

Staff Report for Item 3

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: November 16, 2016

Applicant: William Rowan Architects

Application Number: H16-03-0020

Address: #820 Carsten Lane

Description of Work:

After the fact enclosure of second floor rear addition and renovation of siding and windows. Renovations to historic building. New enclosed side stairway. Paint to match. Elevate house one foot.

Site Facts:

The house at 820 Carsten Lane is listed as a contributing resource. First appearing on the 1912 Sanborn map as a one-story structure, the house has undergone a few changes since then, such as siding replacement, new skylights, a new side addition, and a large two-story addition in the rear.

This property came to HARC in March, but was postponed by the Commission due to questions over the accuracy of the plans and whether what was built matched the HARC approval in 2006.

After conducting research, it appears that a rear porch addition with a height of 23 feet was approved by the HARC Commission on November 28, 2006. A building permit was submitted and picked up in early 2007. Two inspections were conducted (auger holes and framing), but the applicant never scheduled any more inspections or closed out the permit. It appears that the structure was built, but without the necessary inspections and approvals. The plans that were issued were kept by the architect, and now the City has a copy. The City Attorney has opined that the existing two story massing is very similar to the massing that was approved in the 2007 plans. Therefore, the massing was approved

by HARC in 2006, but not the side staircase or the current enclosure. There is currently a code case for the rear addition.

Guidelines Cited in Review:

Secretary of the Interior's Standards for Rehabilitation (pages 16-17), specifically Standards 2, 5, 6, 9, and 10.

The 2013 HARC Guidelines for Additions and Alterations/New Construction (pages 36-38a), specifically guidelines for additions and alterations 1, 3, 4, 5, 6, and 7 and guidelines 2, 3, 4 and 5 of new construction (pages 38-38a).

Ordinance for Relocation (see attached section), specifically criteria 1, 2, 4, and 5.

Staff Analysis

This Certificate of Appropriateness proposes renovations to a contributing structure. Changes to the main house include extending a side wall out to the same location as the main structure wall. From the Sanborn maps, it appears that the existing jog was created sometime between 1948 and 1962. The new proposed wall on the southwest side will be on the same wall plane as the front of the house. The new wall will have the same board and batten as the main house with 6/6, true divided light, wood windows. The house will also be elevated one foot. The current porch on the rear will be enclosed with a new rear covered porch will be constructed on the back.

The two-story addition in the rear was approved by HARC in 2006 as an open porch with a staircase that went through the center of the porch addition. Over time, the central staircase was removed and a new exterior staircase was built on the side of the house – without a Certificate of Appropriateness. The second story porch was also enclosed without benefit of a Certificate of Appropriateness. The submitted project proposes to add new board and batten siding to match the rest of the house. New impact windows will be installed. New sliding doors will be installed on the rear of the

The application also proposes to shift the house 3 inches southwest to make the structure and new addition compliant with setbacks.

Consistency with Guidelines

1. Side Addition: The house currently has an existing two-story addition, whose height and massing were approved by HARC in 2006. The existing two-story addition towers over its neighbors, as most neighboring structures are one-story structures. The guidelines are clear that “no existing structure shall be enlarged so that its proportions are out of scale with its surroundings.” The existing two-story is already out of scale with its surroundings, and enlarging the addition will only have more of a negative impact on the surrounding historic properties. As the original design had a staircase that fit inside the existing 3-dimensional footprint,

- it seems possible that the architect could design a plan that incorporates a new interior staircase without having to extend the existing two-story addition.
2. New Roof on Rear Addition: The plans also propose a new roof with a lesser pitch to retain the rear addition's current height even with the structure's elevation of one foot. The new roof will help lessen the massing, and with the elevation of the one-story structure, the rear two-story addition's impact on Carsten Lane will be lessened slightly.
 3. Renovations to the Contributing House: The proposed extension of the wall on the main house will create one long wall plane. From the Sanborn maps, the southwest side of the house has changed over time, and it appears that the main house did have a rectangular footprint, but the wall on the southwest side was demolished sometime between 1948 and 1962. The proposed plan will return the house to a more original footprint.
 4. Elevation of the House: The elevation of the house of one foot does not appear to be a requirement of FEMA, as the house is located in the AE-6 zone, and the structure is currently at 7.2 NGVD (BFE+1). The HARC Guidelines state that the elevation of buildings is to comply with federal regulations, and this building currently complies with federal regulations. On the other hand, the structure is very low to ground with no crawl space underneath. It does not appear to have much of relationship with its neighboring structures, as most of the neighboring structures are more elevated off the ground. As such, staff feels that the elevation does not interfere with the essential form and integrity of properties in the neighborhood. The Urban Forestry Manager has stated that the roots of the large nearby Strangler Fig could cause issues with the foundation of the house in the future, and that elevation will help protect the Strangler Fig so it will be able to continue to grow.
 5. Relocation: The plans call for shifting the house around 3 inches to the southwest to have the new addition comply with setbacks. Really, the house will be pivoted, with most of the change impacting the rear of the house. The front will generally remain the same. Because the shifting is so slight, the "relocation" complies with the ordinance.

