

ADDENDUM 2: ITB #14-001 SMATHERS AND REST BEACH CLEANING SERVICES

To all general contract bidders of record on the Work titled:

SMATHERS AND REST BEACH CLEANING SERVICES KEY WEST, FLORIDA

This addendum is issued as supplemental information to the ITB # 14-001 package for clarification of certain matters of both a general and a technical nature. The referenced ITB package is hereby addended in accordance with the following items as fully as completely as if the same were fully set forth therein:

This addendum provides specific modification of the Detail of Specifications. Sections A, D, E, K, T, and X supersede previous all editions. The other sections remain valid.

Detail of Specifications

A. Required Services:

The required services to be performed by the Contractor shall be to clean and maintain the entire length and width of Smathers and Rest Beach areas within the water's edge to the curb line or nearest edge of the pavement of the public road nearest to and paralleling the beach area, seven days per week, weather and/or environmental conditions permitting. See Exhibit "A" attached for a map detailing the beach cleaning area dimensions. Cleaning and maintaining includes daily seaweed and trash removal by the contractor. Proper disposal of seaweed shall be the contractor's responsibility. Cleaning and maintaining of the beach area is to be completed by 10:00 a.m. Smathers and Rest Beach must be cleaned. The upper beach areas should be cleaned using a Cherrington Beach Cleaner or an equivalent (to be approved by the Director of Community Services) in order to maximize removal of the unwanted coral, rocks, seaweed, trash, litter, broken glass, sharp shells, animal droppings, encroaching vegetation, cigarette filters while returning the sand to the beach

The contractor shall not change existing grades of beaches, bury or mix seaweed with sand, or place any seaweed trash or debris into the water, along South Roosevelt Boulevard, or Atlantic Boulevard.

Contractor shall be responsible for mobilization and demobilization of labor, materials, and equipment. Because of the need to mobilize daily, the Contractor shall maintain a yard within the Lower Keys (west of the Seven Mile Bridge) and shall have all steadily used equipment available at that site.

The contractor shall maintain all work areas within and outside the project boundaries free from any environmental pollution which would be in violation of any federal, state, or local regulations.

All debris, trash and seagrass removed from the beach shall be properly disposed of at an approved landfill and/or transfer station. The contractor shall provide copies of all dump tickets with the monthly invoice for the City's records.

Work is likely to be influenced by the tides. The tides can have an effect on the timing and work schedule. No extra claims shall be made for the tides or for other natural weather conditions. Plan the work and carry it out with minimum interference to the operation of existing facilities. Beach users do arrive by 8:00 A.M., especially at Smathers Beach. Prior to starting the work, confer with the Director of Community Services to develop an approved work schedule, which will permit the facilities to function normally as practical. It may be necessary to perform certain tasks outside normal working hours or phase cleaning of the beach in order to avoid undesirable conditions. The contractor shall do this type of work at such times and at no additional cost to the Owner.

The Contractor will coordinate the beach cleaning action with the FDEP, Office of Beaches & Coastal Systems, to ensure that the expertise and overall desires of the Department with respect to beaches and shores are included in the everyday cleaning operation, all in accordance with the requirements of Chapter 161, Florida Statutes.

The Contractor shall obtain and maintain all necessary permits and approvals and shall comply with all federal, state and local laws and regulations concerning the subject matter of the Contract Documents.

D. Debris, Trash and Litter Removal:

1. Debris, trash and litter removal, wood, plastic, glass, paper, tar, pine needles, palm fronds, coconuts, tree limbs, metal objects and other forms of debris, trash and litter deposited on the beach by the ocean or by bather usage, and placed in a City leased dumpster on a daily basis.

2. Trash Removal: Fixed or mobile trash containers of any nature; round, square, wood, or metal, provided by the City that are located anywhere on the sand and seaward of the curb or edge of the pavement of the nearest road paralleling the Beach area, shall be emptied and placed in a City leased dumpster on a daily basis. Contractor is responsible to provide all trash bags for the containers provided by the City.

E. Seagrass:

The Contractor shall remove all seagrass including the tide level strand line whenever located on the beaches and haul it to the disposal site. The Contractor is responsible for disposing of seaweed in such a manner which would not be in violation of any federal, state, or local regulations.

When seaweed rack is greater than 10" in depth, the contractor shall use an initial cleaning method to supplement the final cleaning.

K. Hurricane Conditions:

In the event a hurricane, named or numbered storm, or act of God deposits unusual and excessive amounts of material on the beach, and the Owner's representative reasonably agrees that such deposits are indeed excessive, the Contractor shall respond to the owners request within twenty-four hours of notification.

T. Accident Reports

The Contractor must promptly report in writing to the Recreation Facilities Manager, Director of Community Services and the City Risk Manager all accidents whatsoever arising out of, or in connection with, the performance of the work whether on, or adjacent to, the site, giving full details and statements of witness. If death or serious injuries or serious damages are caused, the accident shall be reported immediately by telephone or messenger to Recreation Facilities Manager, Director of Community Services and the City Risk Manager. If a claim is made by anyone against the contractor on account of any accident, the Contractor shall promptly report

the facts in writing to Recreation Facilities Manager, Director of Community Services and the City Risk Manager, giving full details of the claim.

X. Submittals:

Submittals are required for the following:

1. Cherrington Beach Cleaner or equivalent for upper beach areas (as approved by the Director of Community Services) – specification and data sheets
2. Beach Cleaner used for seaweed removal (as approved by the Director of Community Services) – specification and data sheets
3. Schedule
4. Florida Department of Environmental Protection, Office of Beaches & Coastal Systems Beach Cleaning Permit
5. Front End Loader with long pronged bucket
6. Dump Truck
7. Beach tilling contractor and equipment
8. Seaweed disposal plan: The City requires all bidders to provide a plan that encourages the reuse of the seaweed material in a manner that benefits the City and is consistent with the City's goal of sustainability. Long term storage of material is discouraged.
