2.4 EXECUTION AND TERM OF CONTRACT

The City and the Awarded Consultant shall execute a contract ("Agreement") within thirty (30) days after Notification of Award based upon the requirements set forth in the RFP through action taken by the City Commission at a fully authorized meeting. If the Proposer awarded the contract fails to enter into a contract as herein provided, the award may be declared null and void, and the contract may be awarded to the next most responsible and responsive Consultant, or readvertised, as determined by the City.

The initial contract resultant from this solicitation shall prevail for a one (1) year period from the contract's initial effective date. Prior to, or upon completion, of that initial term, the City shall have the option to renew the contract for four (4) additional one (1) year periods for a maximum total of five (5) years. The Awarded Consultant shall maintain, for the entirety of the stated additional periods(s), the same terms and conditions included within the originally awarded contract. Continuation of the contract beyond the initial period, and any option subsequently exercised, is a City prerogative, and not a right of the Awarded Consultant. This prerogative may be exercised only when such continuation is clearly in the best interest of the City.

2.5 PROPOSAL FORMAT AND SIGNATURES

To be considered, proposals must be submitted in accordance with the City's specified instructions. The entire proposal must be resubmitted, including all executed forms, with each section signed to indicate it has been read and understood, and all response forms fully completed. 2.6 METHOD OF AWARD

The City will open all submittals received prior to the stated deadline in a public forum and will

announce the name of the Proposers. In order to be deemed responsive the proposals must meet or exceed the minimum requirements established in Section 2.2 and contain all required forms listed and provided in Section 4 of this solicitation. The City of Key West shall be the sole judge in determining Consultant's qualifications.

The City anticipates awarding a single contract but reserves the right to award multiple contracts if it is determined to be in the best interest of the City.

The Consultant understands that this RFP does not constitute an offer or a contract with the City. A contract shall not be deemed to exist and is not binding until proposals are reviewed and accepted by appointed staff, the best proposal has been identified, negotiations with the firm/individual have been authorized by the appropriate level of authority within the City, and an agreement has been executed by both parties and approved by the appropriate level of authority within the City.

The City, at its sole discretion, reserves the right to inspect any/all of the Consultant's facilities to determine their capability to meet the requirements for the contract. Also, hourly rates, responsibility, and responsiveness of the Consultant, the financial position, experience, staffing, equipment, materials, references, and past history of service to the City and/or with other units of state, and/or local governments in Florida, or comparable private entities, will be taken into consideration in the Award of the Agreement.

In the event the parties are unable to negotiate terms acceptable to the City, the City may determine to accept the offer of the next highest ranked firm/individual determined by the Selection Committee, or it may re-solicit.

The City reserves the right to reject all proposals, to waive non-material, technical variances, or infirmities in the proposal, to abandon the project or to solicit and re-advertise for other proposals. The City may in its discretion waive any informalities and irregularities contained in a proposal or in the manner of its submittal and award a contract thereafter.

The City's Selection Committee will evaluate proposals and will select the Consultant which meets the best interests of the City. The City shall be the sole judge of its own best interests, the proposals, and the resulting negotiated agreement. The City's decisions will be final. The purpose of the Evaluation Process is to evaluate the proposals submitted in response to this Request for Proposal and to establish the most advantageous firm/individual, further identified as the No. 1 or highest ranked firm/individual. Each proposal will be evaluated by each Selection Committee member using the procedures outlined herein.

PHASE I — EVALUATION

In a publicly noticed meeting, a Selection Committee, appointed by the City Manager or designee, will meet to evaluate all responsive submittals received in accordance with the requirements set

forth in the solicitation. The City may request additional information of a clarifying nature if deemed necessary for this evaluation. Additional information may be requested via written submissions or oral presentations to the Selection Committee to allow each firm/individual an opportunity to provide the Selection Committee with additional insight regarding their proposal and that of the qualifications of the firm/individual.

