

Request for use of Tree Fund Money

Tree Fund Money shall be used to finance education about city tree programs and to finance protection, replacement, or additional plantings of trees in the city. (Sec 110-287)

There is an engineering project where there are (13) thatch palms, (10) cabbage palms, (1) Wild Cinnamon, and (1) Spanish Stopper proposed for transplanting. I would like to offer funds from the Tree Fund to help with the cost of transplanting to avoid removal.

Estimates are being gathered now, but I would like to know if the Tree Commission approves the use of Funds for transplants, not just new trees.
