

Staff Report

- 5 Demolition of existing roof over one story structure on the back of the main house - **#513 Margaret Street- Michael Miller (H12-01-1014)**

This staff report is for the review of a second reading for a Certificate of Appropriateness for the demolition of an existing roof of a one story attached addition. According to the Sanborn maps a one story sawtooth was located in the back portion of the house but it has been severely modified through the years. The existing roof was part of a complete renovation and new additions project that took place in 2002. The main house is listed as a contributing resource and was built ca. 1889. On June 12, 2012 the Commission approved the plans for a proposed second story addition. On June 26 the Commission approved the first reading for demolition.

Staff understands that the request for this demolition should be reviewed using the demolition criteria of Chapter 102 Section 218 of the LDR's. It is staff's opinion that the Commission can consider the request for demolition as it is consistent with the criteria for demolitions in the historic district, Sec. 102-218 of the Land Development Regulations. The proposed demolition will be on an existing roof that is not historic.