Each Selection Committee member shall evaluate and award points in accordance with the Scoring Criteria specified for each of the Categories listed below. The points awarded for each Category will be totaled, ranked, and tabulated to determine the top ranked firm/individual to provide the City Commission. Should the number of Proposers exceed three (3), the Selection Committee will provide the City Commission with a ranking of the "shortlisted" firms/individuals.

PHASE II — SELECTION

The Selection Committee will submit their tabulated scores and firm/individual ranking to the City Commission for their consideration to award the contract. The City Commission may accept the ranking recommendations of the Selection Committee and may request firms to give a presentation and/or answer questions, amend rankings, or reject all Proposals. The City Commission will make the final selection. The City shall not be responsible for any costs of preparation or costs incurred in relation to any opportunities for an interview.

Subject to approval by the City Commission, a contract may be awarded to one or more Consultants deemed the most responsible and responsive, based on the selection criteria. Any award will be contingent upon the execution of a contract, which must be in a form and substance approved by the City Attorney. The City of Key West reserves the right to reject proposals from vendors currently involved in litigation with the City or those with a history of prior lawsuits against the City.

Pursuant to Florida Statute 120.57(3); "Failure to file a protest within the time prescribed in section 120.57(3), Florida Statutes, or failure to post the bond or other security required by law within the time allowed for filing a bond shall constitute a waiver of proceedings under chapter 120, Florida Statutes."

END OF SECTION 2

SECTION 3 SCOPE OF SERVICES

3.1 BACKGROUND

Key West is an island city measuring approximately 4 miles in length and 1.5 miles in width. Located at the southernmost point of U.S. Highway 1, it is situated 153 miles southwest of Miami, Florida, and 93 miles northwest of Havana, Cuba. Key West serves as the county seat of Monroe County and encompasses the entire island, along with a portion of neighboring Stock Island to the northeast. The city's economy is primarily driven by tourism and commercial/charter boat fishing. A significant portion of the workforce is employed in the service industry, along with positions in government agencies and schools. Additionally, the U.S. Navy and Coast Guard maintain a presence in Key West.

The City's estimated permanent population in 2023 was 25,000. In addition to its residents, Key West is a world-renowned tourist destination and a favored location for second homes. On any given day, the total population in Key West—including permanent residents, seasonal residents, the maritime population, overnight tourists, day-trippers, cruise ship visitors, commuters, and shoppers—is estimated to exceed 50,000. This number can surge significantly during major events such as Fantasy Fest or New Year's Eve.

The City operates under a commission-manager form of government, with six district Commissioners and one Mayor elected at large. The City Commission appoints members to various volunteer boards and commissions, which are responsible for carrying out duties outlined by State law, the City Charter, and local ordinances. These boards and commissions include the Planning Board, the Historic Preservation Committee, and the Tree Commission. Additionally, the City Commission appoints Special Advisory Committees to provide community input on specific issues and projects as needed. Current advisory boards include the Key West Bight Management District Board, Parks & Recreation Advisory Board, Bahama Village Redevelopment Advisory Committee, Arts in Public Places Advisory Board, Contractors Examining Board, and the Environmental Sustainability Board.

3.2 SCOPE OF SERVICES

The City of Key West places great importance on its water quality, recognizing that a healthy marine ecosystem supports not only the economic engine of the city, but also major environmental and aesthetical quality of life factors for our residents and visitors. The City is seeking a qualified water quality monitoring expert or governmental entity (Ord. No. 22-07, § 1, 4-5-2022) as a consultant to develop a water quality monitoring program that provides actionable information on the selected water quality issues within the waterways of the City of Key West through active appropriate testing and other effective methods in accordance with local, state, & federal practices and regulations. The data derived from this monitoring will be used to develop policies, programs, and practices to improve water quality.

The Consultant acknowledges that the scope of work provided in this RFP represents the general requirements and objectives for the project but does not constitute an exhaustive list of all tasks, services, or deliverables that may be required. The Consultant is responsible for conducting a thorough review of the project's needs and will provide all necessary services, expertise, and support to fulfill the project's goals, even if not explicitly mentioned in the scope.

