

Staff Report for Item 14b

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: March 22, 2016

Applicant: Rob Delaune

Application Number: H16-03-0021

Address: #708 Eaton Street

Description of Work:

Demolition of gazebo hip roof.

Site Facts:

The house at 708 Eaton Street is listed as a contributing resource in the survey and was constructed c.1863, according to the survey. By 1962, the structure had some additions, but not the current rear two story porch that exists today. Also in the rear of the property is a non-historic gazebo.

Ordinances Cited in Review:

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes the demolition of the roof of a non-historic gazebo in the rear. The gazebo was built sometime after 1962.

Staff believes the demolition will not result in the following items:

- (1) The demolition will not diminish the overall historic character of a district or

- (2) Nor will it destroy the historic relationship between buildings or structures and open.
- (3) This demolition will not affect the front building façade.
- (4) Staff does not believe elements that are proposed to be demolished will qualify as contributing as set forth in Sec. 1021-62(3).

Therefore this application can be considered for demolition. As the gazebo is not historic, only one reading is required for demolition.

GENERAL NOTES

1. All work shall comply with the Florida Building Code, latest edition, and with all applicable laws, ordinances, and codes of the City of Key West, Florida.
2. Verify all field conditions prior to submitting a bid.
3. Contours and/or existing grades shown are approximate. Verify with field conditions. Final grading shall provide gradual grades and slopes. Slope all grades away from the building. Planting areas shall be graded with soil suitable for planting. Rock and debris will not be allowed.
4. Where discrepancies between drawings, specifications and code requirements occur, adhere to the most stringent requirement.
5. Dimensions shall take precedence over scale.
6. All new utilities shall be underground, unless otherwise noted.
7. Drawings and specifications are complimentary. Refer to all sheets of the drawings and applicable sections of the specifications for interfaces of work with that of other trades.
8. After completion of construction, remove all debris and construction equipment. Restore site to original condition.

DEMOLITION NOTES

1. All demolished property shall become the property of the contractor and, unless specifically noted otherwise, shall be properly removed from the site. Disposal of all such materials shall comply with the requirements of all applicable laws, codes, and regulations of all governmental agencies having jurisdiction over the work.
2. All costs of demolition including permit fees, disposal fees, etc. are the responsibility of the contractor.
3. It is the contractor's responsibility to be aware of and to conform with all applicable demolition and disposal codes, safety requirements, and environmental protection requirements of all governmental agency having jurisdiction over the work.
4. Provide safety barricades as required for the protection of the general public and for workers on the project.
5. Provide bracing and shoring as required to (A), protect the structural integrity of the building elements to remain, and (B), to provide for the safety of the general public and of workers associated with the project.
6. Demolished material classified as clean fill may be distributed on site only when specifically approved in advance by the Architect.
