DESCRIPTION OF SERVICE WORK	Parts	Labor
The following proposal is for recommended repairs:	\$14,986	\$9,672
Travel to jobsite. Gain access to unit. Perform lockout / tag out procedure. Remove all components necessary to remove junction box. Install A-Frame and remove existing alternator. Install New Factory Alternator Assembly. Remove A-Frame and reinstall all components removed. Reconnect batteries and battery charger. Start unit and run to verify operation. Shut unit down and leave in Auto. Clean area and return to Shop for proper disposal of waste material. NOTE: Current lead time for New Alternator Assy. is 12 - 15 weeks. Repair labor quoted is for Two Techs @ 3 days each (Normal Business Hours). Hotel, Meals and Travel is also included. NOTE: Unit will be offline for duration of the repair. Any additional components found to be defective will be added to this estimate.		

This estimate is made subject to buyers' acceptance within (10) business days from this date. All prices are subject to change without notice, and those in effect on the date of shipment shall prevail. Customer will be contacted should the estimate exceed 15%. All quotes are based on work being performed on the ground level or within accessible distance from the service vehicle, and during normal weekday business hours unless stated otherwise in quote. Estimate does not include non-reusable castings or unacceptable cores. Notification will be given of any additional repairs needed and will only be performed upon approval by customer.
