

Staff Report for Item 4

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins, MHP
HARC Assistant Planner

Meeting Date: December 15, 2015

Applicant: Gary Burchfield/Artibus Design

Application Number: H15-01-1667

Address: #216 Eneas Lane

Description of Work:

Demolition of front porch elements and partial demolition of side wall. Second reading.

Site Facts:

The house at 216 Eneas Lane is listed as a contributing resource and was constructed c. 1943 according to our survey. The house appears on the 1912 Sanborn maps, so it is quite earlier than 1943. The house always appeared to have a bump-out on its north elevation, before the house was greatly expanded sometime between 1948 and 1962.

Ordinance Cited in Review:

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Staff Analysis

This is the second reading for a Certificate of Appropriateness that proposes to partially demolish historic porch elements and a historic side wall on the rear part of the north elevation. While historic, the wall and porch are not original to the house that was constructed before 1912. Also, the house did not have a rectangular footprint originally; the house had a bump-out on its north elevation until the house was expanded sometime between 1948 and 1962. Staff feels that these elements do not meet the following criteria stated in Sec.102-218(a):

- (1) The porch and the wall do not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The porch and the wall are not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The porch and the wall have no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and are not associated with the life of a person significant in the past;
- (4) The porch and the wall to be demolished are not the site of a historic event with a significant effect upon society;
- (5) The porch and the wall do not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The porch and the wall do not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The porch and the wall are not related to a square, park, or other distinctive area.
- (8) The porch and the wall do not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and do not exemplify the best remaining architectural type in a neighborhood; and
- (9) The porch and the wall have not yielded, and are not likely to yield, information important in history.

As this is the second reading for demolition, this will be the final review for this project.
