Subject: tue meeting

Dear Mayor and Commissioners:

I ask you all to vote NO resolution 2 regarding banning smoking.

Yes I am a smoker and last I checked it's still legal.

We are a strong tourist destination. European travel is also a large part of this and they are smokers.

Bars a strong tax base industry in this city and most are smokers.

With tourism already down leave this alone.

Key West is becoming so "cookie cut"

We do not have the revenue to have the enforcement on real legal issues, who is gonna do this one?

Stop wasting our money with your time spent on things like this . You all have more important issues.

Thank you
