Displacement (CID/cc)	185/3032
Bore & Stroke (in)	3.63 x 3.00
Bore & Stroke (mm)	92 x 76
Cooling System	Water cooled with thermostat & pressure controlled
Ignition System	PCM 07 multi-strike
Starting	Electric (turn-key)
Gear Ratio	1.75:1
Gear Shift	F-N-R
Steering	Remote
Alternator Amp	60 (belt-driven)
Alternator Watt	756 (belt-driven)
Trim System	Power trim
Exhaust System	Through prop
Lubrication System	Electronic multipoint oil injection
Recommended Oil	Mercury Premium Plus
Fuel Induction System	2-stage direct fuel injection
Shaft Length (inches)	25/30
Shaft Length (mm)	635/762
Dry Weight (lbs.)	505
Dry Weight (kg.)	229
Operator Warning System	Overheat, low water pressure, low oil, oil pump, TPSMAP, Engine Guardian
SmartCraft	Yes
CARB Star Rating	3
Warranty	2 Years
Corrosion Warranty	2 Years
Ethanol Tolerance	10%

## OptiMax

OptiMax 2-stage direct-fuel-injection (DFI) technology atomizes fuel, resulting in a more complete fuel burn, which in turn results in complete combustion for quick and easy starts, better performance, lower emissions, and maximum fuel efficiency. Many OptiMax engines are more fuel efficient than comparable four strokes.

Mercury's two stage DFI design works as follows. Fuel is blown into a fine mist as air is forced through it by an air compressor. This mist is ignited by the spark plug, and completely burned, reducing emissions and increasing fuel efficiency. This in addition to its tremendous power to weight ratio makes OptiMax a great choice for any government agency.

OptiMax's DFI technology provides turn key starts, better hole shot, low-end torque, and top-end speeds. It allows OptiMax to meet and exceed EPA emissions standards and the California Air and Resource Board (CARB) 2 and 3 star ratings.

The entire OptiMax line is compatible with SmartCraft systems, Engine Guardian, and Total Vessel Intelligence. 200 and 225 horsepower OptiMax's are also DTS compatible.

Mercury OptiMax 90

ABOUT

## UP TO THE CHALLENGE.

### What is the Mercury Government Sales program?

Government sales is a program designed by Mercury Marine to allow government agencies to purchase Mercury Marine products directly from Mercury Marine or through Mercury dealers. Agencies that purchase through this program will be able to take advantage of special discounted pricing and delivery options.

### Who qualifies for Government Sales?

The government sales program is available to any federal, state, or municipal agency. Educational institutions such as high schools, technical/vocational schools, colleges, and universities may also qualify. Certain tax exempt and non-profit organizations such as community rowing and sailing programs may also qualify for this program depending on the intended use of the product.

### How do agencies purchase from Government Sales?

There are two ways that product can be purchased on this program, the first being directly from Mercury Marine. Agencies may contact the Government Sales department to order Mercury product. Visit the [Contact Us](#) page for more information on contacting and ordering direct.

Agencies may also purchase Mercury product through Mercury dealers. Agencies who wish to purchase product through dealers may use the [Dealer Locator](#) to find a nearby dealer. For more information in regards to purchasing through a dealer, please locate and contact your local Mercury dealer.

Please note: not all agencies qualify to purchase direct from the factory. Please [Contact Us](#) for more information about how your agency can purchase Mercury product through the Government Sales Program.

### What are the benefits of Government Sales?

Mercury Marine is the only marine engine manufacturer with a dedicated professional staff that focuses solely on government agencies. With the ability to [contact](#) any number of individuals on our team, your agency is never far from complete service and support. Help is available for application assistance, acquisition, post acquisition, and technical questions at any time. Mercury Government Sales team is ready, willing, and able to work with purchasing personnel as well as end users. To offer

complete technical support, government agencies may also contact our [Technical Service department](#) directly in order to speak with technicians who specialize in solving and assisting with engine installation, repair, and warranty questions.

Mercury Government Sales offers the longest most inclusive [government warranty](#) available. Parts and labor coverage as well as the industries only 3 year Corrosion Failure Warranty provides a security blanket of reliability for all Mercury products.

Mercury Marine offers the most extensive [product](#) line available in both four stroke and DFI [technologies](#). All outboard engines meet or exceed EPA emissions standards and are CARB Star rated. This means that there is no mission, task, or assignment too big or too small for Mercury power.

Mercury Marine has opened the doors to our exclusive Mercury University to allow government agencies to send technicians and mechanics to service school at no charge. [Certifications](#) for installation, service, and warranty are available.

Also available is [MercNet](#), Mercury's exclusive online communication system allows government agencies to enter orders, track status, look up inventory, check pricing, look up service bulletins, view parts catalogs, and access product history at the click of the mouse.

Mercury Marine is the only outboard engine manufacturer in the world to be ISO 9001:2000 certified. Mercury also implements Lean Six Sigma principles into its activities by dedicating a staff that works daily to improve efficiency and quality, which provides agencies with the highest quality and most competitive pricing available.

Mercury outboard motors are available on [GSA](#) contract number GS-07F-0007J to federal agencies. We also hold supply contracts with several states. Mercury Marine is also CCR registered. Please contact the [Government Sales team](#) for more information on contracts and registrations.
