Re: Alison Johnson

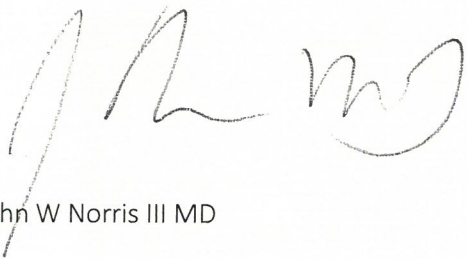

To whom it may concern.

I am writing this letter for my patient Alison Johnson at her request and for her use.

I support her request for a building variance on her home for a screen enclosure over an outdoor pool and recreation area. She lives near the salt ponds and is very allergic to mosquito and no see um bites. Her past physician had been giving her steroids but her bone density is extremely low now. Steroid treatment is associated with driving this lower, risking osteoporotic fractures. She attempted to buy a mosquito control system with very poor results based on her welting.

Please consider her request and needs on medical grounds.

Sincerely,

A handwritten signature in black ink, appearing to read "JWN III MD". The signature is fluid and cursive, with a large initial "J" and "W" and a distinct "III" and "MD" at the end.
