If Yes: Date of approval \_\_\_\_\_ HARC approval # \_\_\_\_\_  
OR: Date of meeting \_\_\_\_\_
- 12) Description of Proposed Development and Use. Please be specific, list existing and proposed buildings and uses, number of dwelling units, parking, restaurant seats, vehicles proposed, etc. If there is more than one use, describe in detail the nature of each use (Give concise description here and use a separate sheet if necessary).

AHI is a nonprofit Florida corporation that provides case-managed health care, housing assistance, and support services for HIV-infected residents of the Florida Keys.

AHI of Monroe County, Inc. is proposing the redevelopment of their existing rest home facility at Marty's Place. The property currently consists of 16 individual living units. The redevelopment will allow for a total of 47 individual deed-restricted affordable living units as well as a 1,916 sq. ft. administration building. The redevelopment will provide for increased capacity to meet current AHI housing demands.

DEVELOPMENT PLAN AND CONDITIONAL USE APPLICATION

13) Has subject Property received any variance(s)? Yes \_\_\_\_\_ No  X

If Yes: Date of approval \_\_\_\_\_ Resolution # \_\_\_\_\_

Attach resolution(s).

14) Are there any easements, deed restrictions or other encumbrances on the subject property?

Yes \_\_\_\_\_ No  X

If Yes, describe and attach relevant documents.

---

---

A. For both *Conditional Uses* and *Development Plans*, provide the information requested from the attached **Conditional Use and Development Plan** sheet.

B. For *Conditional Uses* only, also include the **Conditional Use Criteria** required under Chapter 122, Article III, Sections 122-61 and 122-62 of the Land Development Regulations (see attached copy of criteria).

C. For *Major Development Plans* only, also provide the **Development Plan Submission Materials** required under Chapter 108, Article II, Division 7, Sections 108-226 through 108-248 of the Land Development Regulations (see attached copy of criteria) and any additional information as determined by the Planning Staff.

D. For both *Conditional Uses* and *Development Plans*, one set of plans **MUST** be signed & sealed by an Engineer or Architect.

**Please note, development plan and conditional use approvals are quasi-judicial hearings and it is improper to speak to a Planning Board member or City Commissioner about the project outside of the hearing.**

# Conditional Use & Development Plan Approval Criteria Analysis

Pursuant to Sec. 122-61 to -65

## AHI - **Marty's Place**

The following is an analysis of the specific criteria for approval, pursuant to Sec. 122-61 to -65, for the proposed redevelopment of Marty's Place.

Existing development is depicted in attached surveys and plans, including:

- Size of site
- Buildings
- Structures
- Parking
- FEMA flood zones
- Topography
- Utility locations
- Existing vegetation
- Existing stormwater
- Adjacent land uses
- Adjacent buildings
- Adjacent driveways

Proposed development is depicted in attached plans prepared by licensed architects, including:

- Floor Plans
- Buildings
- Utility Locations
- Driveway Dimensions
- Building Elevations
- Parking
- Setbacks
- Garbage and recycling
- Project Statistics

Solutions Statement:

AHI is a nonprofit Florida corporation that provides case-managed health care, housing assistance, and support services for HIV-infected residents of the Florida Keys.

AHI of Monroe County, Inc. is proposing the redevelopment of their existing rest home facility at Marty's Place. The property currently consists of 16 individual living units. The redevelopment will allow for a total of 47 individual living units as well as a 1,916 sq. ft. administration building. The redevelopment will provide for increased capacity to meet current AHI housing demands.

Key persons and entities involved in this project are as follows:

Owner: AHI Real Estate Properties, Inc.  
 Authorized Agent: Trepanier & Associates, Inc.  
 Architect: MHK, Architecture & Planning  
 Engineer: Meridian Engineering, LLC  
 Legal and Equitable Owners: AHI Real Estate Properties, Inc.

