

Historic Architectural Review Commission Staff Report for Item 4

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: November 23, 2021

Applicant: Artibus Design, Engineers

Application Number: H2021-0050

Address: 317 Whitehead Street

Description of Work:

Demolition of CMU structure. Demolition of connection to historic one-story wood frame structure. Second Reading.

Site Facts:

The site under review consists of two historic buildings. The northernmost structure, originally known as 311 Whitehead Street, is a contributing resource build circa 1910 and it is a one-story frame structure used as an office in the past years. The building to the south is a CMU one-story structure with a two-story addition at its rear. The building was built circa 1960 and the rear addition is from 1975. The structure was built for offices until the previous owners sold it this year. Currently both buildings are attached.

A BPAS approval will be required for conversion of office space into residence. On October 27, 2021 the Commission approved submitted design plans for renovations of the historic frame vernacular house, for a new two-story frame house and the first reading for demolition of a one-story cmu structure.

Ordinance Cited on Review:

- Section 102-217 (3), demolition for contributing and historic structures

of the Land Development Regulations for the cmu building and wood elements.

Staff Analysis:

The Certificate of Appropriateness proposes the demolition of a cmu structure, build circa 1960, with an addition dated 1975.

It is staff's opinion that the request for this demolition should be reviewed based by the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria state the following.

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that the existing cmu building shows signs of deterioration but not to the extent of irrevocable compromised by extreme deterioration. The building is historic due to its more than 50 years of construction, but it does not belong to the period of significance of the historic district which is 1949.

The following is the criteria of section 102-125:

- 1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the building does not possess distinctive characteristics of the period it was built. The front elevation was completely altered with a more traditional form and textures; therefore, the building has lost its integrity on its principal façade and it is not a distinguishable example of its time.

- 2 Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

Staff understands that no significant events have ever occurred in the site relevant to local, state, or national history.

- 3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

The building under review is not a significant or important part of the development, heritage, or cultural record of the city.

- 4 *Is not the site of a historic event with a significant effect upon society;*

The site is not associated to any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

This is not the case.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The building in question cannot be considered a unique example of a distinctive architectural style as its main character defining features have been altered and lost.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The building in question does not exemplify a remaining architectural type in its neighborhood and does not possess any significant familiar visual features.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The building in question does not yield important information in history.

In conclusion, it is staff's opinion that the request for demolition of the cmu building and connector to the historic wood frame house can be considered by the Commission as it meets the criteria for demolition stated under the Land Development Regulations. If approved, this will be the last of two required readings.

By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit approval **PRIOR to proceeding with the work outlined above** and that a final inspection is required under this application. I also understand that **any changes to an approved Certificate of Appropriateness must be submitted for review.***

PROPERTY OWNER'S SIGNATURE _____ **DATE AND PRINT NAME** _____

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Demolish existing two story CMU structure with wood frame front porch enclosure and joining link between the historic 1 story wood frame structure and the CMU building. Manually demolish concrete drive to protect root system of the existing tree.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

The existing concrete structure is experiencing severe concrete spalling damage in many areas and shows signs of spalling propagation in others. It appears that the concrete used has high chlorine content (salt in the aggregate) and spalling damage will continue to propagate. Permit records show concrete repairs building permit back in 1995 of a small value which clearly wasn't effective.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The building has strictly utilitarian office/commercial building look for a structure constructed in 1963. With later alterations and enclosure of the front porch to mimic the adjacent wood frame structure. Which in reality destroyed and altered any estetical value of the 1963 modern style front entry into the effoice. Later 2nd story addition further deteriorated the character of the building and is currently a nuisance to the otherwise beautiful neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
No known events that made a significant contribution to local, state or national history have occurred in this building.
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
No known historically significant persons associated with this structure.
(d) Is not the site of a historic event with significant effect upon society.
The building wasn't a site of any historical event important to Key West society.
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
Does not exemplify any cultural, political, economic, social or historic heritage of Key West.
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
No distinctive character or architectural style can be assigned to what is left of the structure.
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
N/A
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city and does not exemplify the best remaining architectural type in a neighborhood.
N/A

