Chief Security Officer
NorthStar Security, Inc.

COMPANY HISTORY

In 2004, fresh out of his 4-year service in the United States Marine Corps, Rafael Aguilar took his military training and leadership qualities and formed a security guard, investigative, and background screening service company. Prior to his enlistment in the United States Marine Corps, Rafael worked for several years in the security guard industry as a patrol officer and supervisor. Throughout this tenure, Rafael realized that all existing security companies lacked the proper personnel training, and overall vision or leadership regarding the level of quality that clients should be receiving. With a clear vision as to the quality service that he wanted to provide to clients, and the military, law enforcement, and security know-how, Rafael started what has become the TOP QUALITY security service provider in Florida.

As a native of Miami Florida, born and raised in the North Miami area, it was only a matter of time before Rafael would break-through with his organization in Florida. In 2007, Rafael partnered with 3 local seasoned investors and business entrepreneurs to expand our market penetration throughout the State of Florida. As a result of this partnership, NorthStar grew exponentially offering security guard services to all business sectors in the State of Florida while still offering the TOP QUALITY approach he originally envisioned.

In 2011, Rafael realized that he had to continuously re-train all security guards that he hired because their State mandated training through other companies was so poor. As a result, Rafael formed NorthStar Training Academy where he had a direct influence on the method and content of training that his security officers received. Therefore, all security guards hired by NorthStar, regardless of their former training and licensing, must still undergo the 70 hours of pre-employment training mandated by NorthStar Security.

Today, NorthStar employs approximately 400 part-time, full-time, and administrative personnel throughout the State. Our security services now reach geographical areas such as Florida, Georgia, North Carolina and Peru. Despite our ability to project our leadership and quality service throughout the nation, NorthStar remains a boutique style of security Services Company by CHOICE. Rather than trying to become the largest security company or electing to someday take the company public, Rafael maintains his vision of running a smaller, boutique style company that focuses primarily on QUALITY for its service, personnel, and management response as its benchmark. NorthStar Security never wants to be remembered as the largest security company, simply the BEST QUALITY one!

OUR APPROACH

In order for NorthStar to succeed in its endeavor of providing the highest possible quality service to its clients, it first had to understand all of the components surrounding a word that many security companies out there throw around, but few actually ever provide... QUALITY SERVICE! For this reason, NorthStar elects to remain as a mid-tiered size boutique security service company where it can dedicate the same level of detail and quality as if it had only one client.

Our QUALITY guarantee is largely achieved through direct involvement, training, and interaction from the owners of the company themselves. No other security services company in Florida actually has a company owner involved and responding to patrol incidents, client requests, or day-to-day operations activity. This is what sets us apart from the competition. The fact that if one of our clients' needs assistance, or if one of our guards ever commits an error while on duty, not only will their supervisors respond, but so will our company management and more importantly, a company owner. No one will ensure that our quality values are being honored more than an owner himself. This is the true measure of QUALITY in an organization. **This provides us the ability to offer our clients real solutions from actual company decision makers that can assess, respond, and correct any deficiencies or customer requests immediately, permanently, at location, and with the best quality for our clients in mind.**

For years, NorthStar Security has been providing a quality-based, discipline-oriented approach that continues to set NorthStar Security apart from the rest of the competition. We take a holistic approach to serving your account that focuses on complete client satisfaction. Our multi-faceted approach encompasses all the various stages of our business relationships, including account set-up, training, implementation, operational standardization, maintenance, and client care. Ensuring client satisfaction throughout each of these stages is predicated on a relatively simple premise – building a relationship with each client and understanding from the very beginning what their requirements and expectations are. From there, NorthStar can establish a baseline to allow us the opportunity to exceed those expectations.

FINANCIAL INFORMATION

NorthStar Security's financial strength is a key factor in being able to provide unmatched quality service in the industry. NorthStar's executive leadership by choice has decided to remain as a mid-level security service provider and does not strive to be the largest security services provider. Rather, we choose to leverage our exceptional quality and financial strength to overpower security organizations that lack in areas of quality and financial independence. A security firm's financial strength is a key indicator in their ability to sustain quality personnel and equipment in the future. It provides the client greater confidence regarding the security service provider's ability to make payroll 100% of the time. Financial strength also allows NorthStar to re-invest in the areas that matter most, in its employees.

