City of Key West Planning Department
1300 White Street
Key West, Florida 33040

(c) Commercial land use: addition of outdoor commercial activity consisting of restaurant seating, outdoor commercial storage, active recreation, outdoor sales area or similar activities of 1,000 to 4,999 square feet.

2. Major development plan required for:

(a) Permanent residential and transient residential development: addition or reconstruction of eleven or more units.

(b) Nonresidential floor area: addition or reconstruction of equal to or greater than 5,000 square feet of gross floor area.

(c) Commercial land use: addition of outdoor commercial activity consisting of restaurant seating, outdoor commercial storage, active recreation, outdoor sales area or similar activities equal to or greater than 5,000 square feet.

(d) Any development located within tidal waters extending 600 feet seaward of the corporate city limits.

However, Section 108-91(D) provides the following:

D. Administrative determination:

1. For development not fitting within the categories set forth herein, the city planner shall determine the appropriate review process after considering similarity, complexity of the development, impacts on the demand for city services, and the potential for adverse impact(s) upon neighboring areas.

2. In applying the criteria set forth herein, all phases of the total project or development shall be considered. In determining the appropriate level of review, the city planner may aggregate previous development completed within two years of a new application.

The upland portion of the Property consists of 38,682 square feet¹. Conservatively, 13,674² square feet of the North end of the Property are used for servicing watercraft. The proposed rack systems contain footprints of 15' x 95' and 15' x 75', respectively. Accounting for each level, the two proposed racks contain a combined 6,880 square feet of storage use.

If we take the 13,674 square feet of area dedicated to servicing of watercraft and subtract the footprint of each proposed rack, the remaining square footage is 11,064 square feet. This 11,064 feet is area that was previously dedicated to servicing of watercraft that will no longer have any use associated with it after the installation of the racks. Although racks are being added, the net difference is actually -4,184 square feet.

¹ According to the property record card provided by the Monroe County Property Appraiser

² See enclosed aerial with measurement tool and square footage

When looking at section 108-91(B)(1 – 2) the thresholds are straightforward. However, they seem to contemplate development with no offsetting decrease in density or intensity. To state it another way, it feels clear that Section 108-91(B) applies to projects wherein there is addition or reconstruction, without any reduction of existing units/FAR/uses. The lack of language as it relates to development that contemplates addition or reconstruction without a corresponding decrease in density or intensity seems to be the type of development contemplated in 108-91(D). By definition, this project doesn't meet the criteria set forth in Sections 108-91(B)(1 – 2) because it does propose significant reductions in intensity.

The proposed development project for the Property should undergo a level of development plan review. It would be incorrect to state that no development review is required given the net decrease in square footage. However, we do think it would be fair and reasonable to determine that minor development plan review is the correct level of review given the language in Section 108-91 and the proposed development. In the event you agree, the Applicant has enclosed a check for the minor development application fee to go along with the previously submitted conditional use application fee.

If you should have any questions, comments, or concerns, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Richard J. McChesney", is written over the typed name.

Re: Amended Application for Minor Development Plan and Conditional Use
701 Palm Avenue, Key West, FL 33040; RE# 00001761-000000

Ms. Halloran:

Please allow this letter and supporting documentation to serve as SBY Key West LLC, a Florida limited liability company, (“Applicant”) amended application for a Minor Development Plan and Conditional Use at 701 Palm Avenue, Key West, Florida 33040 (the “Property”). The operation of a marina is a Conditional Use in the Public and Semipublic Services (“PS”) zoning district, per code Sec. 122-1018(7) of the Land Development Regulations. The business provides essential services to important infrastructure support groups such as the Florida Keys Marina Sanctuary, Florida Department of Fish and Wildlife, and Key West Fire Department. The Applicant also provides maintenance and repairs for Key West tourism-based businesses enabling ferrying of hotel guests, water sports activities, fishing and diving, and boat rentals. The Applicant proposes to reorganize the site with designated parking and vertical dry rack storage to replace the current configuration of upland vessel storage. The Applicant is no longer planning to add additional floating docks as there are threshold issues that need to be addressed before additional docks could even be considered.

Although the Property has functioned as a code-defined marina with wet slips and dry storage, vessel launching, an on-site fuel tank and retail supplies, this use has predated the current Code and no official marina designation has ever been granted. The Applicant seeks to unequivocally recognize the longstanding use through this application process.