Site Data:

Dimensional Aspect	Permitted/ Required	Existing	Proposed	Compliance
Zoning	CL	CL	No Change	Complies
Min Lot Size	10,000 sq. ft.	33,066 sq. ft.	No Change	Complies
Max Density (Units/ acre)	16 units	NA	NA	Complies
Commercial FAR	0.8	0.24 (7,909 sq. ft.)	0.05 (1,916 sq. ft.)	Complies
Max Height	40 ft.	22 ft.	40 ft.	Complies
Open Space: Commercial	20%	40%	30% (9,915 sq. ft.)	Complies
Max Building Coverage	40%	29.5% (9,744 sq. ft.)	79% (26,385 sq. ft.)	Variance
Landscaping	20%	Unk.	30% (9,915 sq. ft.)	Complies
Impervious Surface	60%	56.2% (18,585 sq. ft.)	70% ( 23,151 sq. ft.)	Variance
Setbacks: Front (Dennis)	25' 0"	10' 5"	17' 5"	Variance
Front (Venetia)	25' 0"	11' 11"	25' 0"	Complies
Front (Bertha)	25' 0"	8' 9"	10' 0"	Variance
Side 1	20' 0"	0' 0"	15' 0"	Variance
Rear	25' 0"	9' 7"	15' 0"	Variance

Other Project Information:

This is a single phase project with construction beginning after the demolition of the existing 16 structures and administration building. The redevelopment of this site into 47 units will be completed within a 12-14 month timeframe after the site has been cleared.

Intergovernmental Coordination:

Coordination will occur as part of the DRC hearing process.

Schedule and Process:

The review process for conditional use review will be pursuant to Sec. 122-63

05/14/18	Submission Deadline
06/26/18	Development Review Committee
07/09/18	Tree Commission Hearing
07/19/18	Planning Board
08/14/18	Tree Commission Hearing
09/02/18	City Commission
30 days	City Commission Appeal Period
45 days	Department of Economic Opportunity Appeal Period

## SPECIFIC CRITERIA FOR CONDITIONAL USE APPROVAL

### Land use compatibility:

The attached analysis and plans demonstrate that the proposed project, including its proposed scale and intensity are compatible and harmonious with adjacent land use and will not adversely impact land use activities in the immediate vicinity.

### Site Size:

The Marty's Place site is 33,066 sq. ft.

### Mitigative techniques:

The proposed use will not create negative impacts that require mitigation; however, the site will be brought into compliance with stormwater water management and will be dramatically improved with landscaping. Parking will be added to the site along with on-site management.

### Hazardous waste:

The proposed use shall not generate hazardous waste or require use of hazardous materials in its operation.

### Compliance with applicable laws and ordinances:

This use shall comply with all applicable federal, state, county, and city laws and ordinances. Where permits are required from governmental agencies other than the city, these permits shall be obtained.

### Additional criteria applicable to specific land uses:

- Land uses within a conservation area - the proposed project is not located in a conservation area.
- New residential development of 47 units and an administration building is proposed.

## ANALYSIS: EVALUATION FOR COMPLIANCE WITH THE LDRS

### Concurrency Facilities and Other Utilities or Services (Section 108-233)

#### The anticipated public facility impacts of the proposed development:

The following concurrency analysis demonstrates that all anticipated development impacts to public facilities can be accommodated within current capacities and adopted levels of service.

#### The ability of existing facilities to accommodate the proposed development at the adopted level of service standards:

The following concurrency analysis demonstrates that all anticipated development impacts to existing facilities can be accommodated within current capacities and adopted levels of service.

Any existing facility deficiencies that will need to be corrected prior to the completion of the proposed development:

**There are no existing facility deficiencies that will need to be corrected prior to completion of the proposed development.**

The facility improvements or additions necessary to accommodate the impact of the proposed development at the adopted level of service standards and the entities responsible for the design and installation of all required facility improvements or additions:

**There are no facility improvements or additions necessary to accommodate the impact of the proposed development at the adopted level of service standards.**

The date such facility improvements or additions will need to be completed to be:

**NA – No improvements required.**

Fire Protection (Section 108-233 (8))

**Key West Fire Department coordination shall be per DRC. No objections are known to exist at this time.**

Site Location and Character of Use (Section 108-235):

**The project site is located in the Commercial-Limited ("CL") zoning district. The CL zoning district is intended to serve limited commercial land uses such as neighborhood residential markets, specialized markets with customized market demands, and tourist-oriented markets. Based on the surrounding zoning and land uses, the proposed project is compatible with neighboring properties.**

