Can I get something from you that you guys are working with the Ford Commercial people. I need it as a back up for the paperwork going in front of the Commission. Thanks

Maria -- I have been working with the producers of the Ford Commercial; we have had a conference call as well as numerous calls regarding route, logistics and public safety issues. We have a meeting scheduled on Monday April 30th for an actual walk through with producers to asses route, road conditions, and public safety concerns.