Conditional Use Application

Existing Conditions:

- A. **Survey:** Please find a copy of the survey for the subject Property included in this application.
- B. **Existing size, type and location of trees, hedges and other features:** The site contains an approximately 50-foot-long strip of trees and mangroves on the Northern edge of the property. It is a mix of mangrove and buttonwoods that range from 5 feet tall to fifteen feet tall. This area will not be impacted by the proposed use. An existing tree plan is provided within the attached documents.
- C. **Existing stormwater retention areas and drainage flows:** Please see attached site plan. The Applicant will coordinate with the City regarding any additional stormwater requirements.
- D. **Adjacent land uses, buildings and driveways:** The Property is located at Garrison Bight, along Palm Avenue, one of the main corridors into the city's downtown historic area. The Property is adjacent to Trumbo Point Naval Air Station. The Garrison Bight area houses both private and public marinas, the Key West Sailing Club, the Key West Yacht Club, restaurants, a liveaboard community, charter boats and some residential homes on Hilton Haven and the US Naval Base.

Proposed Development:

- A. **Site Plan:** Please find a copy of the site plans for the subject Property included in this application.
- B. **Building Elevations:** See attached plans showing conceptual boat storage racks and elevations for the proposed new building.
- C. **Drainage Plan:** Please see attached plans with site calculations.
- D. **Landscape Plan:** Please see attached landscape plan.

Solutions Statement: The Applicant proposes to convert existing boat repair/service area into vertical dry racks for boat storage. Historically, the site has functioned as a boatyard, focusing on the repair and rebuilding of vessels dating back at least as far as 1970. The proposed conversion of some of the boatyard use to dry rack storage on the Northerly side of the Property results in an approximate net decrease of overall intensity by 4,184 square feet.

In addition to ethe above, this proposal and site plans provide:

- Removal of the existing CBS structure that is not located within the setbacks and reconstruct a new setback-compliant, hurricane rated building.
- Addition of significant landscaping to the Property, focusing on the Palm Avenue corridor to enhance and beautify the Garrison Bight Causeway.
- Improved handicap accessibility by providing for ADA parking, ramps, and an ADA bathroom.
- Code compliant parking spaces
- 8 foot tall aluminum fencing around the Property
- Stormwater management systems compliant with current regulations

Conditional Use Criteria Section 122-62:

Characteristics of use described

1. **Scale and intensity of the proposed conditional use as measured by the following:**

- a. **Floor area ratio:** The floor area ratio will not change as part of this proposal.
- b. **Traffic generation:** Offsetting uses should result in similar traffic.
- c. **Square feet of enclosed building for each specific use:** The existing building is 656 sq. feet. The new structure is approximately 960 sq. feet.
- d. **Proposed employment:** Existing employees are in place.
- e. **Proposed number and type of service vehicles:** No service vehicles proposed.
- f. **Off-street parking needs:** The property currently has no off-street parking. See below table for existing and proposed parking demand.

	USES	CODE REQUIREMENTS	TOTAL DEMAND	
EXISTING	12 wet slips	1 sp/4 pleasure boats	3 spaces	78.97 or 79 spaces
	Boat Repair – Commercial Service	1 sp/300 sq. ft (22,292 sq ft)	74.31 spaces	
	Commercial Retail 500 sq ft	1 sp/300 sq ft	1.66 spaces	
PROPOSED	12 wet slips (12 pleasure boats)	1 sp/4 slips	3 spaces	43.91 or 44 spaces
	Boat Repair – Commercial Service	1 sp/300 sq. ft (8,627 sq ft)	28.75 spaces	
	Commercial Retail 500 sq ft	1 sp/300 sq ft	1.66 spaces	
	Dry Racks	42 Dry Rack Spots 1 sp/4 pleasure boats	10.5 spaces	
DIFFERENCE				Decrease of 35 spaces

2. **On or off-site improvement needs generated by the proposed conditional use and not identified on the list in subsection (b)(1) of this section including the following:**