NorthStar Security's annual revenues are approximately \$5 million. Additionally, NorthStar has exceptional financial stability, maintains the company debt free, and maintains approximately \$2 million in available cash flow for working capital. This is an important indicator as to a company's ability to sustain turbulent times in the future. For this reason, NorthStar elects to re-invest their operating profit organically into the organization allowing us to provide our own working capital, debt free, for our continued growth and sustainability.

Our financial strength means that the CITY OF KEY WEST (PORT AUTHORITY) can expect NorthStar Security to:

- ★ Continue to invest in employee benefit programs yielding the lowest security guard turn-over rate in the industry
- ★ Continue to hire the most qualified personnel while offering salaries above the industry norm
- ★ Increase our vehicle and transportation fleet to better accommodate our client's demands
- ★ Provide the CITY OF KEY WEST (PORT AUTHORITY) with peace of mind that our employee payroll will always be provided to our employees on-time, 100% of the time
- ★ Increase our training programs at no cost to our employees. This will provide the CITY OF KEY WEST (PORT AUTHORITY) with happier, better trained security guards for the CITY OF KEY WEST (PORT AUTHORITY) assignment

PROGRAM MANAGEMENT

CITY OF KEY WEST (PORT AUTHORITY) Management & Supervision

At NorthStar Security, our management team is an intricate component of the services we offer. Our management team represents all that we strive to achieve and is the leadership of this organization. We believe that only through leadership and by example can we pave the way for all employees. At NorthStar Security, our management staff has undergone the most scrutinizing training and testing amongst any of our employees. As managers, they are expected to instinctually possess all of NorthStar's quality principles and discipline. Additionally, all manager candidates must first demonstrate that they can excel at all of their subordinate positions before they are awarded the title and responsibility of a manager.

What strengthens the efficiency of our security operations and assures you of our staff's superior performance is our around-the-clock supervision. The CITY OF KEY WEST (PORT AUTHORITY) will be assigned an on-duty Quality Control Supervisor 24 hours a day ensuring that any emergencies or specific requests that may arise are handled efficiently and promptly. They will also ensure that our quality promise to the CITY OF KEY WEST (PORT AUTHORITY) is being upheld through random surprise inspections and monitoring of the CITY OF KEY WEST (PORT AUTHORITY) assigned security supervisors. This supervisor is sent directly from our corporate headquarters and is in addition to the shift supervisor already on-site for the CITY OF KEY WEST (PORT AUTHORITY). This is a roving supervisor that works in unison with our shift supervisor and our operations dispatcher to ensure all security guard activity is coordinated in the most efficient manner. This additional supervisory redundancy will be offered free of charge to the CITY OF KEY WEST (PORT AUTHORITY).

In addition, all of our guards are equipped with radio communication devices which allow direct communication with their supervisors and with our 24-hour dispatch center.

CITY OF KEY WEST (PORT AUTHORITY) Client Support

NorthStar Security's normal office hours are Monday through Friday, 8:30 a.m. to 5:30 p.m. However, we understand that the CITY OF KEY WEST (PORT AUTHORITY) requirements do not have office hours. For this reason, we have created our NorthStar Direct Response System (NDR System), whereby we offer 24/7 live client

support to ensure that the CITY OF KEY WEST (PORT AUTHORITY) requests and/or concerns are always addressed, real-time!

This service is different than the standard security companies dispatch service. Our NDR System is a network of full-time Account Managers, trained in all of the CITY OF KEY WEST (PORT AUTHORITY) account specifics, in order to provide the CITY OF KEY WEST (PORT AUTHORITY) with the same level of service that they would receive during office hours at any time of day or night. We will provide the CITY OF KEY WEST (PORT AUTHORITY) with an afterhours telephone number dedicated only to your account so that you can always direct-connect to your live NorthStar Account Manager. This Manager will be completely trained on the CITY OF KEY WEST (PORT AUTHORITY) account specifics and ready to provide the CITY OF KEY WEST (PORT AUTHORITY) with the answers and support that they need.

In addition to our NDR System, we provide full-time 24/7 dispatch service handling all security officer communications for all active job sites. This ensures that all officers are always communicating with our corporate headquarters and with their direct supervisors.

