

**TREE COMMISSION TREE REMOVAL REPORT
CITY of KEY WEST**

PROPERTY: 811 Truman Ave

APPLICATION NUMBER: T2025-0213

REQUEST: The applicant is requesting removal of (1) Sapodilla Tree.

TREE ASSESSMENT and PHOTOS

Tree is growing 5 feet from home and well pump located in the box behind the tree.

Tree is extremely tall when compared to its narrow canopy. Young Sapodilla can be seen growing underneath its canopy.

Diameter: 22"

Location: 40%

Species: 100%

Condition: 60%

Value: 66.6%

Recommended Mitigation: 14.7 Caliper Inches

NOTES: The mature Sapodilla Tree is growing too close to the home and has a crown that has been excessively elevated and reduced due to suboptimal pruning and location in relation to the house. There is another young Sapodilla growing 10 feet away in a better location. The removal of the large tree would allow the young tree to flourish. We are also working with the applicant to have the queen palm removed because it is crowding the young Sapodilla Tree.