- a. **Utilities:** The property has adequate utilities to support the proposed use.
- b. **Public facilities, especially any improvements required to ensure compliance with concurrency management as provided in chapter 94:** Upgraded stormwater management will be provided. See proposed stormwater management plan. Additionally, and possibly most importantly, a fire hydrant will be installed, in coordination with the fire marshal, as part of the development. Currently, the closest fire hydrant is blocks away on Eisenhower Drive and Petronia Street.
- c. **Roadway or signalization improvements, or other similar improvements:** Addition of parking spaces, including ADA, and scooter parking is being added to the site.
- d. **Accessory structures or facilities:** Dry storage boat racks are considered accessory structures and will be installed. New fencing providing security is proposed.
- e. **Other unique facilities/structures proposed as part of site improvement:** The proposal, by nature, includes the reduction of a substantial amount of square footage used for boatyard purposes. The overall reduction of intensity for the proposed use equates to a decrease of approximately 4,184 sq. ft. of boatyard space.

3. **On-site amenities proposed to enhance site and planned improvements. Amenities including mitigative techniques such as:**

- a. **Open space:** Overall open space is reduced but remains above the requirement per the LDRs. There is no formal landscaping on the site, therefore the applicant will be adding additional green space to enhance the property. Please see attached landscape plan.
- b. **Setbacks from adjacent properties:** The existing building is legally non-conforming as it relates to setbacks. It is proposed to be demolished and a new structure built within the setbacks.
- c. **Screening and buffers:** The Applicant is proposed additional landscaping along the Property.
- d. **Landscaped berms proposed to mitigate against adverse impacts to adjacent sites:** Applicant plans to add landscaping in select areas of the Property.
- e. **Mitigative techniques for abating smoke, odor, noise, and other noxious impacts:** The confirmation of use will not facilitate the need for mitigative measures. The reduction in boatyard activity on the Northerly side of the Property will result in a reduction noise and odors that may currently affect adjacent properties. The addition of landscaping will visually enhance the Palm Avenue corridor.

Criteria for conditional use review and approval

- 1. **Land use compatibility:** The conditional use is compatible with the surrounding area. The site is along a major thoroughfare and zoned Public and Semipublic Services (PS) with an adjacent private and public marina providing personal recreational use and charter services,

restaurants and a multitude of commercial activities. The location of the boatyard at the Bight is ideal for marina operations and would exist along other marina facilities. Spencer's Boatyard is the only boatyard on the Island of Key West and provides vital services for vessel owners.

2. **Sufficient site size, adequate site specifications, and infrastructure to accommodate the proposed use:** The size and shape of the site are more than adequate to accommodate the proposed scale and intensity of the conditional use requested. The Applicant feels that all infrastructure currently exists to support the proposed use. However, an improved stormwater management plan is being proposed and parking will be added. The proposed use will seamlessly fold into the current operations. Additionally, the installation of a fire hydrant is desperately needed and will provide service, not only to the Property, but to surrounding property owners as well.
3. **Proper use of mitigative techniques:** No mitigative techniques appear to be necessary but the Applicant is willing to consider suggestions from the City. The reduction in overall intensity with this proposal should be viewed positively in this regard. The Applicant is currently providing marina related services as part of the boatyard operation without the need for mitigative techniques. Landscaping is being added and life safety measures are being enhanced.
4. **Hazardous Waste:** As part of the services currently provided by the boatyard, all hazardous waste is handled and disposed of appropriately.
5. **Compliance with applicable laws and ordinances:** Applicant will comply with all applicable laws and regulations as a condition of approval.
6. **Additional criteria applicable to specific land uses**
 - a. **Land uses within a conservation area:** This site is adjacent to Conservation – Open Water.
 - b. **Residential development:** Not applicable. This application does not contemplate residential development.
 - c. **Commercial or mixed-use development:** This is a commercial property that provides water-related services to the public.
 - d. **Development within or adjacent to historic district:** Not applicable.
 - e. **Public facilities or institutional development:** Public facilities or institutional development is not being proposed as part of this application.
 - f. **Commercial structures, uses and related activities within tidal waters:** This project proposes no change in the present operations of the Property. A new building is proposed to replace the existing CBS structure on site.
 - g. **Adult entertainment establishments:** Not applicable.

If you should have any questions, comments, or concerns, please do not hesitate to contact me.

Sincerely,

Richard J. McChesney, Esq.

