Building Permit Allocation System 2015 Annual Report

INTRODUCTION:

This annual report is written in accordance with Section 108-995 of the Building Permit Allocation System Ordinance (BPAS) (Ordinance 13-19). This section requires the City Planner charged with implementation and interpretation of the Land Development Regulations provide an annual report to the Planning Board and the State Land Planning Agency identifying any remaining or unused allocations, and the number of permits by building type by September 1 or each year as stipulated in the 2012 Hurricane Evacuation Clearance Time Memorandum of Understanding.

ANALYSIS RESULTS:

The City's Building Permit Allocation System (BPAS), is a growth management mechanism developed and implemented in 1993 to ensure adequate evacuation time for residents and visitors in the event of a hurricane possibly affecting the City. The BPAS is also commonly referred to as the Rate of Growth Ordinance, or "ROGO", as the intent of the ordinance is to limit the amount and rate of new residential units approved in the City.

Building Permit Allocation System Ordinance 13-19

Ordinance 13-19 updated the existing Building Permit Allocation System regulations in response to the newly adopted Comprehensive Plan policies and the 2012 Hurricane Evacuation Model Memorandum of Understanding. The amendments established an application process for the allocation of 91 new residential units to be received from the State Department of Economic Opportunity (DEO) annually for ten years as well as necessary changes that allow for clarification, simplification and ease of use for the residential development regulations process.

- 1. Lawful Unit Determination Process (LUD's)** – Under the Ordinance 13-19, the date a homeowner must prove his/her unrecognized residential unit was in existence has changed from April 1, 1990 to April 1, 2010, which is based on the most recent published US Census population data. The intent of the Building Permit Allocation System (BPAS), pursuant to City Code Section 108-987, is to implement the City's Comprehensive Plan by limiting annual permanent (non-transient) and transient residential development. All new permanent and transient residential units within the City are subject to the BPAS, except as expressly exempted in City Code Section 108-991. However, nothing in City

Code Chapter 108, Article X (BPAS), shall relieve the property owner from complying with other applicable sections of the City LDRs for development on the property.

As a result of the unit recognition date change, the Planning Department has received over 60 applications to legitimize existing unrecognized residential units throughout the city. Staff's role in the process is to thoroughly research prior approvals, permits, and past and current zoning designations for each application during the determination process. The applicant will be responsible for paying back fees for utility and solid waste service as well as impact fees if any additional units are approved as being exempt from BPAS.

2. **Beneficial Use Criteria** – Regulations codify Comprehensive Plan Policy 1-1.16.1 which required that the remaining residential BPAS units (from the original 1993 allocation) be reserved for Beneficial Use purposes only. The City has reserved enough Beneficial Use allocations to cover any potential takings claims, leaving the new unit allocations available for new development. Under the current ordinance, any existing or recognized residential unit captured by the City from the owner through the waiver and release of building permit allocation process due to the voluntary reduction of onsite residential density and/or change in residential use shall be reserved for beneficial use allocations only.

- 3. Application Process** - Using the framework adopted in the 2013 Comprehensive Plan, staff created an application process that ensures that the limited number of residential unit allocations is distributed in a fair and equitable manner over time and that any future residential development contributes to the sustainable future of the City of Key West.

Allocations by Residential Unit Type – Based on requirements in the Comprehensive Plan the Ordinance requires that unit types be allocated as follows:

Table 3 Allocations by Residential Unit Type				
Application/ Allocation Year	Affordable Housing Units (AH)*	Market Rate Units	Transient Rental Units	Total Units
2013/2014	48 Units dedicated for Peary Court; 7 AH units available for allocation	36	0	91

Over next 10 years	480	360	70	910

- 4. Application Review and Ranking** – Every year the Building Permit Allocation application period will open to the public in July and will close in September. Applications will be reviewed and ranked by City staff and the Final Determination of Award will be made by the Planning Board by March of the award year. Based on the level of proposed development, development plan approvals will be reviewed by the relevant Boards and Commissions no later than June of the award year. An application approval and allocation schedule will be published in June of each year with the specific deadlines and dates anticipated for final allocation approvals. BPAS Year 1 and 2 have been allocated as follows:

CONCLUSION:

The Planning Department estimates that a total of 126.55 ESFU remain unallocated and will be reserved as a contingency for potential beneficial use claims that were unanticipated by the City. It is estimated that there are approximately 86 lots of record **potentially** eligible for Beneficial Use consideration (based on on-going research performed by the Planning Department). While the demand for affordable housing may fluctuate, the recorded lots of record potentially eligible for beneficial use are very likely to remain, at minimum, the identified number (unless the Planning Department is able to determine some other build back right that may be established on the property).

Year 1 and 2 of BPAS have allocated a total of 55 market rate units, 75.46 affordable units and 0 transient units. Year 3 application submission deadline is September 30, 2015.

RECOMMENDATION:

The Planning Board should direct Planning Department staff and the Licensing Official to pursue all avenues available to identify additional ESFU units through unit donation, surrender and/or recovered. The purpose of this directive would be to increase the beneficial use reservation thus allowing further transfer of ESFU units from the beneficial use reservation towards potential beneficial use claims that may be unaccounted for.

It is important to note that the information presented in this report is not static; as units are recovered to the City, allocated, or as build back entitlements are identified, these numbers can

fluctuate. The information in this document is a representation of the information available at the time of report preparation.