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

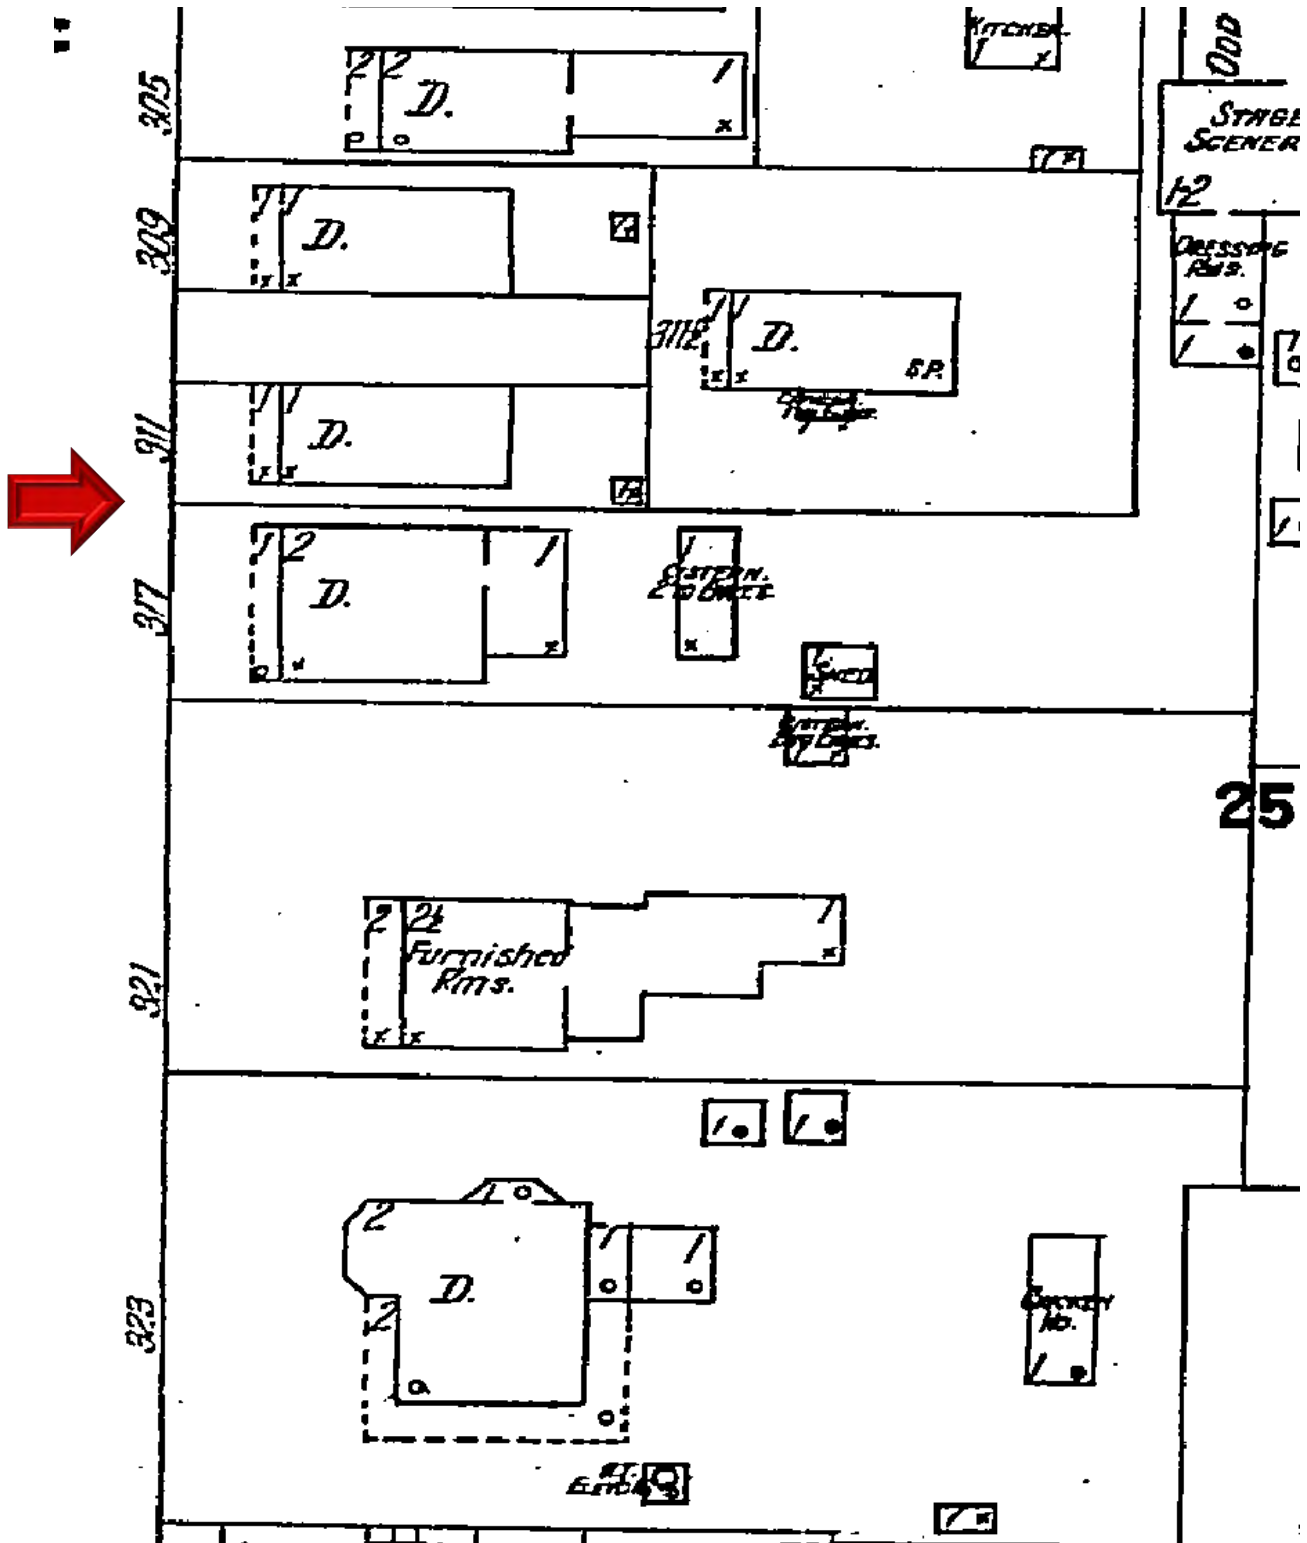

(i) Has not yielded, and is not likely to yield, information important in history,
Not likely to yield any important historical information.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
The building is not important to the overall historic character of a district. If anything it is a nuisance and a distraction to the neighborhood it is located in.
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
Proposed demolition actually restores historical accuracy by removing a link between one story wood frame historical structure and to be replaced with properly proportioned wood frame structure following the style of the district.
(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
The CMU structure, the joining link, the 2nd story rear addition nor later wood frame enclosure in the front are not important in defining the historic character of the site and are only obstructing the existing wood frame 1 story part of the compound.
(4) Removing buildings or structures that would otherwise qualify as contributing.

LEGAL DESCRIPTION:
On the Island of Key West, known on William A. Whitehead's map, delineated in February, A.D. 1829, as Part of Lot Three (3), in Square Twenty-Five (25), described by metes and bounds as follows: Beginning at a point on Whitehead Street, One Hundred Eighty-Five (185) feet from the corner of Caroline and Whitehead Streets; thence at right angles to Whitehead Street in a Northeasterly direction One Hundred (100) feet; thence at right angles in a Northwesterly direction Sixteen and One-Fourth (16.25) feet; thence at right angles in a Southwesterly direction Ten (10) feet; thence at right angles in a Northwesterly direction Sixteen and One-Fourth (16.25) feet; thence at right angles in a Southwesterly direction Ninety (90) feet to a point on Whitehead Street; thence at right angles in a Southeasterly direction along Whitehead Street Thirty-two and One-Half (32.50) feet to the Point of Beginning.