HARC approval # _____

OR: Date of meeting _____

12) Description of Proposed Development and Use. Please be specific, list existing and proposed buildings and uses, number of dwelling units, parking, restaurant seats, vehicles proposed, etc. If there is more than one use, describe in detail the nature of each use (Give concise description here and use a separate sheet if necessary).

An existing maritime business operation is proposing to incorporate marina activities into their daily activities.
Specifically, vertical vessel storage racks will be added to the site

13) Has subject Property received any variance(s)? Yes _____ No X

If Yes: Date of approval _____ Resolution # _____

Attach resolution(s).

14) Are there any easements, deed restrictions or other encumbrances on the subject property?

Yes _____ No _____

If Yes, describe and attach relevant documents.

A. For both *Conditional Uses* and *Development Plans*, provide the information requested from the attached **Conditional Use and Development Plan** sheet.

B. For *Conditional Uses* only, also include the **Conditional Use Criteria** required under Chapter 122, Article III, Sections 122-61 and 122-62 of the Land Development Regulations (see attached copy of criteria).

C. For *Major Development Plans* only, also provide the **Development Plan Submission Materials** required under Chapter 108, Article II, Division 7, Sections 108-226 through 108-248 of the Land Development Regulations (see attached copy of criteria) and any additional information as determined by the Planning Staff.

D. For both *Conditional Uses* and *Development Plans*, one set of plans **MUST** be signed & sealed by an Engineer or Architect.

Please note, development plan and conditional use approvals are quasi-judicial hearings, and it is improper to speak to a Planning Board member or City Commissioner about the project outside of the hearing.

Required Plans and Related Materials for both a Conditional Use and Minor/Major Development Plan

I. Existing Conditions.

- A) Recent Survey of the site by a licensed Surveyor (Survey must be within 10 years from submittal date of this application) showing all dimensions including distances from property lines, and including:
- 1) Size of site;
 - 2) Buildings, structures, and parking;
 - 3) FEMA Flood Zone;
 - 4) Topography;
 - 5) Easements; and
 - 6) Location of Utility Lines (sewer, water, electric, cable) adjacent and extending into the site.
- B) Existing size, type and location of trees, hedges, and other features.
- C) Existing stormwater retention areas and drainage flows.
- D) A sketch showing adjacent land uses, buildings, and driveways.

II. Proposed Development: Plans at 11" X 17" (10,000 Sq. ft. or less); 24" X 36" if site is over 10,000 sq. ft.

- A) Site Plan to scale of with north arrow and dimensions by a licensed architect or engineer.
- 1) Buildings
 - 2) Setbacks
 - 3) Parking:
 - a. Number, location and size of automobile and bicycle spaces
 - b. Handicapped spaces
 - c. Curbs or wheel stops around landscaping
 - d. Type of pavement
 - 4) Driveway dimensions and material
 - 5) Location of Utility Lines (sewer, water, electric, cable) adjacent and extending into the site.
 - 6) Location of garbage and recycling
 - 7) Signs
 - 8) Lighting
 - 8) Project Statistics:
 - a. Zoning
 - b. Size of site
 - c. Number of units (or units and Licenses)
 - d. If non-residential, floor area & proposed floor area ratio
 - e. Consumption area of restaurants & bars
 - f. Open space area and open space ratio
 - g. Impermeable surface area and impermeable surface ratio
 - h. Number of automobile and bicycle spaces required and proposed
- B) Building Elevations
- 1) Drawings of all building from every direction. If the project is in the Historic District, please submit HARC approved site plans.
 - 2) Height of building.
 - 3) Finished floor elevations and bottom of first horizontal structure
 - 4) Height of existing and proposed grades
- C) Drainage Plan: Existing & Proposed retention areas and calculations approved by the City Engineer. See one of the attached commercial and residential use Stormwater Retention Forms.
- D) Landscape Plan: Size, type, location and number of plants to be removed, kept, and installed. The plan must be approved by the City Landscape Coordinator through a letter of approval. If the project is a Major Development Plan a landscape design prepared by a licensed Landscape Architect is required per Section 108-511(b) of the Land Development Regulations.

- III. **Solutions Statement.** Aspects of the design that address community issues including but not limited to water pollution from stormwater runoff, potable water conservation, waste disposal, recycling, energy conservation, affordable housing, and impacts on neighbors such as lighting, noise, traffic and parking.

Development Plan Submission Materials

Sec. 108-226. Scope.

