

**TREE COMMISSION TREE REMOVAL REPORT
CITY of KEY WEST**

PROPERTY: 1824 Fogarty Ave

APPLICATION NUMBER: T2026-0043

REQUEST: The applicant is requesting removal of the Strangler Fig tree.

TREE ASSESSMENT and PHOTOS

Diameter: 20''

Location: 30%

Species: 100%

Condition: 60%

Value: 63.3%

Recommended Mitigation: 12.66 Caliper Inches

NOTES: The Strangler Fig is starting to push a wall. But the primary concern is the habitable/occupied accessory structure that is being consumed by the tree. The tree has wrapped itself onto the soffit and is growing onto the roof, incorporating manufactured inorganic material into tree's vascular system. The canopy and structure of the subject tree is in average condition for this species. There are multiple broken/torn limbs leaving decay and exposure to infestation. We find it is common for this species to receive almost no corrective pruning or maintenance trimming leading to trees that are worse for the wear.