Location and screening of mechanical equipment, utility hardware and waste storage areas (Section 108-279):

**Please see attached plans.**

Utility lines (Section 108-282):

**No changes proposed.**

Commercial and manufacturing activities conducted in enclosed buildings (Section 108-283):

**All commercial activities are proposed to occur within enclosed buildings.**

Exterior Lighting (Section 108-284):

**All lighting will be consistent with Sec. 108-284.**

Signs (Section 108-285):

**Signage shall be approved under Sec. 108-285**

Pedestrian sidewalks (Section 108-286):

**All pedestrian sidewalks will be designed consistent with Sec. 108-286.**

Loading docks (Section 108-287):  
No changes proposed.

Storage Areas (Section 108-288):  
No changes are proposed.

In-Site and Off-Site Parking and Vehicular, Bicycle, and Pedestrian Circulation (Section 108-244):

Pursuant to Sec. 108-572 the parking demands for AHI housing conform to Nursing/Convalescent Home (Sec. 108-572(12)).

Existing Parking: 12 spaces; Proposed Parking: 37 spaces

Use	Parking Requirement	Existing (16 Beds)	Required (47 Beds)	Proposed
Nursing/Convalescent homes (Sec. 108-572(12))	1 space for every 4 beds	12	11.75	40
	10% Bicycles	Unk.	1.17	17
Office (Sec. 108-572(15))	1 space per 300 sq. ft.	0	6.39	7
	25% Bicycles	0	1.59	3
Total	Auto	12	18.14	47
	Bicycle	Unk.	2.76	20

Housing (Section 108-245):

Thirty-one new individual rest home living units will be added as a result of this project.

Units	No.
Existing Rest Home Living Units	16
Number to be Redeveloped	0
New Rest Home Living Units to be added	47
Total Number of Units (Post Development)	47

Economic resources (Section 108-246):  
No significant changes are anticipated.

Special Conditions (Section 108-247):

The proposal complies with the goals, objectives and policies of the comprehensive plan and as demonstrated by the concurrency analysis there are no conflicts with the existing public facilities, such as wastewater treatment and transportation.

The project is located within the CL District and complies with the intent of the plan.

There is no impact on the unincorporated portion of the county.

Construction Management Plan and Inspection Schedule (Section 108-248):

Construction will be done in two phases. Phase I will commence as soon as possible following the approval, Phase II will commence within 5 years.

Open Space, Screening, Buffers and Landscaping (Article V and VI) of Chapter 108:

This application/request for modification to the standards of this ordinance is hereby filed with the city planning office and shall be considered by the planning board after reviewing recommendations of the city planner or designated staff. The planning board shall render the final action.

This request is to waive the following landscape requirements of Sec. 108 so as to:

1. Protect and preserve the integrity of this vital community service.
2. The waiver will not have a significant adverse impact on the public interest, or on adjacent property.
3. The waiver or modification is not discriminatory, considering similar situations in the general area.
4. The development will provide an alternative landscape solution which will achieve the purposes of the requirement through clearly superior design.
5. The waiver or modification is necessary to preserve or enhance significant existing cultural and public-like facilities related to the development site.
6. Strict application of the requirement will effectively deprive the owner and the community of reasonable use of the land for the intended purpose due to its unusual size, shape, and location.
7. The effect upon the owner is not outweighed by a valid public purpose in imposing the requirement in this case.
8. The unusual conditions involved, i.e. the need for case-managed health care, housing assistance, and support services for HIV-infected residents of the Florida Keys are not the result of actions of the developer or property owner which occurred after the effective date of the ordinance from which this section derives.
9. Strict application of the requirement would be technically impractical.

Specific Waivers/ Modifications:

Sec. 108-413. Requirements along street frontage.

To permit the street frontage landscaping as proposed on the attached plans.

Sec. 108-415. Perimeter landscape requirements.

To permit the perimeter landscaping as proposed on the attached plans.

Sec. 108-416. Other landscape requirements for nonvehicular use areas.

To permit the nonvehicular use area landscaping as proposed on the attached plans.

Sec. 108-450. Landscape screening.

