

U.S. Bicycle Route System

The U.S. Bicycle Route System (USBRS) is a developing national network of bicycle routes connecting urban and rural communities via signed roads and trails. Created with public input, U.S. Bicycle Routes direct bicyclists to a preferred route through a city, county, or state - creating opportunities for people everywhere to bicycle for travel, transportation, and recreation.

Over **14,000 miles** are currently established in 29 states and Washington DC – and many routes are signed.

- [Stay up-to-date by subscribing to the quarterly USBRS eNews](#)

Since 2005, Adventure Cycling has been proud to shepherd the growth of the USBRS. We provide free technical assistance, coordination, and resources to assist stakeholder groups in their designation efforts.

Together, we're building the largest public bike route network in the world!
