The City of Key West
3140 Flagler Avenue
Key West, Florida 33040

REF

FIN: 250548-3-52-01

Contract: T6232

To Whom It May Concern:

We are requesting that the City of Key West allow construction to occur between the hours of 8pm and 5am during the reconstruction of N. Roosevelt Boulevard at the contractor's option; this will allow the construction in intersections during non-peak hours. In addition we request the contractor have the option to perform driveway work for the businesses during nighttime and non-business hours that will result in less impact to the access and business operations.

The work the contractor will be conducting generally consists of excavation for pipe, pipe installation, backfill of trenches, paving operations, and concrete placement. Equipment used for this type of work can include but not be limited to excavators, backhoes, milling and paving machines, and dump/delivery trucks.

The contractor will inform the businesses along North Roosevelt a week in advance of the night work if they are within 100 feet of the operation. Residences are generally not present in the project limits with the exception of the west end (south end) of the project. If night work is to be done in front or within 100 feet of a residence, they will be informed two weeks prior to the operations.

Thank you for your consideration on this matter.