It is staff's opinion that the proposed design is consistent with the guidelines regarding the renovations of the house, but the proposed side addition is inconsistent with the guidelines in regards to additions and alterations, as the new side addition will enlarge a structure that already overwhelms the neighboring historic structures. The elevation of the house is against the guidelines, but the elevation of the structure will have positive impacts on the structure and the nearby Strangler Fig.

ORDINANCE FOR RELOCATION

DIVISION 4. - BUILDING RELOCATION

Sec. 102-251. - Application and fee.

Application for a certificate of appropriateness for relocating a historic building or structure in the historic districts shall be submitted to the historic architectural review commission, together with an application fee as determined by resolution by the city commission. Applications for relocating a historic building or structure shall be reviewed by the historic architectural review commission during a regular meeting. Notice of the meeting shall be published as for a regular meeting, pursuant to section 90-143.

(Ord. No. 97-10, § 1(3-10.3(E)(3)(a)), 7-3-1997; Ord. No. 11-11, § 6, 8-2-2011)

Sec. 102-252. - Requirements precedent to relocation.

The National Register of Historic Places discourages the moving of historic structures because the significance of properties is embodied in their sites and settings as well as in the structures themselves. Any National Register building that is removed from its original foundation is removed from the National Register. After reconsideration, it may be placed back on the National Register if specific criteria are followed, but the building's National Register designation is not guaranteed. The historic architectural review commission shall not issue a certificate of appropriateness for relocating a historic building or structure unless the historic architectural review commission renders a finding that the applicant has submitted a relocation plan demonstrating that the proposed relocation satisfies the following criteria:

- (1) The built environment for the new site should be similar to the old one in terms of context, the age of the surrounding buildings, their height, materials, setback, and architectural details.
- (2) The historic relationship between buildings and streetscape and landscaped features must be maintained.
- (3) When a building may be moved, documentation of the building and the relocation must be provided.
- (4) The relocated building must be placed so that the orientation of its principal facade and front and side setbacks are compatible with surrounding buildings.
- (5) The new foundation's design, height, and facing materials must be comparable with the original historical foundation.
- (6) Relocating a contributing building outside of the historic district is prohibited.
- (7) Relocating a building to a site where the surrounding buildings date from a different period or are architecturally incompatible due to their height, materials, setback, and detailing is prohibited.
- (8) Destruction or alteration of significant features, structures, or archeological sites at the new location is prohibited.
- (9) Improperly locating a building on its new site so that its orientation and front and side setbacks are incompatible with surrounding buildings is prohibited.
- (10) Placing the building on a new foundation whose design and materials are incompatible with the original is prohibited.

(Ord. No. 97-10, § 1(3-10.3(E)(3)(b)), 7-3-1997)

Secs. 102-253—102-280. - Reserved.

Not contributing

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H- 16 - 03 - 0015

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

- (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

N/A

OR THAT THE BUILDING OR STRUCTURE; SW and rear wall (Historic)

- (a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The subject walls that are proposed to be demolished have been completely altered except several studs within. They were modified and used as a wall for the two-story addition in the 1990's.

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

No

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

N/A

- (d) Is not the site of a historic event with a significant effect upon society.

N/A

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

N/A

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

The subject walls that are proposed to be demolished have been completely altered except several studs within. They were modified and used as a wall for the two-story addition in the 1990's. The overall historic appearance and preservation is being enhanced by the proposed work.

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

See (f) above.

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

See (f) above.

- (i) Has not yielded, and is not likely to yield, information important in history.

N/A

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

*I hereby certify I am the owner of record and that the work shall conform to all applicable laws of this jurisdiction. By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit, approval **PRIOR** to proceeding with the work outlined above and that there will be a final inspection required under this application. I also understand that any changes to an approved Certificate of Appropriateness must be submitted for review.*

GENERAL NOTES

All work shall comply with the Florida Building Code, latest edition, and all applicable laws, codes and ordinances of the city, county, and the state of Florida. In the city of Key West, applicable Codes forming the basis of this design and compliance requirements for the contractor include:
 BUILDING: Florida Building Code, 2014
 ELECTRICAL: National Electrical Code, 2014
 PLUMBING: Florida Building Code (Plumbing), 2014
 MECHANICAL: Florida Building Code (Mech.), 2014
 GAS: LP Gas Code, 2014 edition (NFPA 58)

This project is designed in accordance with A.S.C.E 7-10 to resist wind loads of 180 mph (gusts) (Exposure C)

TABLED ITEMS

T1. H06-11-03-1617 **820 Carstens Lane, Susan Schock**
Rear porch addition.