AND

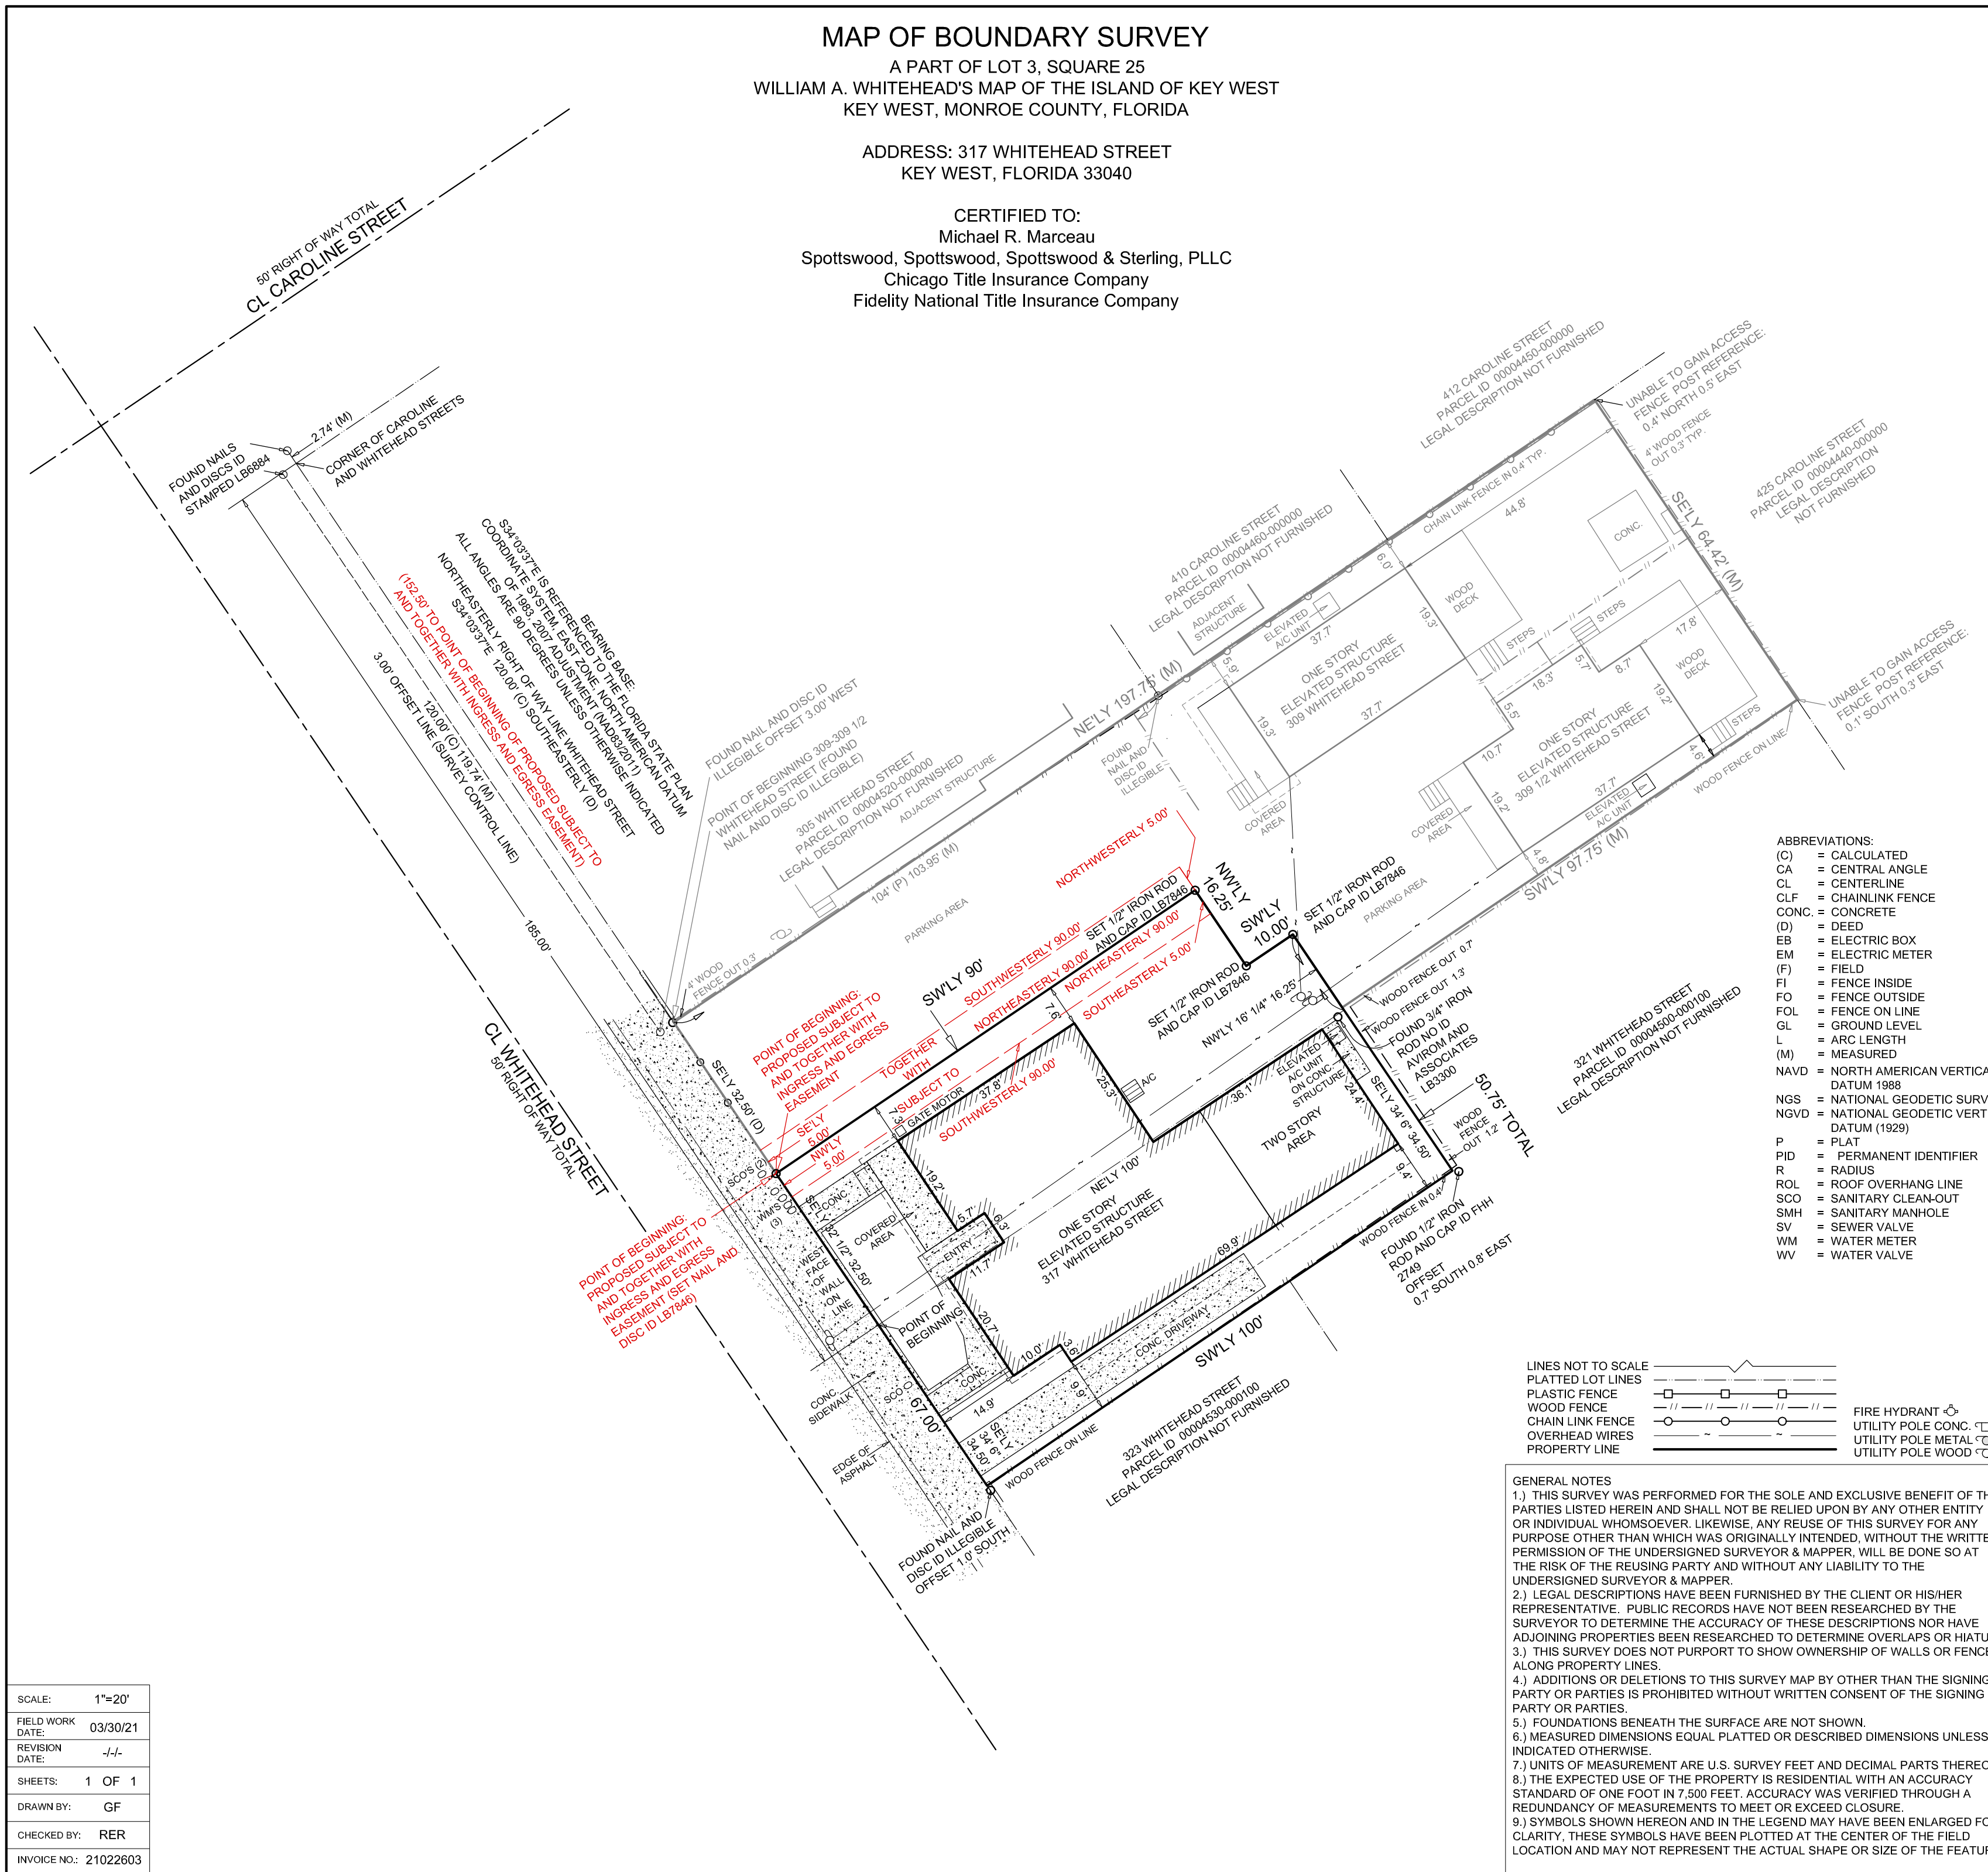

On the Island of Key West, known on William A. Whitehead's map, delineated in February, A.D. 1829, as Part of Lot Three (3), in Square Twenty-Five (25), described by metes and bounds as follows: Commencing at a point on the Northeasterly side of Whitehead Street, distant One Hundred Eighty-Five (185) feet from the corner of the intersection of Whitehead Street and Caroline Street, and running thence at right angles to Whitehead Street in a Northeasterly direction One Hundred (100) feet; thence at right angles in a Southeasterly direction Thirty-Four (34) feet, Six (6) inches to the Northwesterly boundary of the land now owned by Virginia Lee Mock as described in deed recorded in Deed Book G-24, Pages 44 and 45, Monroe County, Florida Public Records; thence meandering the said Northwesterly boundary of the land of the said Virginia Lee Mock