Subject: Support for tower on College Road

Dear Vanessa Sellers,

I work with a radio station and know the importance of towers, antennas and communication. With cell phones needing more wireless infrastructure and space, it's important to have good towers with adequate space for cell phones and other communication equipment.

I support Rick Richter's tower project at 5610 College Road because it's a good location with appropriate zoning, and a tower at this location will help get stronger cell phone service at Lower Keys Medical Center, Florida Keys Community College and other organizations.

Good mobile phone service is imperative in our community, especially in an emergency

The more towers, the more communication there is available, which is important in our mobile phone/communication society.

Sincerely,

Linda Hamlin Russin
