

Mayor Johnston and Commissioners,

I am Tony Potts. I own Fish Inc, a charter boat and a tenant at charter boat row. I am slip number 26 on Amberjack pier. I was unable to work charter trips due to Covid 19 and lost a ton of revenue. I was denied any kind of federal assistance. I applied for an SBA loan as well and was denied. Please consider rent abatement for a portion of March, April, May, and June. As the shut down forced us to close our business to the public. Though we are running now and able to pay the current rent. The financial hardship that comes up from this shutdown has made our savings non existent and further has really made a strain on future months especially as our season will wind down. Please help the charter boats at this time. The additional rent spread out next year would sure cause further hardships that we may not overcome.

Sincerely

Capt. Tony Potts