To permit the landscape screening as proposed on the attached plans.

Stormwater and Surface Water Management (Article VIII):

No changes required or proposed.

Flood Hazard Areas (Division 4 - Sections 108-821 through 108-927):

No changes proposed.

Utilities (Article IX):

No changes proposed.

## CONCURRENCY ANALYSIS:

The City's Comprehensive Plan Objective 9-1.5 directs the City to ensure that facilities and services needed to support development are available concurrent with the impacts of new development.

The following specific issues are outlined:

1. Potable Water & Sanitary Sewer
2. Recreation (for residential development only)
3. Solid Waste
4. Drainage
5. Roads/Trip Generation

The following concurrency analysis reflects the anticipated impacts resulting from the proposed conversion of existing commercial floor area to retail use.

Potable Water & Sanitary Sewer "Planned improvements in potable water and/or wastewater systems required to establish and/or maintain adopted water and wastewater levels of service. System improvements and proposed funding resources required for implementing any improvements required to establish and/or maintain adopted potable water and wastewater system level of service standards<sup>1</sup>:"

Potable Water Policy 9-1.6.1 sets the level of service for residential potable water at 100 gal/capita/ day.

- i) The total residential capacity required for the existing 16 unit (16 people) parcel is:

$$100 \text{ gal/capita/day} \times 16 \text{ people} = 16,000 \text{ gal/day}$$

- ii) The total residential capacity required for the proposed 47 unit (47 people) parcel is:

$$100 \text{ gal/capita/day} \times 47 \text{ people} = 47,000 \text{ gal/day}$$

- iii) The total nonresidential capacity required for the existing is:

$$100 \text{ gal/capita/day} \times 1 \text{ people} = 100 \text{ gal/day}$$

- iv) The total nonresidential capacity required for the proposed 2 employees parcel is:

$$100 \text{ gal/capita/day} \times 2 \text{ people} = 200 \text{ gal/day}$$

---

<sup>1</sup> The City of Key West's Comprehensive Plan Policy 9-1.5.1: Resolving Concurrency Issues.

Based on the concurrency management calculation prescribed in the Comprehensive Plan, there is no or minimal increase in the proposed capacity required by Key West Comprehensive Plan LOS standards; the Florida Keys Aqueduct Authority has the capacity to supply adequate service to this property, as demonstrated below.

**FKAA Supply Capacity:**

The Florida Keys Aqueduct Authority ("FKAA") has adequate supply capacity to serve the potential development. FKAA has constructed facilities on the mainland in Florida City to expand water supply for the Florida Keys. This permitted and constructed improvement enables FKAA to provide over 23 MGD, which will provide sufficient capacity through 2022<sup>2</sup>. Operational in 2011, the recent expansion of the R.O. plant will provide 6.0 MGD, which combined with the 17.0 MGD permitted withdrawal from the Biscayne Aquifer, increased available water supply to 23 MGD for the Florida Keys.

*Expanded Florida City R.O. Plant.* The Department of Health issued Permit # 150092-007-wc/04 (Exhibit I) on November 14, 2006 to allow for the construction of an expanded reverse osmosis (R.O.) water plant in Florida City. The expanded water plant is designed to treat blended Floridian Aquifer water as an alternative water source to the Biscayne Aquifer. The permit design capacity of the expanded R.O. plant is 6 MGD.

*Revised Water Use Permit.* The SFWMD issued revised Water Use Permit (WUP) #13-00005-W (Exhibit II) on March 26, 2008, which recognizes the additional blended Floridian Aquifer capacity that will be provided by the expanded R.O. plant. Interim Water Use Allocations in the WUP permit provide FKAA with an allocation of 17.00 MGD (dry season) and 17.79 GPD (wet season) which may be withdrawn from the Biscayne Aquifer and allows FKAA to utilize the Stock Island and Marathon Reverse Osmosis plants for any demands exceeding the interim withdrawal limit, pending completion of the R.O. plant in Florida City. The Stock Island and Marathon R.O. plants have a combined capacity of 3.0 MGD providing an interim WUP water supply of 20.0 MGD during the dry season if needed. Once operational in 2010, the R.O. plant will provide an additional 6.0 MGD, which when combined with the 17.0 MGD permitted withdrawal from the Biscayne Aquifer, will increase available water supply to 23 MGD for the Florida Keys.