Susan Schock presented the project with here revised drawings. The house is 630 square feet the new addition will be 266 square feet. She has taken the Sanborn fire map and added all of the additions her neighbors have built over the years. This shows her addition is smaller and her lot coverage is 40%. All of the other houses on Carey Lane have a gable roofs that are parallel to the street. The addition would be visible only between the houses as it is set far back. It is 23' high. Abundant photographs were provided of her property and neighboring properties. 1101 Angela Street

Michael Miller said she has provided a detailed presentation. There are no floor plans. These drawing are conceptual. There will be some complications bringing the gable roofs together.

Ms. Schock can not afford an architect at this stage. She would like to get these plans approved and then have an architect draw them. She did not know she needed a floor plan. This is an open structure and the stairway is shown.

Nils Muench said the applicant has done a fine job. He does not feel a floor plan should be required.

Mr. Mancini took exception to this.

Mr. Miller said the first 25% of the drawings the architect does is what would be submitted to HARC.

Ms. Schock said the Planning Department and HARC said structural drawings are required when she applies for a permit. She has provided what they have asked for.

Mr. Miller said typically an architect would do schematic drawings and then refine them.

Nils Muench motioned to approve. Vincent Mancini seconded the motion.

Michel Miller said if we approve this we are accepting a sub-standard application. A floor plan is required as per the application requirements. He does not feel the project will work as drawn. This is a rough conceptual drawing. It needs to go to a professional. You do not have a clue how the columns go together or the balustrades go together. The presentation of context is excellent the architecture is not. If you had hired a professional you would be 20% into your working drawings.

Michel Miller and Terry Garcia objected to the motion.

AMENDED NOTICE OF CODE VIOLATION

DATE: April 28, 2016
RE: CASE NUMBER 16-0455

CERTIFIED MAIL RECEIPT#: 7013 2630 0000 9542 4127

To:
Donald R. Lynch
1200 Fourth St # 138
Key West FL 33040

Subject Address:
820 Carsten Ln
Key West, Florida 33040

According to the records of The City of Key West, you are the current property owner/ representative or the business owner at the above-referenced property. You are hereby noticed that your property is in violation of the City of Key West Code of Ordinances for the following reason(s):

Count 1 of 2: Sec. 14-37 Building Permits, Display

To Wit: Upon receiving this complaint I visited the subject address on Monday, April 25th. I was greeted by Mrs. Valerie Roach in front of the home. She advised she, and her husband Mike Roach have been living at the residence for a week and no construction has taken place in that time. A six month lease had been signed and she advised when her husband returned, myself and Code Ofc. Hernandez were welcome back to take a look at the property as well as the rental agreement. Shortly after leaving Code Ofc. Hernandez received a call from Mike who invited us back to take a look around. When we arrived Mike presented the rental agreement which were then photographed for evidence and placed into OptiView. Mike escorted us through the living space, bedroom, kitchen, and backyard. While observing the back of the property I noticed the upstairs unit had 2 sets of three glass paneled windows, with what appeared to be a set of French doors in between. Mike advised the unit was locked and he did not have access inside. I then asked if we could take a look inside through the windows and he escorted us up to the unit. A shower was visible from the deck, along with wooden boards leaning up against the wall, and a few stools. Mike was later advised a stop work order (Red Tag) would be placed on the unit. ***Further investigation shows a permit (07-0029) was pulled for two story porch in the rear of the residence. The permit never made it further than plan check.***

Corrective Action: Please either visit the City of Key West Building Department to obtain after the fact permit(s), and obtain a HARC certificate of appropriateness, or apply for demo permit and hire a licensed contractor for the demolition of flight of stairs, 2nd story porch, and enclosure.

Count 2 of 2: Sec. 66-87 Sec. 66-87. - Business tax receipt required for all holding themselves out to be engaged in business.

To Wit: While conducting an investigation on Count 1 it was discovered that you do not hold an active non-transient rental license.

Corrective Action: Please visit the City of Key West Licensing Department to obtain a non-transient rental license.

