RE: Administrative Hearing for 3401 Eagle Avenue

FROM: Karen DeMaria, City of Key West Urban Forestry Manager

On October 22, 2018, an Administrative Hearing notice was sent to Marcia and Carl Davis, owners of 3401 Eagle Avenue, for the removal of (1) protected Mahogany tree and (1) regulated Alexander Palm from the property, without benefit of a tree removal permit. They appear to have been removed when a new fence was installed in April 2018.

In March 2018, the Davis's applied for a building permit to remove an old damaged fence and build a new wooden fence. Through the review process it was determined that the old fence was not on the property line but on City right of way and the application was changed to show the new fence on the property line. At that time, the location of the Mahogany tree and Alexander Palm were noted in the building permit file and a condition was added to the building permit that stated "Impacts not authorized to occur to any trees or palms including their roots and canopy branches."

An inspection of the area on April 13, 2018 documented the Mahogany tree and Alexander Palm had been removed. On June 7, 2018, an e-mail was sent to Mrs. Davis requesting information as to the removal of the tree and palm. No response was received.

The mahogany tree was approximately 4" caliper.

The Alexander Palm was over 10 ft tall.

Recommendation: Request the property owners replant 2-approved palms, 4 ft tall each palm or 1-8 ft tall palm and 8 caliper inches of dicot trees from approved list, on the property.

Subject: Fence permit and unauthorized tree removals

An inspection of the property indicated that a regulated palm tree by the driveway and a young protected mahogany tree along Eagle Avenue had been removed without benefit of a tree removal permit during the construction of the new fence. The building permit specifically stated that no impacts were authorized to occur to any trees or palms during construction of the fence. Can you explain what happened?

Sincerely,

Karen

OWNER-BUILDER DISCLOSURE STATEMENT

1. I understand that state law requires construction to be done by a licensed contractor and I have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.
2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.
3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts.
4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.
5. I understand that, as the owner-builder, I must provide direct, onsite supervision of the construction.
6. I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the licenses required by law and by county or municipal ordinance.
7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.
8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide workers' compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.
9. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.
10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the

Florida Construction Industry Licensing Board at (telephone number) or (Internet website address) for more information about licensed contractors.

11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the following address: (address of property) .

12. I agree to notify (issuer of disclosure statements) immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure.

Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's workers' compensation coverage.

Before a building permit can be issued, this disclosure statement must be completed and signed by the property owner and returned to the local permitting agency responsible for issuing the permit. A copy of the property owner's driver license, the notarized signature of the property owner, or other type of verification acceptable to the local permitting agency is required when the permit is issued.
