Subject: [EXTERNAL] Southernmost Buoy Project - please enter into public comments

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon City Clerk, Madam Mayor and Commissioners,

I'd like to have my objection to the current plan to award a \$4.3 million project to narrow South Street and create some kind of plaza at the prior Southernmost Point read into the public comments segment of tomorrow's Commission meeting.

The location where the Buoy has been relocated seems to work well with ample room for pedestrians and seating available, and those seeking a photo opportunity don't seem to know the difference between this location and the prior location.

And in reality, the old Southernmost Point isn't the Southernmost Point at all, which is actually on the Navy base.

So please, let's give the area residents some relief from the traffic and congestion of the old location and not spend an inordinate amount of taxpayer dollars for a wasteful project.

Just work to shore up the area seawall and alleviate flooding and leave the Buoy where it is.

Thanks for your attention,

Suzanne Washburn