Florida Statutes Chapter 162 and Key West Code of Ordinances Article VI authorize code enforcement proceedings. You have ten **(10) days** after receipt of this notice to take corrective action on the above-described violation(s). **PLEASE CONTACT THE UNDERSIGNED CODE COMPLIANCE OFFICER** so that we can assist you in achieving compliance and scheduling a re-inspection. **If corrective action is not taken within the specified 10 days, this matter will be referred to The Special Magistrate for an administrative non-criminal hearing concerning the alleged violation(s).**

The violation listed herein does not necessarily constitute all the violations that may exist with regard to this matter/property. Lack of enforcement proceedings at this time does not constitute a waiver of the right to any future notices of violations.

IF THE VIOLATION IS CORRECTED AND THEN RECURS OR IF THE VIOLATION IS NOT CORRECTED BY THE TIME SPECIFIED BY THE CODE OFFICER, THE CASE MIGHT BE PRESENTED TO THE SPECIAL MAGISTRATE EVEN IF THE VIOLATION HAS BEEN CORRECTED PRIOR TO THE HEARING DATE.

PER FLORIDA STATUTES SECTION 162.09, YOUR FAILURE TO CORRECT THE VIOLATION (S) MAY RESULT IN THE IMPOSITION OF A FINE OF UP TO \$250.00/DAY, AND \$500.00/DAY FOR A REPEAT VIOLATION. IF THE VIOLATION (S) IS IRREPARABLE OR IRREVERSIBLE, A FINE OF UP TO \$5000.00 MAY BE IMPOSED BY THE SPECIAL MAGISTRATE. FINES MAY BE IMPOSED ON A PER DAY/ PER VIOLATION BASIS.

FINES THAT ARE NOT PAID MAY BECOME LIENS UPON YOUR PROPERTY AND BE RECORDED IN THE PUBLIC RECORDS OF MONROE COUNTY.

TREE COMMISSION

Memorandum For the File

DATE: November 7, 2016

RE: HARC Application for 820 Carsten Lane

FROM: Karen DeMaria, Urban Forestry Manager

I have been asked to comment regarding the proposal to elevate the structure at 820 Carsten Lane. A primary reason for the proposed elevation change is due to the existence of a large strangler fig tree and its root system that is growing on the property line with 818 Carsten Lane (see photos below).

As the manager of the Tree Commission and the City Arborist, the elevating of this structure is a positive, proactive measure that will allow continued survival and growth of a protected and native tree species. This will also prevent any future damage to the structure from the root system of the tree. Therefore, I support the proposal with conditions; no impacts will occur to any trees or palms on the property including their roots and canopy branches, during the construction.

Note: a large trunk/branch from this tree was recently removed by an arborist (Tree Commission permit issued)

820

818

View standing on 818 Carsten Lane. A large section of this tree was able to be removed to prevent the immediate future damage to the house at 818. Note the large amount of roots that appear to be on 820 Carsten Lane, left of the fence. No additional major trimming of this tree can occur at this time.

NOTICING

Public Meeting Notice

The Historic Architectural Review Commission will hold a public hearing at 5:30 p.m., November 16, 2016 at Old City Hall, 510 Greene Street, Key West, Florida. The purpose of the hearing will be to consider a request for:

AFTER THE FACT ENCLOSURE OF SECOND FLOOR REAR ADDITION AND RENOVATION OF SIDING AND WINDOWS. NEW SIDE ADDITION TO TWO STORY ADDITION. RENOVATIONS TO HISTORIC BUILDING. ELEVATE HOUSE ONE FOOT AND SHIFT STRUCTURE 3 IN. SOUTHWEST. NEW ROOF ON SECOND FLOOR ADDITION TO RETAIN EXISTING HEIGHT. NEW REAR COVERED PORCH. PAINT TO MATCH. DEMOLITION OF NON-HISTORIC REAR ROOF AND EXTERIOR STAIRCASE. PARTIAL DEMOLITION OF SW WALL AND REAR WALL OF ORIGINAL BUILDING.

FOR- #820 CARSTEN LANE

Applicant – William Rowan Architects

Parcel Sales History

NOTE: Sales do not generally show up in our computer system until about two to three months after the date of sale. If a recent sale does not show up in this list, please allow more time for the sale record to be processed.

Thank you for your patience and understanding.

Sale Date	Official Records Book/Page	Price	Instrument	Qualification
4/17/2015	2735 / 2007	795,000	<u>WD</u>	<u>02</u>

3/3/2015	2728 / 1295	677,000	<u>WD</u>	<u>37</u>
2/4/2015	2723 / 911	651,000	<u>CT</u>	<u>12</u>
3/1/1997	1449 / 1113	212,000	<u>WD</u>	<u>O</u>
2/1/1994	1295 / 1886	1	<u>WD</u>	<u>M</u>