The interim allocation of 20 MGD (7,300 MG/year) through 2010 and 23 MGD after 2010 provides ample water supply to support the adopted amendment and allocated growth well beyond 10 years. The "Monroe County 2007 Annual Public Facilities Report" documents historic water use in the Florida Keys. Water demand has fluctuated significantly on an annual basis, however when evaluated over a ten-year period, the data shows an increase in water demand of more than 1 billion gallons over the last 10 years with an annual average increase of approximately 104 MG/year. This increase in demand can be shown in the following calculation:

$$1996 \text{ annual water demand} = 5,272 \text{ MG /year}$$

---

<sup>2</sup> Excerpt from Analysis by Kenneth B. Metcalf, AICP, (Greenberg Traurig, P.A.), August 22, 2008.

2006 annual water demand = 6,310 MG /year  
Average Annual Increase =  $(6,310 \text{ MG} - 5,272\text{MG}) / 10 = 103.8 \text{ MG /year}$

Based on the average annual increase of 103.8 MG per year, the interim allocation would be sufficient for an additional 9.5 years of growth beyond 2006 or through 2015 until demand reaches the interim permitted withdrawal of 20 MGD (7,300 MG/year). Since completion of the Florida City facilities, the 23 MGD allocation is available to support yet another 9.5 years of growth. Based on these findings, sufficient permitted water supply is available to meet the needs of the Florida Keys through 2024.

*Improvements Schedule/Status.* Condition 30 of the WUP provides the R.O. plant and the associated Floridian deep wells that will provide 23 MGD of capacity through 2024:

- DEP Underground Injection and Control permit was obtained on May 21, 2008.
- Construction contracts were required within 180 days or by November 21, 2008;
- Testing is required within one year and 30 days from issuance of the permit or by June 21, 2009.
- The R.O. plant construction was completed in January, 2010.

**Sanitary Sewer** Policy 9-1.6.1 sets the level of service for residential sanitary sewer at 100 gal/capita/day and nonresidential sanitary sewer at 660 gal/acre/day.

i) the total residential capacity required for the existing 16 unit parcel is:

$$100 \text{ gal/capita/day} \times 16 \text{ people} = 1,600 \text{ gal/day}$$

ii) the total residential capacity required for the proposed 47 unit parcel is:

$$100 \text{ g gal/capita/day} \times 47 \text{ people} = 4,700 \text{ gal/day}$$

iii) the total nonresidential capacity required for the existing 0.18 acre parcel is:

$$660 \text{ gal/acre/day} \times 0.18 \text{ acres} = 119.8 \text{ gal/day}$$

iv) the total nonresidential capacity required for the proposed 0.04 acre parcel is:

$$660 \text{ gal/acre/day} \times 0.04 \text{ acres} = 26.4 \text{ gal/day}$$

The current wastewater treatment plant has the potential treatment capacity of 10 million gallons per day. Only 4.8 million gallons per day of capacity are currently utilized<sup>3</sup>. The current plant has the capacity to service this project's projected needs.

Recreation "In cases where residential development is proposed, information shall be submitted describing plans for accommodating recreational demands generated by the development, including demonstrated evidence that the City's adopted level of service for recreation shall not be adversely impacted<sup>4</sup>:"

The City's adopted level of service for recreation will not be adversely impacted.

Solid Waste- "Projected demand generated by the development on the solid waste disposal system and assurances that the City's adopted level of service for solid waste disposal shall not be adversely impacted<sup>5</sup>:"

Sec. 94-71 sets the level of service for residential solid waste disposal (1994-2010) at 2.66 lb/capita/day and nonresidential solid waste disposal at 6.37 lb/capita/day<sup>6</sup>.

i) the total capacity required for the existing 1 employees is:

$$6.37 \text{ lb/capita/day} \times 1 \text{ employees} = 6.37 \text{ lb/day}$$

ii) the total capacity required for the proposed 2 employees<sup>7</sup> is:

$$6.37 \text{ lb/capita/day} \times 19.6 \text{ employees} = 12.74 \text{ lb/day}$$

Based on the City's LOS standards there will be a projected reduction in solid waste generation on the site. Waste Management has more than enough capacity to handle the projected load

Drainage - "Conceptual plan for accommodating storm water run-off and demonstrated evidence that the proposed drainage improvements shall accommodate storm water run-off without adversely impacting natural systems or the City's adopted level of service for storm drainage<sup>8</sup>"

This site currently meets the minimum requirements through best management practices.

