Subject: Commission meeting

We visit Key West on occasion and love it there. I keep up with current news and events and I just read where the commission will discuss littering. I view webcams in Key West often, and I wish the commission would view footage in front of Sloppy Joes. It's incredible how many people step outside, light up then discard their butts in the gutter. I would say enforcement and a huge fine would be in order. That behavior is totally disrespectful of Key West. Thank you!!!
