RE: EQUIPMENT RENTAL LICENSE

Dear Frank:

Last month you reapplied for an equipment rental license for Ratcliffe Welding, and the City Planner agreed that this use was consistent with the other licensed uses at the property. Today, however, I was researching your file and came across restrictions that were applied to the equipment rental that David applied for back in 1988, which was subsequently issued to AAA Rental of Key West. These restrictions will still apply, and I have enclosed a copy for your reference.

Please give me a call if you have any questions.

Sincerely,

  
Carolyn Walker  
Licensing Official

RE: CITY OCCUPATIONAL LICENSE

Dear Mr. Ratcliff:

Thank you for your letter and equipment list of July 18th. Paul Cates has advised that most of the equipment you wish to rent is acceptable for your HP2 zoning, however some of the larger items are not. I have returned your list, you will note that the items indicated, such as Hydraulic Equipment, Compaction and Paving Equipment, Earthmoving and Excavating Equipment and so forth, are unacceptable for the zoning.

You may continue with your license application, which will be issued with restrictions concerning the rental equipment.

Please do not hesitate to contact myself or Paul Cates if you have any questions.

Sincerely,

I agree with the restrictions as set forth in paragraph one above, and will rent only those items approved on the aforementioned tool and equipment list. I realize that any infraction may result in the revocation of my occupational license.

RE: occupational License

Dear Mr. Cates:

This letter is in reference to a letter you wrote requesting a list of equipment AAA Rental owns. Enclosed is a list of our equipment. Some of the equipment has not arrived as of this date but should be here soon.

We await to hear from you regarding our application for an occupational license.

Thank you for your time in this matter.

Sincerely,