A development plan, for the purposes of this division, shall include but not necessarily be limited to the requirements in this division. With the exception of sections 108-227 through 108-229, the city planner may waive or modify requirements, information and specific performance criteria for development plan review after rendering a finding in writing that such requirements:

- (1) Are not necessary prior to development plan approval in order to protect the public interest or adjacent properties.
- (2) Bear no relationship to the proposed project or its impacts; and
- (3) Are found to be impractical based on the characteristics of the use, including the proposed scale, density/intensity, and anticipated impacts on the environment, public facilities and adjacent land uses.

Sec. 108-227. Title block.

The development plan shall contain the following pertaining to the title block:

- (1) Name of development.
- (2) Name of owner/developer.
- (3) Scale.
- (4) North arrow.
- (5) Preparation and revision date.
- (6) Location/street address of development.

Sec. 108-228. Identification of key persons.

The development plan shall contain the following pertaining to identification of key persons:

- (1) Owner.
- (2) Owner's authorized agent.
- (3) Engineer and architect.
- (4) Surveyor.
- (5) Landscape architect and/or environmental consultant.
- (6) Others involved in the application.
- (7) A verified statement showing each and every individual person having a legal and/or equitable ownership interest in the subject property, except publicly held corporations whose stock is traded on a nationally recognized stock exchange, in which case the names and addresses of the corporation and principal executive officers together with any majority stockholders will be sufficient.

Sec. 108-229. Project description.

Project description should be included on the site plan sheet. The development plan shall contain the following pertaining to the project description:

- (1) Zoning (include any special districts).
- (2) Project site size (acreage and/or square footage).
- (3) Legal description.
- (4) Building size.
- (5) Floor area ratio permitted and proposed.
- (6) Lot coverage permitted and proposed.
- (7) Impervious surface.
- (8) Pervious surface.
- (9) Landscape areas.
- (10) Parking spaces permitted and proposed.
- (11) Delineation of location of existing and proposed structures.
- (12) Existing and proposed development type denoted by land use including density/intensity.
- (13) Setbacks.

Sec. 108-230. Other project information.

A general outline of the proposed development shall include the following criteria where applicable:

- (1) Proposed stages or phases of development or operation and facility utilization.
- (2) Target dates for each phase.
- (3) Expected date of completion.
- (4) Proposed development plan for the site.
- (5) A written description of characteristics of the proposed development (i.e., number and type of residential units; floor area by land use; number of tourist accommodations units; seating or parking capacities; number of hospitalbeds; any proposed outside facilities or areas to be used for storage, display, outside sales, waste disposal or similar use; and any other proposed uses).
- (6) For planned unit developments, indicate design techniques (i.e., clustering, zero lot line, or other techniques) used to reduce public facility costs, reduce disturbance of natural resources, and preserve scenic quality of the site.
- (7) Buildings and sitting specifications which shall be utilized to reduce damage potential and to comply with federal flood insurance regulations.
- (8) Protection against encroachment together with proposed mitigation measures to be employed within environmentally sensitive areas.

Sec. 108-231. Residential developments.

- (a) If the development includes residential units, the following characteristics shall be discussed in the written description:
 - (1) A breakdown of the proposed residential units by number of bedrooms.
 - (2) Tenure (i.e., owner-occupied or rental); and
 - (3) Structure type, such as single-family, duplex, multiple-family, mobile home.
- (b) Refer to division 10 of article V of chapter 122 for information and legal instruments needed to satisfy the city's affordable housing requirements.

Sec. 108-232. Intergovernmental coordination.

The development plan shall contain the following pertaining to intergovernmental coordination:

- (1) Provide proof of coordination with applicable local, regional, state and federal agencies, including but not limited to the following agencies that will be involved in the project:
 - a. South Florida Regional Planning Council (SFRPC).
 - b. City electric system (CES).
 - c. State department of environmental protection (DEP).
 - d. Army Corps of Engineers (ACOE).
 - e. South Florida Water Management District (SFWMD).
 - f. State department of transportation (DOT).
 - g. State department of community affairs (DCA).
 - h. Florida Keys Aqueduct Authority (FKAA).
 - i. State fish and wildlife conservation commission (F&GC).
 - j. The county.
- (2) Provide evidence that any necessary permit, lease or other permission from applicable local, regional, state and federal agencies has been obtained for any activity that will impact wetland communities or submerged land.
- (3) When intergovernmental coordination efforts are incomplete, the applicant shall provide evidence of good faith efforts towards resolving intergovernmental coordination issues.