Roads/Trip Generation - "Estimated trips for the peak hour generated by the proposed land use(s) together with anticipated on- and off-site improvements necessitated to accommodate the traffic impacts generated by the development including, additional R/W, roadway improvements, additional paved laneage, traffic signalization, proposed methods for controlling access and egress, and other similar improvements<sup>9</sup>:"

**DRAINAGE  
PLAN**

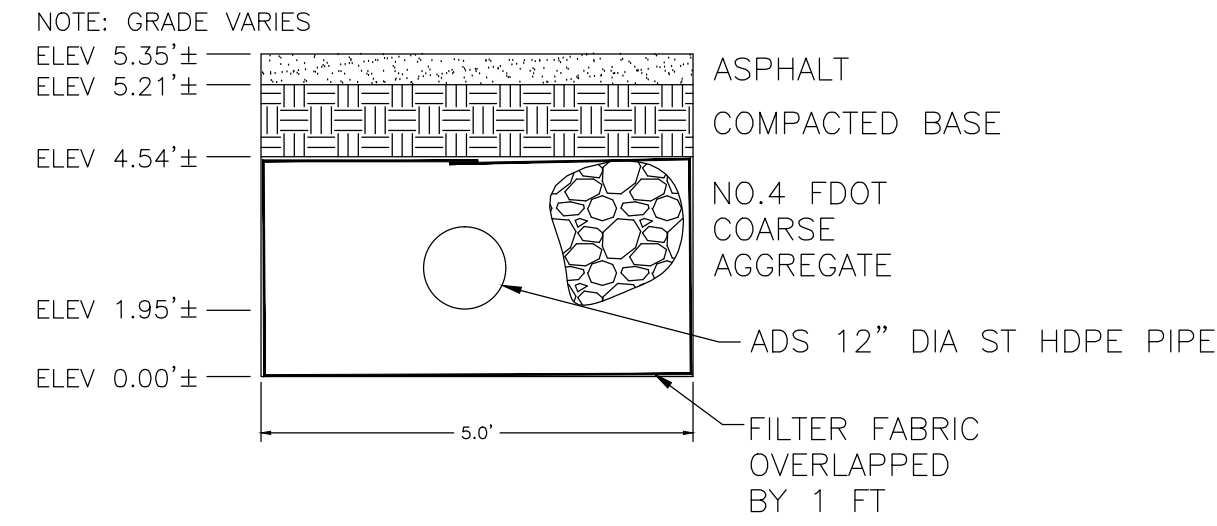

Sheet Number:  
**C-1.0**

Date: MAY 10, 2018

- NOTES:**
1. CONCRETE SHALL BE 4000 PSI AT 28 DAYS, TYPE II CEMENT
  2. ALL REINFORCEMENT MAY BE WELDED WIRE AS PER ASTM C-478, #4 @ 12" O.C.E.W.
  3. FRAME AND GRATE BRICKED TO GRADE BY CONTRACTOR.
  4. BOTTOM INLETS SHALL BE FDOT TYPE C CATCH BASIN OR EQUAL.
  5. STRUCTURES TO BE SET ON COARSE AGGREGTE BEDDING.

**1 CATCH BASIN DETAIL**  
C-1.1 SCALE: NTS

- NOTES:**
1. FILTER FABRIC SHALL BE MARAFI FILTERWEAVE 300 OR ENGINEER APPROVED EQUIVALENT. FILTER FABRIC SHALL BE INSTALLED PER MANUFACTURER'S INSTRUCTIONS.
  2. GRADES DEPICTED DO NOT REFERENCE ACTUAL ELEVATIONS. GRADES ARE CONCEPTUAL TO SHOW REQUIRED DEPTHS.
