Martin Luther King Jr. Community Pool  
300 Catherine Street  
Key West, Fl 33040

Dear Key West Commissioners,

Infant Swimming Resource (ISR) has worked to keep children safe in and around the water since 1966. As Certified ISR Master Instructors with over 30 years of combined experience, we are looking forward to bringing the ISR program to more families in the Key West community. In July 2016, with the use of the Martin Luther King Jr. Community Pool, we were able to teach over 25 infants and young children the skills needed to swim and rescue themselves from an aquatic accident. They can now safely enjoy the beautiful city of Key West. We would like to reach even more families in your community this year. The MLK pool is an amazing facility and perfect for our one on one lessons.

I took the liberty of including the enclosed materials which will help provide a better understanding of our program, the pediatric drowning epidemic, and how facilities such as yours will help make a difference in the lives of children in your area.

ISR integrates swimming skills that are developmentally appropriate for young children, teaching them to potentially save their own lives, while building the confidence that can lead to a lifetime of fun in and around the water. The ISR lesson experience is a comprehensive six-week program where each lesson is customized for the child as they are safely guided through the learning process. ISR has taught over 270,000 students, delivered over 7 million safe and effective lessons, and has documented 803 instances where ISR students have used their ISR Self-Rescue® skills to save themselves.

Sincerely,

Michelle Nutter and  
Dawn Tapscott
