I have served as a member of the Key West Civil Service Board since 1999.

I retired as Assistant Fire Chief of Prevention at United States Naval Air Station Boca Chica, after more than 26 years of federal service.

During the course of my employment, I participated in contract negotiations between the firefighters union Local 1566 - AFGE/AFL-CIO and United States Naval Air Station Boca Chica. I also served as shop steward for six years.

I have received training in contract negotiations for management and employees.

I strongly support affirmative action and the EEO.