GUARD RECRUITMENT AND SCREENING

NorthStar Security will ensure that any and all candidates presented to the CITY OF KEY WEST (PORT AUTHORITY) to work on this assignment have undergone our intensive and detailed recruiting process. No employee, guard or manager will be assigned to the CITY OF KEY WEST (PORT AUTHORITY) unless they have successfully passed all of our examinations. Furthermore, all background check and pre-employment exam records will be available at the request of the CITY OF KEY WEST (PORT AUTHORITY). Our recruitment process for the CITY OF KEY WEST (PORT AUTHORITY) will include the following:

- ★ **Recruitment** – Attracting quality people is a critical component to providing quality security guard services to the CITY OF KEY WEST (PORT AUTHORITY). For this reason, NorthStar will only recruit quality, professional, and disciplined employees that understand and adopt our core values. We strongly believe that if we take care of your employees, they will provide the CITY OF KEY WEST (PORT AUTHORITY) with a higher overall level of service and will provide effective protection to your establishment.

In addition, NorthStar Security is committed to hiring veterans, reservists, and promoting this hiring practice. This practice is an integral part of our recruiting strategy. At NorthStar, we use our leadership, corporate, and customer service training programs to build on their experience and provide advancement opportunities within our organization. Military candidates have varied backgrounds and contribute an unparalleled combination of leadership experience, maturity, and technical expertise to the responsibilities they undertake. Our military spends more on training personnel than many Fortune 500 companies combined. Our country has invested in making them the most highly trained and motivated personnel in the world. Because many of their skills are directly transferable into the business sector, we are able to introduce them into positions and leadership roles within the CITY OF KEY WEST (PORT AUTHORITY) assignment where they can continue to utilize these skills.

Lastly, our recruitment process encompasses some of the most detailed and demanding pre-employment screening in the industry. Before a person is hired for the CITY OF KEY WEST (PORT AUTHORITY), they will be required to undergo an extensive application process including:

- Criminal and Civil Background Check
- Credit Check
- Urine and Blood Drug and Alcohol Testing
- 3-Tier Interview Process
- Comprehensive Personality Assessment
- Psychological Examination

While part-time employees do not qualify to fully participate in all of our fringe benefits programs, they will be paid similar wages and are eligible to participate in the limited health medical program, employee recognition programs, and “beyond the basics” program.

HUMAN RESOURCES & PAYROLL

NorthStar Security operates in a very labor-intensive industry and understands that in order to continue to provide exceptional quality to our clients, we must streamline several Human Resource and Payroll functions. We are careful in partnering with a third party payroll provider that adhere to our human resource policies and have built-in redundancies to ensure ongoing compliance. All phases of the recruiting, screening, and training process are integrated into our Human Resource computer module to ensure no step is missed. In addition, our Human Resources module will not “activate” an employee for an assignment unless all pre-employment modules have been completed, reviewed, and signed-off on.

Pre-Employment Screening

NorthStar requires that all potential employees undergo an extensive background check and pre-employment screening before they are hired. This process is conducted by our in-house investigative division and takes place in our corporate offices in Downtown Miami Florida. Due to the critical nature of this process and for confidentiality reasons, NorthStar does not entrust any third party providers with the supervision of this process.

Training Compliance

Our Human Resource module interacts and interfaces with all training provided by NorthStar Security and/or outside sources. All employee training is initiated, tracked, and monitored by our training module which provides management with notifications when an employee training is due again, and will inactivate an employee if their training is not updated within 30 days of their training completion due date. This is another way that NorthStar ensures that the quality training and guards that we are providing are second to none.

Payroll

NorthStar Security employs the services of a Payroll Solutions provider for our entire employee payroll. Our Human Resource module maintains our time and attendance, which then interfaces with ADP to provide an accurate and timely reporting of all hours worked. Utilizing an industry proven provider like ADP ensures that NorthStar provides its employees with payroll on-time, accurately, and compliant with all state and federal payroll regulations.

Employee Paid Time Off

NorthStar Security provides its full-time employees and some eligible part-time employees with Paid Time Off (“PTO”) each year as a way to express our appreciation and a way to renew and refresh our employees. Because our business is continuous and year long, NorthStar Security grants PTO at times that are most suitable for our business conditions and to limit PTO during our busy season.

Accrued PTO: All employees accrue 2 hours of PTO per month of employment after they have successfully completed their introductory period. The accrual of these hours is not eligible to be rolled over and will expire at the conclusion of the calendar year in which they were earned. Accrued PTO is usually utilized for employees when they unexpectedly require time off from work for personal reasons or illness.

Regular PTO: In addition, full-time employees become eligible for 10 days (80 hours) of PTO per calendar year after 12 months of continuous employment with NorthStar Security. After 36 months of continuous employment, employees become eligible for 15 days (120 hours) of PTO per calendar year.

Employees must use all regular PTO in the calendar year in which it is granted. It should be scheduled and approved by NorthStar Protection at least three weeks in advance where appropriate. Any unused PTO will be forfeited at the end of each calendar year.

