Regarding Thursday Farmer's Market

Mayor Teri Johnston and Commissioners:

I am writing to urge your support in returning the Thursday Farmer's Market to our island.

The weekly market has become not only a source for organic fruits and produce, cheese, plants, arts and crafts, it has become a social networking outlet for we local residents.

Visitors also enjoy interacting with the vendors and locals who are eager to share information with them. It reflects well on our community.

Thank you for your support of this weekly marketplace.

Stephen K. Smith
