WASTE COLLECTION SCHEDULE

Learn the facts about recycling

The City of Key West is improving its trash and recycling program to better serve the community and our environment. Scheduled to begin this summer, we will be converting to a 1-1-1 system. 1 container for trash, 1 container for all your recycling, and 1 container that you provide for yard waste, all picked up on 1 day. Currently, Key West accepts the following materials for recycling:

- Rinsed glass bottles and jars. Please remove the lids and include them in your recycling. No mirrors or window glass.
- Rinsed Aluminum and metal cans
- Rinsed milk and juice cartons
- Cardboard
- Regular paper
- Magazines
- Newspapers and junk mail, even envelopes with plastic "windows"
- Boxboard The type of material most food and cereal boxes are made from.
- Clean aluminum foil
- Any plastics marked with #1 through #7 including plastic drinking straws,
- clean plastic plates and plastic flatware. No Styrofoam.

Just put any of these materials in your new blue recycling cart and place it at the curb with your trash and yard waste containers on your scheduled collection day, and you'll be helping your community reduce waste and improve our environment.

WE HAVE DEVELOPED A WIDE RANGE OF INFORMATIONAL MATERIALS TO CLEARLY EXPLAIN THE PROGRAM AND ENCOURAGE MORE PARTICIPATION IN THE RECYCLING PROGRAM.

What can you recycle?

The fact is, you can recycle far more things now than you could just a few years ago. Most plastics, all colors of bottles and jars, cans, newspaper, cardboard and more! And all in the same recycling cart. Just take a look at the chart below to see what you can, and cannot recycle.

RECYCLE			DO NOT RECYCLE		

Hazardous household waste and electronics may be dropped off at the Key West Indigenous Park, 1801 White Street, the first Saturday of every month from 8am to noon.

RECYCLING IS THE RIGHT THING TO DO!

- SAVES NATURAL RESOURCES
- SAVES ENERGY
- REDUCES WATER POLLUTION
- REDUCES INCINERATOR POLLUTION
- RECYCLING CREATES JOBS AND
PROMOTES ECONOMIC DEVELOPMENT
- RECYCLING HELPS KEEP OUR NEAR
SHORE WATERS CLEAN
- RECYCLING HELPS PRESERVE
RESOURCES FOR FUTURE
GENERATIONS