Personal Leave

NorthStar Security may, at its discretion, grant an employee a leave of absence without pay when sufficient personal reasons necessitate such a leave. However, employees are not eligible for a personal leave of absence until they have been continuously employed as full-time employees of NorthStar Security for 12 months.

NorthStar Security may require an employee to provide documentation, such as a doctor’s certification of illness or disability, supporting the employee’s need for a leave of absence, and NorthStar Security may periodically require the employee to provide such supporting documentation on basis during the leave of absence. Prior to or upon an employee’s return to work from a leave of absence, NorthStar Security may also require the employee to provide documentation establishing the employee’s ability to return to work.

NorthStar Security reserves the right to determine the duration of the leave of absence, but no leave of absence shall exceed 12 weeks. If an employee fails to return to work immediately after his or her leave of absence expires, the employee will be considered to have voluntarily resigned his or her position with NorthStar Security.

Employees may continue their health insurance benefits while on a leave of absence by paying the full cost of the employee portion of their premium to remain covered each month during the leave. Employees who wish to continue their insurance coverage should so advise the Human Resource Office before beginning their leave.

Leaves of absence will be without pay except that employees may be required to use any accrued paid time off during a leave. While on a leave of absence, employees will not accrue additional paid time off. Employees may be eligible for benefits during a leave under NorthStar Security's short-term and long-term disability plans.

Because operations sometimes require that vacant positions be filled, a leave of absence does not guarantee that the employee's job will be available when the employee returns from a leave. NorthStar Security will, however, make an effort to place the employee in their previous position or a comparable job which they are qualified to perform. If no such position is available, they may be eligible for rehire as a new employee if they apply for an available position for which they are qualified and if their prior work history warrants their rehire.

Bereavement Leave

NorthStar Security will provide up to three days (3) of paid bereavement leave for an employee upon the death of an immediate family member. For purposes of this policy, "immediate family" is defined as the employee's or the employee's spouse's parents, siblings, children, grandparents, grandchildren, or the employee's spouse.

Jury-Duty Leave

Employees who are called for jury duty will be granted time off with pay to perform this civic duty. In order to be paid for Jury Leave, an employee must provide his or her supervisor with the jury summons and a note from the Clerk of the Court indicating the times the employee was in court for jury duty. NorthStar Security will pay employees straight time for their regularly scheduled hours of work, minus the compensation they received from the court for their service as jurors.

Military Leave

NorthStar Security will grant employees called into military service an unpaid leave of absence and reemployment rights as provided by the laws of the United States. Employees may use accrued paid time off during a military leave of absence, but are not required to do so.

NorthStar's legal team works diligently to maintain our knowledge of industry specific-regulations that govern security practices, so you can rest assured the services you receive from us are administered in a compliant manner and are legally sound.

QUALITY ASSURANCE

Quality Assurance (QA) is one of the most important roles within our management staff. Because of this, NorthStar employs three full-time roving supervisors whose sole responsibility is to ensure that the service product being delivered in the field adheres to the extremely high quality standards established by our executive leadership. NorthStar will deploy three quality control supervisors (one each shift) free of charge to monitor and ensure that the CITY OF KEY WEST (PORT AUTHORITY) is receiving the exceptional quality service that is expected.

In addition, our quality assurance department spends significant time in our main office performing internal compliance audits with our established procedures. Quality Assurance ensures that that time-tested procedures are being adhered to in the performance of our service.

SAFETY AND FIRST AID

All security officers employed by NorthStar Security will be required to complete our safety and first responder training before they are assigned to the CITY OF KEY WEST (PORT AUTHORITY). Every one of our guards are expected to be proficient and certified as a first responder so that they may respond in the event of a sick or injured patron at the CITY OF KEY WEST (PORT AUTHORITY).

Our first responder courses cover cardiopulmonary resuscitation (CPR), automated external defibrillator usage, spinal and bone fracture immobilization, oxygen, emergency childbirth, and advanced first aid. Typically during an emergency, our security officer will be the first on scene. Therefore, our officers are expected to have the knowledge, training, and certification required to assist a person in need. The security officer may be summoned to: provide emergency care first on the scene; support Emergency Medical Technicians and Paramedics; assess patients; take vital signs; provide treatment for trauma and medical emergencies; perform CPR; use an Automated external defibrillator; immobilize bone fractures and spinal injuries; administer oxygen and maintain an open airway through suctioning and airway adjuncts; assist in emergency childbirth.
