Ginny,

Sounds good on your air units.

Thank you for the update

Settling in nicely up here

Julie

Hi Julie and Mike:

You will be receiving a notice that I have applied for a variance to be able to replace our 2 a/c units in the same location they occupy now. The new units will be slightly smaller and much quieter than the 17 year old condensers currently drawing their last breath. The installer wanted me to hang them on the side of the house to simplify the elevation requirement, but I think the sound and visual impact would have been greater to your wonderful pool and outdoor space.

I hope you can support this application, but if you have any questions or concerns, please let me know.

Best regards,

Ginny
