Dear Don and Nicole,

Per our discussion today, Mr. Scott Saunders has withdrawn the proposed use of 907 James Street for the current application pending at the City Commission.

We are currently awaiting determination of the shed as a contributing historic structure. This determination, if granted, will allow the use of the structure at a future date. Once the determination is assured, we will bring forward to all appropriate committees and the neighboring residents the proposed use, plans and elevations that would be brought to HARC and Planning .

By doing this action, I believe that we might move forward with the development of the office and site development as submitted at 313 Margaret Street. Please advise if this is the appropriate method or if there are other documents that are required.

Michael Ingram for Scott Saunders