in a Southwesterly direction One Hundred (100) feet to Whitehead Street; thence in a Northwesterly direction along the Northeasterly line of Whitehead Street Thirty-Four (34) feet, Six (6) inches to the point or place of beginning.

SUBJECT TO (an easement for ingress and egress newly authored by the undersigned)

On the Island of Key West, Monroe County, Florida and being a part of Lot 3, Square 25, according to William A. Whitehead's Map of said Island, delineated in February, 1829 and being more particularly described as follows: COMMENCE at the intersection of the Northeasterly Right-of-Way Line of Whitehead Street and the Southeasterly Right of Way Line of Caroline Street; thence in a Southeasterly direction along the said Northeasterly Right-of-Way line of Whitehead Street for 152.50 feet to the POINT OF BEGINNING; thence Northeasterly 90.00 feet; thence Southeasterly 5.00 feet; thence Southwesterly 90.00 feet; thence Northwesterly 5.00 feet to the Point of Beginning.

TOGETHER WITH (an easement for ingress and egress newly authored by the undersigned)

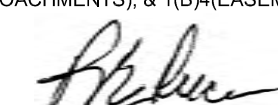

On the Island of Key West, Monroe County, Florida and being a part of Lot 3, Square 25, according to William A. Whitehead's Map of said Island, delineated in February, 1829 and being more particularly described as follows: COMMENCE at the intersection of the Northeasterly Right-of-Way Line of Whitehead Street and the Southeasterly Right of Way Line of Caroline Street; thence in a Southeasterly direction along the said Northeasterly Right-of-Way line of Whitehead Street for 152.50 feet to the POINT OF BEGINNING; thence Northeasterly 90.00 feet; thence Northwesterly 5.00 feet; thence Southwesterly 90.00 feet; thence Southeasterly 5.00 feet to the Point of Beginning.
