

MEMORANDUM

DATE: December 6, 2011

RE: 114 Solano Village

FROM: Karen DeMaria, Interim Urban Forestry Manager, City of Key West

On December 6, 2011, I looked at the tree at 114 Solano Village that had been trimmed without a permit a month or so ago.

The tree is a large diameter tree (8.76" dbh). It appears to be a Lancewood tree (*Nectandra coriacea*) which is native to the Florida Keys and on the City of Key West protected tree list.