CONDITIONAL USE CRITERIA

Sec. 122-61. Purpose and intent

The purpose of this article is to ensure that a conditional use shall only be permitted on specific sites where the proposed use may be adequately accommodated without generating adverse impacts on properties and land uses within the immediate vicinity. This article sets forth provisions and criteria for consideration of conditional uses on specific sites. Conditional uses shall be permitted only upon a finding that the proposed use satisfies this article.

Sec. 122-62. Specific criteria for approval.

- (a) Findings. A conditional use shall be permitted upon a finding by the planning board that the proposed use, application and, if applicable, development plan complies with the criteria specified in this section, including specific conditions established by the planning board and or the city commission during review of the respective application in order to ensure compliance with the comprehensive plan and land development regulations. If the proposed conditional use is a major development pursuant to sections 108-165 and 108-166, the city commission shall render the final determination pursuant to section 122-63. A conditional use shall be denied if the city determines that the proposed use does not meet the criteria provided in this section and, further, that the proposed conditional use is adverse to the public's interest. An application for a conditional use shall describe how the specific land use characteristics proposed meet the criteria described in subsection (c) of this section and shall include a description of any measures proposed to mitigate against possible adverse impacts of the proposed conditional use on properties in the immediate vicinity.
- (b) Characteristics of use described. The following characteristics of a proposed conditional use shall be clearly described as part of the conditional use application:
- (1) Scale and intensity of the proposed conditional use as measured by the following:
 - a. Floor area ratio;
 - b. Traffic generation;
 - c. Square feet of enclosed building for each specific use;
 - d. Proposed employment;
 - e. Proposed number and type of service vehicles; and
 - f. Off-street parking needs.
 - (2) On- or off-site improvement needs generated by the proposed conditional use and not identified on the list in subsection (b)(1) of this section including the following:
 - a. Utilities;
 - b. Public facilities, especially any improvements required to ensure compliance with concurrency management as provided in chapter 94;
 - c. Roadway or signalization improvements, or other similar improvements;
 - d. Accessory structures or facilities; and
 - e. Other unique facilities/structures proposed as part of site improvements.
 - (3) On-site amenities proposed to enhance site and planned improvements. Amenities including mitigative techniques such as:
 - a. Open space;
 - b. Setbacks from adjacent properties;
 - c. Screening and buffers;
 - d. Landscaped berms proposed to mitigate against adverse impacts to adjacent sites; and
 - e. Mitigative techniques for abating smoke, odor, noise, and other noxious impacts
- (c) Criteria for conditional use review and approval. Applications for a conditional use shall clearly demonstrate the following:
- (1) Land use compatibility. The applicant shall demonstrate that the conditional use, including its proposed scale and intensity, traffic-generating characteristics, and off-site impacts are compatible and harmonious with adjacent land use and will not adversely impact land use activities in the immediate vicinity.
 - (2) Sufficient site size, adequate site specifications, and infrastructure to accommodate the proposed use. The size and shape of the site, the proposed access and internal circulation, and the urban design enhancements must be adequate to accommodate the proposed scale and intensity of the conditional use requested. The site shall be of sufficient size to accommodate urban design amenities such as screening, buffers, landscaping, open space, off-street parking, efficient internal traffic circulation, infrastructure (i.e., refer to chapter 94 to ensure concurrency management requirements are met) and similar site plan improvements needed to mitigate against potential adverse impacts of the proposed use.

