

Historic Architectural Review Commission

Staff Report Item 4

Meeting Date:	September 23, 2014
Applicant:	Michael Ingram, Architect
Application Number:	H14-01-1108
Address:	#631 Whitehead Street
Description of Work:	Demolition of existing building.
Building Facts:	The building for this review is a non-contributing structure. According to the Property Appraiser's records the structure was built in 1958. According to a circa 1965 photo the cbs structure was one story. The actual footprint of the structure is fairly similar to the footprint depicted in the 1962 Sanborn map. The structure had several changes like the construction of a second floor, side and back additions as well as a mansard metal roof. The site is on a corner but the building is located towards the North West portion of the site. The next property on the back, facing Angela Street, is a vacant lot. The site has several trees.
Ordinance Cited in Review:	Sections 102-217 (3), demolition for contributing or historic structures of the Land Development Regulations.

Staff Analysis

On August 27, 2014 the Commission approved the design of a new parking lot for the lot and the first reading for the demolition of the existing building. The Certificate of Appropriateness proposes the demolition of an existing concrete building that was built in 1958. Although the structure has been altered the existing footprint is similar than the one depicted in the 1962 Sanborn map. The photograph found circa 1965 depicts a one story structure on the same location as the existing one. It is staff's opinion that some of the existing first floor walls are deemed historic therefore the structure shall be reviewed as a non-contributing historic building.

It is staff's opinion that the way the building looks today does not have any resemblance to what was originally designed. Any character defining features of the 1958 era building are inexistence and the building has been qualified as a non-contributing structure. Staff recommends to the Commission to consider the second reading request for demolition. It is staff's opinion that the existing building will not be deemed to be considered contributing in a near future. If the demolition is approved this will be the final reading.

**RE: SITE IMPROVEMENTS TO ALLOW FOR PRIVATE PARKING.
DEMOLITION OF EXISTING BUILDING.
FOR: #631 WHITEHEAD STREET - HARC APPLICATION # H14-01-1108
KEY WEST HISTORIC DISTRICT**

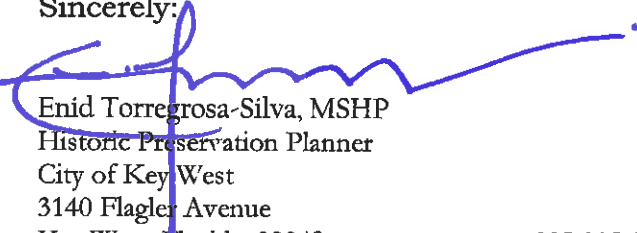

Dear Architect Ingram:

This letter is to notify you that the Key West Historic Architectural Review Commission **approved** the above mentioned design and the first reading for demolition request on the public hearing held on August 27, 2014. The Commission motioned to approve your project based on the submitted documents and your presentation.

Since the request for selective demolition includes a historic building a second reading will be required for final approval. I will be scheduling the item for the next meeting of September 23, 2014. Should you have any questions, please do not hesitate to contact me at your convenience.

On behalf of the Historic Architectural Review Commission of our City, thank you for your interest in the preservation of Key West's historic heritage.

Sincerely:

Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Form Ten Square EH/H LED

In 1969, Gardco Lighting changed outdoor area illumination forever when it introduced the first full cutoff luminaire - the Form Ten Square. Today, the shape that started it all redefines itself for a new generation by incorporating state-of-the-art, high performance LEDs.

Available in the 14" pole and wall mounted configurations, the Philips Gardco extruded (EH) and formed (H) LED luminaires retain the features and benefits that made them industry leaders in site lighting. Visually appealing half cube proportions, toolless access to the optics and driver assembly, memory retentive silicone gasketing and rotatable optics are but a few of the qualities that helped define the industry leader.
