**RIGHT-OF-WAY ATTACHMENT**

This permit is valid only for work performed within the County's right-of-way and does not authorize any work on private property or other governmental property.

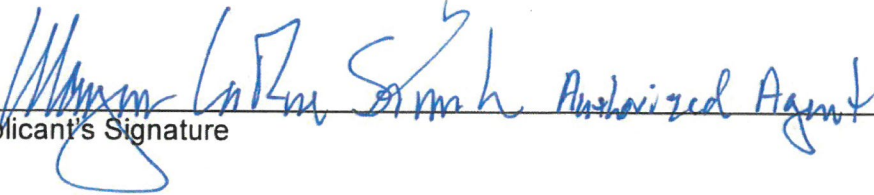

The issuance of this right-of-way permit by Monroe County does not negate the need to obtain other permits from other agencies when such work falls under their purview.

*\* As an example, such approval may be required from Monroe County's Growth Management Division, the State of Florida Department of Environmental Protection, and/or the United States Army Corps of Engineers. Other agencies, such as the United States Fish and Wildlife Service and the State of Florida Fish and Wildlife Service may also need to grant approval of the work.*

Applicant shall obtain any underground clearances prior to digging.

*\* Applicant must call Sunshine State One Call at 800/432-4770 for clearances and submit with permit application.*

It will be the Applicant's responsibility to determine when work requires additional permits or approvals.

Karen, Here is a watering schedule for new tree installation that we find very successful.

(First 30 days daily) Fill well around base of each tree. Approximately 30 gallons. Each watering

(From 30-60 days every other day)

( 60-90 day 2 times per week)

Beyond 90 days 1-2 times per week based upon rain Accumulation and temperatures.

Respectively

What is your recommended watering schedule for the trees once planted? I am assuming that the City will be responsible for the watering of the trees until established and them future trimming. All maintenance agreements are worked through the legal department so I am trying to get the information to our attorney that handles these matters. I have already talked to City Community Services.

Jodell can you send me a copy of the completed County right of way application to I can attach it to the email for our attorney.

Sincerely,

Karen