- (3) Proper use of mitigative techniques. The applicant shall demonstrate that the conditional use and site plan have been designed to incorporate mitigative techniques needed to prevent adverse impacts to adjacent land uses. In addition, the design scheme shall appropriately address off-site impacts to ensure that land use activities in the immediate vicinity, including community infrastructure, are not burdened with adverse impacts detrimental to the general public health, safety and welfare.
- (4) Hazardous waste. The proposed use shall not generate hazardous waste or require use of hazardous materials in its operation without use of city-approved mitigative techniques designed to prevent any adverse impact to the general health, safety and welfare. The plan shall provide for appropriate identification of hazardous waste and hazardous material and shall regulate its use, storage and transfer consistent with best management principles and practices. No use which generates hazardous waste or uses hazardous materials shall be located in the city unless the specific location is consistent with the comprehensive plan and land development regulations and does not adversely impact wellfields, aquifer recharge areas, or other conservation resources.
- (5) Compliance with applicable laws and ordinances. A conditional use application shall demonstrate compliance with all applicable federal, state, county, and city laws and ordinances. Where permits are required from governmental agencies other than the city, these permits shall be obtained as a condition of approval. The city may affix other conditions to any approval of a conditional use in order to protect the public health, safety, and welfare.
- (6) Additional criteria applicable to specific land uses. Applicants for conditional use approval shall demonstrate that the proposed conditional use satisfies the following specific criteria designed to ensure against potential adverse impacts which may be associated with the proposed land use:
- a. Land uses within a conservation area. Land uses in conservation areas shall be reviewed with emphasis on compliance with section 108-1 and articles III, IV, V, VII and VIII of chapter 110 pertaining to environmental protection, especially compliance with criteria, including land use compatibility and mitigative measures related to wetland preservation, coastal resource impact analysis and shoreline protection, protection of marine life and fisheries, protection of flora and fauna, and floodplain protection. The size, scale and design of structures located within a conservation area shall be restricted in order to prevent and/or minimize adverse impacts on natural resources. Similarly, public uses should only be approved within a wetland or coastal high hazard area V zone when alternative upland locations are not feasible on an upland site outside the V zone.
 - b. Residential development. Residential development proposed as a conditional use shall be reviewed for land use compatibility based on compliance with divisions 2 through 14 of article IV and divisions 2 and 3 of article V of this chapter pertaining to zoning district regulations, including size and dimension regulations impacting setbacks, lot coverage, height, mass of building, building coverage, and open space criteria. Land use compatibility also shall be measured by appearance, design, and land use compatibility criteria established in chapter 102; articles III, IV and V of chapter 108; section 108-956; and article II of chapter 110; especially protection of historic resources; subdivision of land; access, internal circulation, and off-street parking; as well as as possible required mitigative measures such as landscaping and site design amenities.
 - c. Commercial or mixed-use development. Commercial or mixed-use development proposed as a conditional use shall be reviewed for land use compatibility based on compliance with divisions 2 through 14 of article IV and divisions 2 and 3 of article V of this chapter pertaining to zoning district regulations, including size and dimension regulations impacting floor area ratio, setbacks, lot coverage, height, mass of buildings, building coverage, and open space criteria. Land use compatibility also shall be measured by appearance, design, and land use compatibility criteria established in chapter 102; articles I, II, IV and V of chapter 108; section 108-956; and article II of chapter 110; especially protection of historic resources; subdivision of land; access, pedestrian access and circulation; internal vehicular circulation together with access and egress to the site, and off-street parking; as well as as possible required mitigative measures such as landscaping, buffering, and other site design amenities. Where commercial or mixed-use development is proposed as a conditional use adjacent to U.S. 1, the development shall be required to provide mitigative measures to avoid potential adverse impacts to traffic flow along the U.S. 1 corridor, including but not limited to restrictions on access from and egress to U.S. 1, providing for signalization, acceleration and deceleration lanes, and/or other appropriate mitigative measures.
 - d. Development within or adjacent to historic district. All development proposed as a conditional use within or

adjacent to the historic district shall be reviewed based on applicable criteria stated in this section for residential, commercial, or mixed use development and shall also comply with appearance and design guidelines for historic structures and contributing structures and/or shall be required to provide special mitigative site and structural appearance and design attributes or amenities that reinforce the appearance, historic attributes, and amenities of structures within the historic district.

- e. Public facilities or institutional development. Public facilities or other institutional development proposed as a conditional use shall be reviewed based on land use compatibility and design criteria established for commercial and mixed-use development. In addition, the city shall analyze the proposed site location and design attributes relative to other available sites and the comparative merits of the proposed site, considering professionally accepted principles and standards for the design and location of similar community facilities and public infrastructure. The city shall also consider compliance with relevant comprehensive plan assessments of community facility and infrastructure needs and location impacts relative to service area deficiencies or improvement needs.
- f. Commercial structures uses and related activities within tidal waters. The criteria for commercial structures, uses and related activities within tidal waters are as provided in section 122-1186.
- g. Adult entertainment establishments. The criteria for adult entertainment establishments are as provided in division 12 of article V of this chapter.

