

**Historic Architectural Review Commission
Staff Report for Item 16**

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: July 26, 2016

Applicant: Affiliated Design and Construction, Agent

Application Number: H16-03-0051

Address: #1116 Varela Street

Description of Work:

Partial demolition of rear of house. Demolition of dilapidated accessory structure.

Site Facts:

The house in review is a contributing resource to the historic district. The one-story frame vernacular structure was built circa 1906. The actual front porch was altered more than 50 years ago by the removal of wood elements and installation of concrete floor and metal supports. Currently the building has asbestos siding and metal jalousie windows. The southwest portion of the house is a non-historic addition. A non-historic metal shed is located on the rear south side of the lot.

**Ordinance Cited on
Review:**

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations for the dilapidated shed.
- Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations for the rear attached portion.

Staff Analysis

The Certificate of Appropriateness proposes the demolition of a historic rear attached addition. The rear portion of the house has unstable floors and due to the roof's height, the interior space is sub-standard. The existing roof and walls are in good condition. The plan also proposes the demolition of a dilapidated metal shed, located on the south rear side of the lot.

It is staff's opinion that the request for this demolition of the historic sub-standard rear portion of the house should be reviewed based by the demolition criteria of Chapter 102 Section 218 of the LDR's. The criteria state the following;

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

The rear portion of the house is not irrevocable compromised by extreme deterioration. The floors are unstable but can be fixed.

The following is the criteria of section 102-125:

- 1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the rear portion of the house has no distinctive characteristics of a type or method of construction and is not a significant portion of the historic house. The structure is sub-standard, as the ceilings under the existing beams are too low for habitation.

- 2 Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

It is staff understanding that no significant events have ever happened in the site that has contributed to local, state, or national history.

- 3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

The portion of the house in question has no significant value as part of a development, heritage, or cultural record of the city.

- 4 *Is not the site of a historic event with a significant effect upon society;*

The site is not associated to any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The portion of the house in question is not an example of any social, cultural or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The portion of the house in question is not an example of a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

The portion of the house in question is not part of a park, square or distinctive area in the city.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The portion of the house in question does not exemplify a remaining architectural type in its neighborhood and does not possess any significant visual features.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The portion of the house in question does not yield important information in history.

The plan includes the demolition of a dilapidated metal shed. Since the shed in question is non-historic, this review shall be based on section 102-218 (b), which requires the following criteria for demolitions: The historic architectural review commission shall not issue permits that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the removal of a dilapidated non-historic metal shed will not jeopardize the historic character of the neighborhood.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The proposed structure to be demolished is not historic.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

The non-historic shed is not significant or important in defining the historic character of the site.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the shed proposed to be demolished will not qualify to be a contributing resource to the historic district in a near future.

In conclusion, it is staff's opinion that the request for demolition of the rear portion of the house and shed can be considered by the Commission as they comply with the criteria for demolition stated under the Land Development Regulations.

CERTIFICATE OF APPROPRIATENESS
APPENDIX FOR DEMOLITIONS
APPLICATION NUMBER H- H-16-03-0051

1116 VAPELA

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);
