently has only one bedroom. This application proposes to utilize the current office/den area as a second bedroom and thereby matching the occupancy of the sender site.

If you have any questions regarding either the Sender Site or Receiver Site information, please do not hesitate to contact me.

Sincerely,

for Erica Stefling