DEED

TRUSTEES OF THE INTERNAL IMPROVEMENT FUND
OF THE STATE OF FLORIDA

DEED NO. 19259-B

KNOW ALL MEN BY THESE PRESENTS: That the undersigned, the Trustees of the Internal Improvement Fund of the State of Florida, under authority of law, for and in consideration of the sum of Five Hundred and 00/100 Dollars, (\$500.00), to them in hand paid by the CITY OF KEY WEST, FLORIDA, a municipal corporation of the State of Florida, have granted, bargained and sold, and do by these presents grant, bargain, sell and convey, unto the said CITY OF KEY WEST, FLORIDA and its successors and assigns, the following described lands, to-wit:

A parcel of sovereignty land in Garrison Bight on the Island of Key West, Florida and being more particularly described as follows:

Commence at the Southeast corner of the "City sewerage plant property", the same point being on the Northerly R/W of Palm Avenue and also on the Northerly R/W of Garrison Bight Causeway (State Job No. 90500-3604) at right angles to station 9 plus 51.50 of said State Job; run thence South 81° 26' 23" East along the Northerly R/W of said Garrison Bight Causeway, 80 feet to the Southeast corner of U. S. Navy property described in Deed Book G-12, pages 2 thru 4, of the Public Records of Monroe County, Florida, said point being the Point of Beginning of the land herein described; thence continue South 81° 26' 23" East along the Northerly R/W of Garrison Bight Causeway, 94 feet; thence run North 53° 33' 37" East along said Garrison Bight Causeway R/W, 106 feet; thence run North 47° 37' 32" West, 203.41 feet to the East boundary of U. S. Navy property referred to above; thence run South 8° 33' 37" West along the East boundary of said U. S. Navy property, 188.2 feet back to the Point of Beginning; containing 0.446 acres, more or less.

This deed is issued for the express purpose of lifting and removing the public purpose use provision as to the parcel described herein as contained in Trustees of the Internal Improvement Deed No. 19259-A Corrective, dated July 1, 1965, which deed conveys a larger tract of sovereignty land to the City of Key West, Florida, of which the parcel described herein is a part. the public purpose use limitation in said Deed No. 19259-A Corrective being described in the following words:

"PROVIDED, HOWEVER, anything herein to the contrary notwithstanding, this deed is given and granted upon the express condition subsequent that the Grantee herein or its successors and assigns shall never sell or convey or lease the above described land or any part thereof to any private person, firm or corporation for any private use or purpose, it being the intention of this restriction that the said lands shall be used solely for public purposes.

It is covenanted and agreed that the above conditions subsequent shall run with the land and any violation thereof shall render this deed null and void and the above described lands, shall, in such event, revert to the Grantors or their successors."

TO HAVE AND TO HOLD the above granted and described premises forever.

SAVING AND RESERVING unto the said Trustees of the Internal Improvement Fund of the State of Florida, and their successors, title to an undivided three-fourths of all phosphate, minerals and metals, and title to an undivided one-half of all petroleum that may be in, on or under the above described land, with the privilege to mine and develop the same.

IN TESTIMONY WHEREOF, the said Trustees of the Internal Improvement Fund of the State of Florida have hereunto subscribed their names and have caused the official seal of said Trustees to be hereunto affixed, in the City of Tallahassee, Florida, on this the 29th day of September, A. D. 1965.

<p>Recorded in (Official Seal) MOBILE, ALA. 10/1/65 EARL R. AMN DEPUTY CLERK OF COURT TALLAHASSEE, FLORIDA</p> <p>(SEAL) Trustees I. I. Fund</p>	<p>Governor Comptroller Treasurer Attorney General Commissioner of Agriculture</p> <p>As and Constituting the Trustees of the Internal Improvement Fund of the State of Florida.</p>
---	--

NOTE:

The attached instrument is executed in the name of the Trustees of the Internal Improvement Fund, by a majority of its members. Signature of all members could not be secured by reason of absence from the United States of the member whose signature is not inscribed. Reference is made to "27 So. 2nd 524", Watson v. Caldwell in which the Supreme Court held that a majority of the Trustees may legally act for the entire Board.