Any additional work, tasks, or services required to complete the project in full compliance with the objectives, industry standards, and applicable regulations shall be deemed the responsibility of the Consultant and will be provided at no additional cost, unless otherwise agreed upon in writing by both parties.

A) **Geographic Areas of Concern (GOC):** The Consultant will be responsible for conducting water quality testing across several key areas within the Key West waterways, including but not limited to:

Key West Harbor & Outer Harbor

- Waters surrounding the Key West waterfront and marinas.
- Includes popular recreational areas such as beaches and docks.

Florida Keys National Marine Sanctuary (FKNMS)

Waters within the sanctuary boundaries, with particular focus on areas prone to high human activity and potential chemical runoff.

Stock Island Channel

 Waters adjacent to Stock Island, including potential runoff areas from residential and industrial sources.

• Shoreline Areas

 Including coastal wetlands and mangrove habitats around Key West to test for pollutants that may affect sensitive ecosystems.

Swimming Beaches

Including but not limited to: Smathers Beach, Rest Beach, Higgs Beach, Fort Zachary Taylor beach, South Beach, and Dog beach. Focus on testing for bacteria and other health related pollutants, especially in areas highly frequented by residents and visitors.

<u>Task 1)</u> Review current relevant data across all GOCs and Identify Opportunities

In order to advise on a comprehensive water quality program, all relevant data shall be summarized in layman's terms to help the citizens of Key West understand what pollutants are of highest concern in each GOC. Recommendations on water quality design to capture the extent of those pollutants will be presented to the City Commission for feedback and prioritization.

<u>Task 2</u> <u>Identify Actions that may Mitigate Pollutants</u>

With feedback from Task 1, create a list of actions which may mitigate the identified pollutants.

The list will include definition of the scope of those actions, their estimated costs and postulated effect on the pollutant(s). Recommendations will be presented to the City Commission for feedback and prioritization.

Task 3 Design Water Quality Monitoring Programs

Utilizing feedback from Task 1 and 2, design a Water Quality Monitoring Program that will capture both the baseline levels of the prioritized pollutants and the changes to those pollutants based on the proposed mitigation actions. Provide line-item costs for each sampling scenario and the goals of each monitoring action. Recommendations will be presented to the City Commission for final guidance on Program selection.

B) **Beach Monitoring:** The City has already identified bacteria as a pollutant of concern at the Swimming Beaches GOC.

The Florida Department of Health (FDOH) currently monitors 4 beaches within the City of Key West: Smathers Beach, Fort Zachary Taylor State Park, Higgs Beach and South Beach. The monitoring is completed every other week, and tests for generic Enterococcus species, which does not differentiate whether the source of the bacteria from human sources, or other animal species. Certain beaches at certain times of year receive "Poor" ratings more often than other beaches.

In the short term, the City wishes to increase the frequency of testing, the number of testing sites and educate the public on current conditions and recent trends. In the long term, a more detailed beach water quality monitoring program that determines the source of the pollutant and creates specific strategies to mitigate pollutants at the source is contemplated.

Task 4: Increase Availability of Recent Beach Reports

The City wishes to double the current FDOH beach water quality sampling at all 4 beaches from every testing other week to testing once per week. The sampling must mirror exactly the current sampling regimen followed by FDOH to ensure that all sampling conducted is comparable. (Consultant should collaborate with FDOH)

<u>Task 5:</u> <u>Increase Community Knowledge of Data/ Beach Report Implications</u>
Summarize trends in data geographically and seasonally to guide beach use.

Advise on educational messages regarding these trends and FDOH beach Water Quality Categories to help swimmers understand their swimming risks.

Task 6: Assist with Design of New Beach Water Quality Monitoring Plan

Collaborate with the City's Water Quality Improvement Plan members and other relevant technical experts to design a more detailed water quality monitoring plan.
