

Historic Architectural Review Commission Staff Report for Item 4

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Kathleen McDonald, MHP
Historic Preservation Planner II

Meeting Date: May 24, 2022 – 2nd Reading
April 26, 2022 – Approved 1st Reading

Applicant: Pope-Scarborough Architects

Address: #322-324 Truman Avenue

Description of Work:

Demolition of non-contributing building at 322 Truman Avenue including garage and site elements – 1st reading.

Site Facts:

The site under review contains 3 parcels: 322, 324, and 324½ Truman Avenue, which are under the same ownership. The two-story concrete block structure at 322 Truman Avenue is listed on the survey as non-contributing, but it is historic, as it was built circa 1955. The one-story concrete block garage structure between 322 and 324 Truman was also built circa 1955, and would be considered as historic, but non-contributing. The two-story structure at 324 Truman Avenue is listed on the survey as historic and contributing, with a year built circa 1920. The lot at 324½ Truman is vacant.

Ordinances Cited on Review:

- Section 102-217 (4), demolition for historic or contributing structures of the Land Development Regulations.
- Section 102-218, Criteria for demolitions.

Staff Analysis:

The Certificate of Appropriateness under review proposes the demolition of a historic, but non-contributing, two-story principal structure at 322 Truman Avenue. Demolition of a historic, but non-contributing, one-story garage structure is also part of the proposal.

Although the structures proposed for demolition are non-contributing, they are historic, so it is staff's opinion that the request for the demolition shall be based on the demolition criteria of Chapter 102 Section 218(a) of the LDR's. The criteria state the following;

a) *The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:*

- (1) *If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

The historic, non-contributing structures proposed for demolition do not meet any of the criteria of section 102-125(1) through (9);

The following is the criteria of section 102-125:

- (1) *Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff finds that the structures that are proposed for demolition embody no distinctive characteristics of aesthetic or historic significance. They were built in the mid-century, but do not exemplify the mid-century architectural style.

- (2) *Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

Staff has not found that the structures proposed for demolition are associated with any significant events that have contributed to local, state, or national history.

- (3) *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

Staff finds that the structures have no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation. Staff has not found this site to be associated with the life of a person significant in the past.

- (4) *Is not the site of a historic event with a significant effect upon society;*

Staff has not found this site to be associated with any historic events that have had a significant effect upon society.

- (5) *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The structures proposed for demolition are not an example of cultural, political, economic, social, or historic heritage of the city.

- (6) *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The structures proposed for demolition were built in the mid-century, but do not exemplify the mid-century architectural style.

- (7) *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

The structures proposed for demolition are not part of a square, park or other distinctive area.

- (8) *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The structures proposed for demolition do not have unique locations or singular physical characteristics, and they do not exemplify the best architectural type in the neighborhood.

- (9) *Has not yielded, and is not likely to yield, information important in history.*

The structures are not likely to yield important historical information.

It is staff's opinion that the Commission can review the request for demolition. If approved, this will be the second of two required readings for demolition, due to the historic nature of the structures at 322 Truman Avenue.

DETAILED PROJECT DESCRIPTION OF DEMOLITION
Removal of noncontributing two story structure located at 322 Truman and removal of noncontributing garage and utility shed located on rear of property. Removal of noncontributing stairs,ramp and concrete drive as shown on demolition plan.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:
Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):
(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
This is a noncontributing structure.
(2) Or explain how the building or structure meets the criteria below:
(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.
This is a noncontributing structure.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
This is a noncontributing structure.
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
This is a noncontributing structure.
(d) Is not the site of a historic event with significant effect upon society.
This is a noncontributing structure.
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
This is a noncontributing structure.
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
This is a noncontributing structure.
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
This is a noncontributing structure.
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.
This is a noncontributing structure.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,
This is a noncontributing structure.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:
The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):
(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
This is a noncontributing structure.
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
This is a noncontributing structure.
(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
This is a noncontributing structure.
(4) Removing buildings or structures that would otherwise qualify as contributing.
This is a noncontributing structure.

SURVEY

NOTE:

- All clearances and/or encroachments shown hereon are of the apparent physical use, fence legal ownership not determined.
- The issue of this survey is only for the exclusive and specific use of those persons, parties or institutions in the certification.
- Code restrictions and title search not reflected in this survey.
- Underground utilities, improvements, footings and encroachments, if any not located.
- The flood information shown hereon does not imply that the subject property will or will not be free from flooding or damage and does not create liability on the part of the firm or employee thereof, for any damage that occurs from reliance on said information.
- Lands depicted hereon were surveyed per legal description provided by client and no claims as to ownership or matters of title are made or implied.
- All roads shown hereon are public unless otherwise noted.
- No identification cap found on property corners unless otherwise noted.
- Distance along boundary are record and measured unless otherwise noted.
- The graphic portions of this document are intended to be displayed at the graphic/home scales as depicted. Said scale may be altered in reproductions and as such, should be considered when obtaining scaled data.
- Accuracy: The expected use of land as classified in the minimum technical standards (5J17-FAC), is "Suburban". The minimum relative distance accuracy for the type of boundary survey is 1 foot in 7,500 feet. The accuracy obtained by measurement and calculation of a closed geometric figure was found to exceed this requirement.
- Contact the appropriate authorities prior to any design work or excavation on the herein described parcel for building, zoning information and utilities location.
