Hi Karen,

Thanks for reaching out. I have not had the pool pipes repaired/replaced yet, and wanted to wait until the tree is removed before repairing any damage so that it does not happen again. Currently it has a constant leak and needs to be filled often.

My landscape company cleared the large limbs quickly after they had fallen so there were no photos taken.

Sincerely,

Lisa Kupsc

Lisa and John:

I noticed on the application to remove the Spanish lime tree that the reason cited was that the tree has broken underground pool pipes dropped a large limb. Do you have any documentation such as receipts or photos that can be placed in the file regarding these issues? If so, can you please send them to me by January 6, 2022 so I can include them into the file.

Sincerely,

Karen
