

Staff Report for Item 17

To: Acting Chairman Richard McChesney and Historic Architectural Review Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: August 23, 2016

Applicant: Bender and Associates

Application Number: H16-03-0061

Address: #1007-A United Street

Description of Work:

New accessory structure on side.

Site Facts:

1007A United Street is not a contributing resource, as it was constructed in 1984 according to the property appraiser's card. The two-story house was designed in a frame vernacular style and is situated at the corner of United Street and Watson Street.

Guidelines Cited in Review:

Outbuildings: Carports, Gazebos, Garages, Sheds, Shelters, & Accessory Structures (pages 40-41), specifically guidelines 1, 2, 3, 4, 9, and 11.

Staff Analysis

This Certificate of Appropriateness proposes constructing an accessory located on the side of a non-historic building. The proposed structure will be one-story with an approximate height of 18 feet. It will be much shorter than the two-story town house. It will utilize v-crimp roofing, wood siding and trim with 6/6 wood windows.

Consistency with the Guidelines

1. The guidelines state that outbuildings should be compatible with the principal structure on the lot in terms of materials, detailing, color, style design, height, scale, and massing. The proposed accessory structure is compatible with the principal structure in terms of design.
2. The design of new outbuildings must be complementary to the existing streetscape if visible from the public right-of-way. This structure will be visible from the public right-of-way. While it will be set back as far as possible on the site, it will be highly visible from United Street and Watson Street. The neighboring structures are mostly two story buildings, which the accessory structure will be shorter than.
3. If the siting of an outbuilding is considered inappropriate or intrusive to the historic district, it may be denied.

Staff feels that while the new accessory structure will be very publicly visible and is quite tall at 18 feet, the building will be complementary to the existing streetscape due to the height of the neighboring structures. Therefore, staff feels the proposed project is consistent with the guidelines regarding outbuildings.

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H- _____

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

- (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

The existing shed is not a contributing structure

OR THAT THE BUILDING OR STRUCTURE;

- (a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The shed is not distinctive or historically significant

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

The ~~main~~ shed to be demolished is not associated with historically significant events

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

No association with this criteria

- (d) Is not the site of a historic event with a significant effect upon society.

No association with this criteria

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No association with this criteria

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

No association with this criteria

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

No association with this criteria

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Not distinctive or historically significant

- (i) Has not yielded, and is not likely to yield, information important in history.

not associated with historically significant events
